MEMORANDUM

To: The Director
From: Superintendent, Yellowstone National Park
Subject: Monthly Report for September 1936

Following is the report of activities for September 1936 in Yellowstone National Park during the month of September 1936.

General

Weather Conditions. September was a pleasant month for both visitors and employees in Yellowstone National Park, clear days and cool nights. Fall colors were well developed, brilliant this year and quaking aspen were unusually deep in color, most of it showing red and orange.

At Mammoth a maximum temperature of 80° was recorded on September 19, a minimum of 29° on September 22. Total precipitation .39 inch, greatest precipitation in one day .22 inches on September 10, with reasonable precipitation on 100 days.

The maximum temperature for the park was 80° at Gardiner on September 19 and the park minimum was 13° at east entrance and lower unit on the 22nd.

The Heartbreak Snow Road from the Northeast Entrance to Gardiner, Montana, was closed during the night of September 20 due to snow and slippery conditions; however, it was opened the following day.

Increase in Increase in Travel. A total of 139,411 vehicles entered the park in 1936 and for the month of September compared to 131,003 in 1935, an increase of 8.4%. Total for the season through September 30 totaled 1,330,000 compared to 1,310,117 for the same period in 1935, a 1.5% increase. The number of visitors entering the park in first-class private automobiles passed the million mark on September 10 as compared to September 27 last year. Last year's record travel of 1,300,117 was reached this year on September 11. At midnight September 3 the 24-hour schedule at the entrance stations and chief ranger's office was discontinued and a 7:00 a.m.-7:00 p.m. schedule continued through September 27 at which time the sale of permits was suspended for the season. Whereas in 1935 the 24-hour schedule continued

through September 5, the 12-hour schedule from September 5 to 11, 8:00 a.m.-5:00 p.m. hours until the sale of credits and the end of the close of September 30.

Surveys conducted at 100 highway stations by the Forest Service from July 29 through August 6 and August 12 through 24 showed an average of 3.11 persons per automobile. It is expected that this will increase beginning January 1, 1937, based on 3.25 which has been used for a number of years and which was based on a previous actual count. This factor is multiplied by the number of vehicles to arrive at total visitation.

Special Visitors. Charles E. Bell, Superintendent of Parks, Minneapolis, Minnesota, in connection with his visit September 2.

Stuart Jewell, Salt Lake Productions, who arrived August 11 to film summer segment of color film picture of the park, was here to Teton September 5.

Horace W. Albright, member of National Geographic Society Board and former Superintendent of Yellowstone from 1915 to 1920 and Director of the National Park Service from 1923 to 1933, arrived August 31, departed September 6 to attend the National Conference of State Parks meeting at Jackson Lake Lodge.

Julius A. Krug, former Secretary of the University, arrived September 3 with a party of four and stayed at Elbow Lake Hotel.

Arthur Godfrey, famous radio and motion picture star, and Milward Simpson, Governor of Wyoming, in September 5; arrived at Elbow.

Orvin E. Hare, U. S. Congressman from Montana, arrived September 13 and discussed closure of Gardiner camp.

E. C. Froethwaite, Assistant Commissioner, Bureau of Reclamation, Washington, D. C., in September 15.

Mohammed Farouk, head industrial research mission, Pakistan, in September 15.

Inspections. John W. Lewis and David L. Lewis arrived 31 on transfer from Superintendent, a United States National Monument to Superintendent, Isle Royale National Park, departed September 3. He is a former Yellowstone Park Ranger.

John G. Gynn and Clarence E. Chapman, Foresters, U. S. Forest Service, Missoula, returned September 4 in connection with fire control work in the park and departed the 5th.

George Peak, Game Survey Leader, Soil Conservation Service, Casper, Wyoming and Keith Miller, Game Survey District Leader, North

Engineer, Bureau of Public Roads, Denver, in charge September 20, on preparation of ten-year program and on other matters, arrived Teton the 23rd for Teton.

Carl F. Russell, Inspector, Glacier, 1885, in 1911, September 21 to participate in road conference, etc., but east 21st for Rocky Mountain National Park.

