## THE NATIONAL PARK SERVICE

Since its inception in 1916, the National Park Service has been dedicated to the preservation and management of our country's unique natural, historical, and recreational areas. The National Park System encompasses 337 separate areas in the United States, Puerto Rico, and the Virgin Islands. Included are outstanding sites of natural beauty and grandeur, properties preserved to reflect the historical development of the United States and the prehistoric civilizations on the North American continent, and recreational sites and facilities that serve the need for relaxing activity, leisure, and inspiration.

Besides the headquarters office in Washington, D.C., there are 10 regional offices, a service center in Denver, Colo., and an interpretive design center in Harpers Ferry, W. Va. The National Park Service is a bureau of the U.S. Department of the Interior, and should not be confused with the Forest Service, which is a bureau of the U.S. Department of Agriculture.

For information on permanent employment in the National Park Service, obtain a brochure from any of its regional offices. See the addresses of regional offices on page 13.

## SEASONAL EMPLOYMENT OPPORTUNITIES

Each year millions of people visit the areas of the National Park System. To meet the needs of these visitors, the National Park Service augments its permanent work force with people hired on a seasonal basis.

Besides assisting the permanent staff during periods of peak activity, seasonal employment introduces young people to the professional opportunities which the National Park Service offers.

These jobs are difficult to get because: (1) Applicants far outnumber the positions available, particularly at larger, well-known parks; (2) Most positions are filled by people returning from previous seasonal employment with the National Park Service; and (3) Office of Personnel Management regulations require that veterans be given preference among qualified applicants.

Therefore, summer employment opportunities are **EXTREMELY LIMITED AND COMPETITIVE**. Only those applicants who meet the appropriate requirements and all the conditions of employment described in this booklet will receive consideration.

### GENERAL INFORMATION

The initial grade level for seasonal positions in the National Park Service ranges from GS-2 for clerical and park aid positions to GS-4 for technician and park ranger positions. Check with any federal installation or Office of Personnel Management office for current salary information for these grades. Prevailing local wage rates govern maintenance and crafts positions.

The standard workweek is 40 hours. Additional compensation is provided for overtime worked. Most seasonal positions require irregular hours of work, including Saturdays, Sundays, holidays, and evenings.

Most seasonal technicians, aids, and rangers are required to wear the official uniform. Specific uniform requirements and ordering information are contained in the employment package forwarded to successful candidates. An allowance authorization, which covers partial expenses, is issued before entry on duty.

No positions discussed in this booklet require teams (such as husband and wife), although a few team positions may be available. For further information, contact the park area in which you desire employment.

Address specific questions about area living conditions and similar matters to the park or office where you desire employment.

## EQUAL EMPLOYMENT OPPORTUNITY

You will be considered without regard to race, color, religion, age, sex, marital status, non-disqualifying handicap, political affiliation, or other non-merit factors. However, you must be a United States citizen.

## GENERAL REQUIREMENTS FOR PARK AIDS/TECHNICIANS/RANGERS

Seasonal positions that involve law enforcement or public safety duties generally are restricted to persons at least 21 years of age. Because many seasonal positions require frequent or occasional strenuous activity, a medical examination may be required, at the applicant's expense, before appointment.

For Seasonal Technician, Aid, and Ranger positions you must be in excellent physical condition and may be required to have a valid driver's license. You must be at least 18 years of age by May 13 to gain consideration for a summer job. You should have vision correctable to 20/30 (Snellen) in each eye. However, if your vision is less than 20/30 in one eye, you can be considered if the other tests 20/20 with or without glasses. Some severe physical disabilities may disqualify an applicant if the condition interferes with the job's performance requirements.

## AREA OF CONSIDERATION

Each applicant may be considered for TWO SEPARATE PARK AREAS AND