Carl L. Brown, Supervising Architect, Contract, San Francisco, 1885, on assignment as building construction representative at Grand Teton, in South September 20 for his opening and to facilitate in the program for construction of National Park building buildings at Canyon and Lake. They returned to Teton the 21st.

Carl A. Brown, Landscape Architect, Division of National Parks, Construction, 1885, Washington, D. C., in from Teton September 21 on visit to Region Two Office and make of region two areas; left for 21st for Wind Cave National Park.

C. Gordon Fredine, Principal Naturalist, 1885, 1885, 1885, Office, met Biologist Kittans at Teton Falls September 17 and accompanied him to Glacier and on return to Yellowstone the 22nd where he conferred on fish and wildlife matters. He left for Teton the 27th, returned to Yellowstone the 30th and expects to depart October 1.

Joel L. Langhofer, Chief Engineer, 1885, 1885, 1885, Denver, who arrived June 20 to have charge of small area in region two mapping of the park, left September 24. David L. Burke, 1885, 1885, U.S.A., who arrived June 1, departed the 22nd.

Francis A. Robinson, National Architect, 1885, 1885, 1885, September 24; left 26th for Teton.

Paul H. Miller, Chief Engineer, 1885, 1885, 1885, September 25 with Superintendent and Mrs. 1885. 1885, 1885, 1885, Highway Engineer Donald Wheeler from Grand Teton National Park. Mr. Miller was on field trip to various western parts and regional offices. He departed September 27 and north through, the 28th returning to Teton the 26th.

W. Leon Evans, Assistant Superintendent, 1885, 1885, 1885, a former Assistant Chief Ranger of Yellowstone, and Mrs. 1885, 1885, September 26 for visit, departing September 29.

Philip H. Mohlman, National Engineer, Region Three, formerly Park Engineer, Yellowstone, arrived September 27 for several days visit in the area.

Henry Stengel, Landscape Architect, 1885, 1885, 1885, arrived September 29 on return to San Francisco from former assignment at Glacier National Park and reviewed the Canyon development, leaving the 30th.

Special Activities. Superintendent Rogers was in camp at Grand Teton National Park September 7 to the 10th. Mr. Rogers, National Park Service Advisory Board member and former Yellowstone Superintendent and WFS Director, left on the 10th for that park. On the 7th he returned to Teton to attend the annual meeting of national Conference on State Parks held at Jackson Lake Lodge September 7-11, returning the 11th. The group in attendance found Yellowstone was 11th with Chief Naturalist Condon and Chief Ranger Brown as guides. Mr. Rogers went to the library at Jackson September 11 to research for his project covering the legislative history of state administration for the National Park Service and on the 20th he inspected the building road with Director Wirth and conferred with Yellowstone Park Game Warden Nichols at his ranch on the Gallatin. He left the 13th on the next vacation to locate a house and office space in connection with his new position in Denver as Special Assistant to the Director to continue his legislative history project on a full-time basis beginning about November 1. Assistant Superintendent Williams was acting Superintendent during his absence.

Management Assistant Spivey departed September 7 for Glacier National Park to attend the Pacific Northwest Travel Association meeting held at the Banff Glacier Hotel and returned 8-10. He returned to the following a period of annual leave to himself and North American.

Biologist Little left September 11 for Great Falls, Montana, where he met C. Gordon Braden, the principal geologist, and is continuing to Glacier and returning to Yellowstone on the 20th.

Assistant Chief Ranger Warr made a trip to the Grand Teton National Monument September 3 and 4 to inspect the area and assist Ranger Michael Cedar in closing it down for the season.

The Hole Ranchers' Association held its 25th annual meeting at the Canyon Hotel on September 7. Rogers, Brown, Little, Williams, and Child were in attendance.

Campfire Day, September 15, commemorated the historic campfire of the Washburn-Langford-Lane Party of 1870 around which this group of unselfish men succeeded in establishing Yellowstone as our first national park, was celebrated by Yellowstone with a picnic dinner, the honored Director and Mrs. Conrad C. Wirth who were in the park. The group gathered around a campfire at the historic site at the foot of National Park Mountain in an appropriate setting which included a dinner mounted with Nathaniel P. Langford's old saddle and 1870 naturalist Condon spoke on the events leading up to the historic campfire, the route taken by the party and the efforts which led to the enactment of the law creating Yellowstone National Park on March 1, 1872, as the first national park in the world "for the benefit and enjoyment of the people". Around another campfire in the Jackson Junction picnic ground the picnic was held later with appropriate talks, group singing and recreation. Some 150 persons, consisting of park employees, their families and some park visitors joined in the celebration.

Devil Tower National Monument is being celebrated its Golden Anniversary on September 21. It was the first of all national monuments, having been so proclaimed by President Theodore Roosevelt in 1906. Regional Director Lamm was invited by Secretary of the Interior Reaton and Director Keith spoke at the celebration. Supervisory Park Ranger Dale A. Lee, and seasonal Park Ranger Larry A. McLaren, Albert A. Garne and Bill J. Leach, Jr. were assigned from Yellowstone to help direct traffic. A special commemorative stamp for the occasion went on sale September 21.

A meeting was held September 21 in the Chief Ranger's office to discuss the fish management program. W. Brown, Biologist, National Naturalist, Biology, Washington Office; E. J. Low, Chief, Rocky Mountain Investigations, Fish and Wildlife Service, Yellowstone Lake; and Chief Ranger Brown, Biologist Kittams and Assistant Chief Ranger Lamm were present.

Staff meetings of Division and various other were held September 6 and 20 in the conference room.

Joseph Joffe was the recipient of an Executive Order from the Region Two Committee for his suggestion that requests for information in contemplation of a work trip regarding a permit to work in the park be handled efficiently by attaching to the request a 3" x 5" slip of paper giving specific answers, thus avoiding the writing of individual replies to each correspondence.

On September 19 Superintendent Lamm appointed a committee to function as the Place Names Committee for Yellowstone National Park for the purpose of arriving at suitable names for consideration by the Board on Geographical Names for their approval. The committee, Chairman, Jack F. Baynes, Warren F. Hamilton, Dale A. Lee, Merrill Seal and Aubrey L. Wainers.

The Yellowstone Park Elementary School started September 1, following registration the previous day, with Mr. Albert Wainers and Mrs. Christine Reed again acting as teachers. The Junior High School, which is attended by Junior High and High School students from all over the park, opened September 1.

The summer mail schedule was discontinued at the end of September 6 and effective the 7th all mail leaving the park left at 10:00 a.m. instead of 1:00 p.m. for westbound mail and 6:00 a.m. for other mail. After September 3 there was no more daily mail for the season. September 29 was the last day for the 211 official postal station and for mail delivery on the west side of the park by post to Yellowstone. The West Thumb postal station closed September 15 and that at Fishing Bridge September 25; however, the Canyon station will remain open until about the end of October due to the extensive construction under way at that area.

Beginning September 1, the following stations at the five sources are in the field service. The following stations at the sources of 7:00 a.m.-7:00 p.m. become full-time.

The collection of the water which flows from the various park entrances was discontinued at the close of September 1.

The fishing season is now closed. The following are the fishing stations, including the following, closed at the close of September 1. All other waters will remain open to about October 15.

Blackfoot. A National Outfitters Association convention was sponsored at the National Hotel on September 1, 2 and 3 in the National Outfitters, an organization composed of square dancers who have traveled at least 100 miles on the square dance. The convention was held at Phoenix, Arizona, and was attended by many people from various states registered. The convention was held at the National Hotel and the National Outfitters Association, and the National Outfitters Association for the year 1931. The National Outfitters Association is the national organization of the National Outfitters Association. The organization is composed of the National Outfitters Association.

A pot luck supper was held in the National Outfitters Association, and Mrs. Carrie Murphy, who left September 1 for Tulsa, Oklahoma, to serve as resident minister to the pack for the year 1931.

The American Federation of Teachers, which is a regular monthly meeting in the National Outfitters Association.

Deaths. Julia Pearl L. Brown, 5, daughter of Mr. and Mrs. Secretary of the Interior from 1911 to 1913 and chairman of the National Board of the Interior for a number of years prior to his resignation, died in Washington, D. C. on September 3. He is the father of Mr. Brown. Brown's death is reported in the National Outfitters Association.

A. H. ("Red") Williamson, 40, father of Mr. Thomas L. Brown, died September 11 in a Veterans Hospital at Houston, Texas, after an extended illness. Funeral services were held at the home, on September 11 with burial here in the National Outfitters Association.

Mrs. Carrie L. Brown, 77, widow of Mr. Brown, died September 21 in a hospital, California, Oakland. Funeral services and burial were at Berkeley, California, on September 27.

Advice was received from the National Outfitters Association that Tomlinson, a long-time member of the National Outfitters Association, had been assigned to the National Park Service areas and would be assigned to the National Outfitters Association, October 11, 1931. Funeral services were held at the Golden Gate National Cemetery, San Francisco, California, on October 1.

Births. A son, Thomas Bruce, was born to Mr. and Mrs. J. Earne at the Livingston Memorial Hospital on September 1. Mr. Earne is a Mechanic (Heavy Duty) with the National Park Service.

Marriages. A. Irwin, Jr., Assistant Park Ranger, Operator, and Charles L. Cravallin, Jr., as above, married, Foreman for McNeil Construction Company, were married at Livingston, Montana, on September 2.

Bonnie Gaye Larkin and John Royce, married, were married in the Yellowstone Park Chapel. Mr. Royce is a Foreman of Mr. and Mrs. George Larkin of Gardiner and was sent the regular part of his time at Gardiner and in the park. Mr. Royce is a long-time employee of Wayne Inc. The couple met while she was teaching school in Gardiner. Following a couple weeks visit in his country home, they returned to Gardiner where they will make their home.

Julia Marie of Bozeman, Idaho, and Harry J. Harker, Park Ranger, were married September 9 at Idaho Falls, Idaho.

Marlene Thomas of Gardiner, Idaho, and Mr. William, Fire Control Aid (Smoke-Jumper and loader), were married at Gardiner on September 11.

Mary Talbot and Arlen Parkes were married in the Yellowstone Park Chapel September 13. Both are employees of Gardiner, Idaho, and Mr. Parkes is the father of John Parkes, manager of the General Store and Coffee Shop.

Administration

Personnel. Donald A. Stewart received a career-conditional appointment as Plumber, Ungraded, 2.20 per hour, effective September 2.

On the same date John A. Laro was given a career-conditional appointment as Packer, Ungraded, 1.12 per hour.

Mrs. Eleanor J. Chisholm received an extended appointment (career-conditional) as Telephone Operator, 11-1, (when actually employed) effective September 2.

Stanley McDonald entered on duty September 1 as Assistant Park Ranger (Chief Park Ranger), GS-11 at Olympic National Park, promotion and change of headquarters from Supervisory Park Ranger (Assistant Chief Park Ranger), GS-9, Yellowstone.

Bruce A. Adams, Park Ranger, GS-6, transferred his headquarters to be effective at the close of October 1.

Additional seasonal ungraded positions were established and the following career-conditional appointments (subject to approval) were made: James A. Mephurn, Automotive Mechanic Helper, 1.12 per hour;

Ernest E. Lanning, George O. Jupp, Lennie J. Williams, Bill J. Lanning, Truck Driver, Heavy Duty, \$1.93 per hour; Byron C. Lanning, Typist, Hape and Donald W. Lanning as Operators, General, \$2.17 per hour; Lennie J. Davis, Academic, Communication, \$2.17 per hour; and Lennie J. Williams, McFulin, as Helper, Electrician, \$2.17 per hour.

Designations of seasonal personnel included those for Lennie J. Williams, McFulin, Messenger, 02-1, at the site of Webster 7; Fred E. Lanning, Clerk-Typist, 02-3, September 7; Lennie J. Williams, Clerk-Typist, 02-3, September 11; Martin J. Lanning, Clerk-Typist, 02-3, September 11; and Phyllis E. Lee, Clerk-Typist, 02-3, September 11. Lennie J. Williams received a temporary appointment as Clerk-Typist, 02-3, effective September 16 and Wallace Lanning received a temporary appointment September 21 as Project Clerk, 02-1 (11) to assist in the work of the at Cannon.

In-crisis Training. Lennie J. Williams, Lanning, Lanning, Lanning, attended the Fifth Department of the National Training Program at Washington, D. C. beginning September 10 as a course representative. The course will continue through April 15, 1977.

On each Thursday Lennie J. Williams, Lanning, Lanning, Lanning, employed, course representatives at the National Training Program at Washington, D. C.

Accidents and Traffic. Lanning, Lanning, Lanning, Lanning, were reported during the month, 11 accidents were reported (major accidents), 7 Class 1 (personal injury and property damage) and 11 Class 2 (minor property damage).

Cooperative Activities

General Liability. The comparative liability claims for 1976 were sent to the party's mailing list on September 10.

A press release was issued September 12 to local newspapers regarding repairs to the Yellowstone River bridge near Tower Fall and resultant interference with travel and load limit of 7,000 pounds gross weight. On the 21st a release was sent to the media regarding the repair and restoration to 10-ton gross load limit and a 10-ton load limit on the Lewis River bridge.

On September 21 a press release was sent to a portion of the party's mailing list on the party's celebration at the Tower Fall on September 19.

A total of 10,360 Yellowstone bridges were inspected during the end of September.

Religious Services and Chapel Dev. The regular National Ministry Program of religious services in the Yellowstone National Park Chapel continued through Sunday, September 30. The last sessions of the Student Ministry Program out to the party were conducted on September 21.

with services being held in the Old Catholic cemetery hall. Roman Catholic services terminated on September 2 and the L.S. services on September 9.

On September 1 the committee for a Christian Summer at Yellowstone National Park held their annual fall meeting where they transacted the business of the year, listened and reported from the Minister in charge, a report on the activities of the Summer Ministry Program. The program was highly successful in all respects and from the monies received as offerings it was able to pay all expenses of operations and make a generous contribution to the National Council of American Christian Ministry Fund.

Rev. Frank Murphy who served as the assistant minister at Faithful during the season of 1935 and as the summer minister at Mammoth during 1935 and 1936 terminated his service on September 2 and left the park for Tulsa, Oklahoma on September 8. His service rendered the community especially helpful and he is a great blessing to those who have participated in the work in summer. Mr. Frank Murphy is succeeding Mr. Murphy as the assistant minister for the coming season.

The regular winter Sunday school was not held in September 1936 and will be held in the Yellowstone National Park Chapel each Sunday morning during the winter months. The Sunday school is suspended at the Sunday school this year.

Interpretive Territory. The interpretive territory is located at various field stations but the park was closed at various stations on the following dates: Fort Union on September 3, Madison on September 6, Madison Junction, and the lower part of the park on September 13, and the upper part of the park on September 13.

Mammoth has continued to offer interpretive services to special groups and the museum has remained open for public use. The program provided at the field stations continues to be held in the nature of services rendered with the reduction of park visitation and the consequent reduction of personnel. Evening programs were suspended at Mammoth, Old Faithful and Fishing Village as in the last few months the park was closed.

Park Naturalist Condon presented a special talk to the State Park's Convention Group at Jackson Lake on September 5. There were about 200 persons in attendance at the program and the talk given was on the inspirational resources found in Yellowstone. It was illustrated with a film made by Condon on September 11. This same State Park's Convention Group were conducted on the auto caravan guided by Park Naturalist Condon and Park Ranger Otto. From through Yellowstone Park. There were 17 cars participating in the caravan and about 70 people. In addition to members of the State Park's Convention Group a number of park visitors in their automobiles joined the group and participated in the visits to points of interest. A special dinner was set up for this program and others to.

In the evening of September 1, a special campfire was held at Madison Junction for the purpose of commemorating the campfire held at this site on September 12, 1870 when the "Lansford" party was camped here and the national monument was suggested. A simulated camp of the "Lansford" party was set up at the original site and individuals posed for pictures to represent the scene as it might have appeared in 1870. A tent was erected, saddles and other gear arranged in the camp area and a packhorse and mule were used for transportation. Park Naturalist Corson gave a short talk to a group of about 125 people at the site of the "Lansford" party camp. This segment of the program was followed by a general picnic at the adjacent Garfield and then a gathering of people in the campfire circle at the camp ground. Director Gerald L. Ford spoke to the group as did also Superintendent Rogers and Mr. Paul J. Corson. Park Naturalist Corson served as Master of ceremonies for the program and all in all it proved to be successful.

A new amphitheater was constructed during the month at West Thumb and considerable work was done in the installation of the bench piers and the general layout of the amphitheater.

Park Naturalist Corson presented the special program during the month. On September 2 he gave a talk on "Geology in Idaho," at the Canyon Hotel to the Rural Mail Riders Association of Idaho, Montana, and Wyoming. There were about 40 persons in attendance. On the evening of September 3 he presented a talk to the group at the Canyon amphitheater to 30 students. Park Naturalist Corson gave a talk on the inspirational messages of all geology and geologists as illustrations to 30 people at the U. S. Forest Service Administration, Montana on September 13.

On September 24 Park Naturalist Corson gave a talk to 40 geology students from the Park County High School of 13 students in the Headquarters Museum and then took the group on a one hour guided trip over the hot spring terraces at Mammoth. This trip was led by Old Faithful and were taken on a guided trip over Mammoth Hill by Park Naturalist George T. Harlan.

Museum Activities and Visits. On September 1, a visit from Mr. Francis L. Aronson, letters and manuscripts, photographs, etc. . . . Lansford and his association with Yellowstone. These items were loaned to Mr. Ansel Hall by Lansford. . . . and in some cases, . . . in Mr. Marguar's possession and he in turn has loaned them to Yellowstone.

The museums were closed to public use as follows: Norris, Madison Junction, and Fishing Lake on September 13, (10 a.m. to 11 a.m. on September 29, and the Mammoth Museum is continuing to be kept open for public visitors.

Research and Observation. The autumn leaves during the month of September presented one of the finest displays of color that have been seen in years. One of the unusual characteristics of the

Canyon Hotel and Old Faithful Inn which were closed after 11:00 September 6, on which date the Mammoth Hotel dining room and grill closed after dinner. The Mammoth repair shop also closed September 6 and the saddle horses and buses ceased operations. The Mammoth cafeteria closed after breakfast September 8 and the Canyon tourist cabins and repair shop on that date. The Old Faithful Lodge dining room closed after breakfast September 15.

The telegraph office at the Mammoth Hotel closed September 15 and the teletype machine was moved to the National Park office building office for the winter. The Lake and Island House restaurant ceased operations September 15 and on the 16th the Old Faithful tourist cabins, Mammoth Hotel rooms and cottages, the Old Faithful Inn rooms and the Hamilton West Thumb general store and service station closed. The Hamilton Upper Basin Auto Camp closed at Old Faithful and the Mammoth Coffee Shop closed September 17 and the Hamilton fishing and general store closed on the 25th. The Yellowstone Park Company business moved from the Mammoth Hotel to Helena on September 29 with the exception of Vice-President Child's office which moved to Gardiner for the winter. The Old Faithful Lodge cabins with bath and the fishing and tourist cabins, cafeteria and repair shop closed September 30. The only accommodations remaining open are the Old Faithful tourist cabins, cafeteria and repair shop, which will close October 15, and the general stores and service stations at Old Faithful, Lake, Lamar and Mammoth. Meals and lodgings will be available at the Old Faithful general store from October 15 until about December 1, depending on winter conditions. The Mammoth general store and service station will remain open throughout the winter.

Dr. Alfred E. Luck arrived September 1 from Chicago, relieving Dr. John A. Pearson, and will remain in charge of the medical service in the park until the Mammoth Hospital closes October 1.

Dr. Frank Grosius, resident physician, left September 1 for additional medical work at the University of Oklahoma. A replacement had not been selected by the end of the month. A nurse will remain at Mammoth following Dr. Luck's departure and until a new resident physician can be obtained.

A. A. Nichols, President, Yellowstone Park Company, left September 24 for his ranch on the Gallatin River.

The Hamilton Stores, Inc. general store at Gardiner was robbed September 24, with \$41.47 and some merchandise valued at \$100 having been taken. Two youths were apprehended at Billings, Montana, September 28 with some of the money and stolen property.

Complaints. Two letters of complaint were received during the month, as follows: dissatisfaction with Lake Hotel service and price thereof, and unsatisfactory condition of fishing and tourist cabins.

Maintenance. The road crew spent the majority of their time on routine fall maintenance, including clearing of ditches and culverts, putting up snow stakes, grading of badlands, etc.

The road striping crew finished its job by the middle of the month.

A special trail maintenance crew spent most of the month re-working the Red Rock Trail, which was in extremely poor condition.

An extension of the seasonal office to building 30, later the office formerly used by the doctor was completed this month. This involved rather extensive carpentry, plumbing and painting work. The old doctor's winter office in the same building would be completed in a few days.

The paint shop, building no. 29, is a major project in renovation during the month, including the re-working of the roof, shingles and painting of the exterior. The painters also began the painting of the exterior trim of the smooth lower house, building no. 28. The carpenters also spent time on the re-working of stairs and trim on the hospital, preparatory to the painting of the exterior portions of the building, building no. 28. Some of the carpenters were also utilized on re-working the porch section of the U. S. Post Office at Canon.

Protection and Ranger for Ice. Protection during the month includes guard duty, patrols in areas adjacent to houses, ranger moves, closing of lookouts, trips to collect supplies, fuel, food and supplies for winter operations, resetting ranger stations for snow, bear trapping, and the sale of permits through September 27. All the seasonal ranger remained on duty at the end of the month.

Law Enforcement. Fourteen cases were processed during the month. U. S. Commissioner during the month on 12 separate occasions. There were traffic violations and drunken driving totaling 1240. The offenders were sentenced to 60 days in jail and imprisoned in the prison at Canon, a Government Reservation. Two prisoners were imprisoned for hearing in the U. S. District Court for Santa Fe, New Mexico, for burglary and seven cases of larceny were not cleared or closed.

Wildlife and its Cultural Relations. The decrease in travel near the end of the month, fewer cars leaving the highways. Many of them went into areas and places of habitation and were trapped and sent to other areas in the area. A total of 107 persons have been reported injured by bears in the past season compared to 73 last season and 100 the year before. The reports of property damaged by bears were reported for the season to date compared to 121 and 115 for 1953 and 1954, respectively. The bear deaths attributed to traffic accidents have been reported and 13 dangerous bears were killed to prevent further injuries and deaths.

is evidenced by the abundant fall of apple- and pear-seeds from trees and seeds on the ground.

Latest examination of Snake River and Upper Front and Lost Creeks on September 27 suggested good nesting results of critical 5000-foot range since studies were initiated in 1954 and especially successful in certain sectors during summer 1955.

Mr. Fredins participated in discussions of wildlife problems on September 21, observed conditions at Yellowstone, Yellowstone, Yellowstone and Firehole ranges and studies being conducted by the Wildlife on September 25 and 26 and visited the central lower portion of Jackson Valley with Messrs. Joffe, Johnson and others before returning to Teton on September 27.

Forest Fire Protection. - Summer was a hot, dry one with periods of high burning index readings. There was very little fire occurrence after September 10 and fire occurrence followed a similar pattern.

Three Class A lightning fires, one Class A smoker fire and one Class A camper fire occurred during September. Also a Class A fire occurred in the Inauw Lake area. During the summer through September 30 there were 20 reportable fires, 12 of which were caused by lightning and 8 were man-caused. There were 17 Class A fires (1 acre-1 acre), 2 Class B (1 to 10 acres), and 1 Class C (10 to 30 acres) reported. In 1955 there were 17 reportable fires, 11 of which were lightning, 3 Class B, and 1 Class C, 12 total 11 man-caused and 1 man-caused.

All primary lookouts were closed on September 30 due to lack of manpower. Weather conditions were fairly favorable for closing the lookouts as there had just previously been a moderate shower over the park; however, had manpower been available the lookout personnel would have been retained until some precipitation had occurred.

Fire Weather Measuring was continued on September 26 at all nine Park Fire Weather Stations.

Fire Cache Supervisor Tracy went the greater part of the month reconditioning equipment which had been down on Fire Cache road, checking in equipment from personnel who are leaving, packing fire trucks, closing Mt. Washburn Lookout and making permanent installations for the fire weather instruments.

Smokeburner Squad Leader William Thompson reported the Smokeburner loft at the West Yellowstone airport, the contract being in return to Lewiston, Idaho, on August 31.

Tree Diseases. Foresters John C. Van and Clarence Chapman, U. S. Forest Service, Missoula, Montana, were in the park September 1 and 5 aiding Forest Ranger J. H. Johnson with the Gristle Rust Control project.

Packer Card was assigned to packer duties at the mine on September 17. He completed his assignment and was sent back miles to Lamar Unit October 1.

Design and Construction

Plans, Maps and Survey. A number of the top officials were at the park during the period September 21 to 23 to discuss the 10-year road program with the park staff. This group included Charles Robertson, Regional Engineer, Region Two; Charles E. Granger, Landscape Architect, Western Office, Division of Design and Construction; Dan Harrington, Engineer, Bureau of Public Works, Denver; and Leroy Brown, Program Officer, Region Two.

Francis H. Robertson, Regional Architect, Region Two, was at the park from September 21 through September 23 to discuss the park building and utilities maintenance program. Paul W. Miller, District Engineer from the Washington Office, was at the park from September 21 through September 29 to discuss park construction program.

New Construction. The Top Construction Company of Willing was awarded the contract September 5 for the bituminous surfacing of certain areas from two miles north of Lake Junction to Littleton. Also, bituminous surfacing of the four miles from Canyon Junction to Littleton and parking areas in the commercial area at Canyon Village. The bid was for \$53,132. Work was started during the month.

Bids were opened September 15 for the construction of a visitor center building, three employee quarters building, employee bathroom, utility building, district ranger's residence, camp ranger's residence, wash-house, horse barn, and liquid petroleum gas system, all in the new Canyon Village area except one employee apartment building at Lake. Top Construction Company of Willing was low bidder at amount of \$735,437.20. Recommendation was made that bid be accepted on portion of project, including the horse barn at Canyon and apartment building at Lake, in amount of \$655,087.50; however, award had not been made at the end of September.

Progress on the other contract, construction of National Park Service projects is shown in the attached Forms 1-21 and 10-711 with additional comment by Park Engineer found on the latter project as follows:

Lake Lodge Cabin Area Road--work still being done on road. Completion of water and sewer system now under contract.

Fishing Bridge Camp, Camp Road--water and sewer construction finished during month so that the project was complete. Road grade time and money was spent collecting rock barriers and re-paving road surface caused by excessive damage by heavy and light automobiles.

Water System Extension, Department Arch, Lake--work was progressing quite well except for various mechanical work still being done on machine delivery of materials.

Water, sewer, power, and telephone lines are being laid out. The
ins quite well except for some small gaps in the delivery of materials.

Construct Trail to lower falls and to the dam, work is
nearly about 60% complete.

Construct Trail, Canyon Village to hotel and to the dam. Trail
from village to rim has been surfaced. Work on trail from hotel
is started.

Utilities. This work was completed for water, sewer, and
power lines, furnishing and/or installing of all equipment for the work
but time was extended to December 1.

W. J. Rogers
Superintendent
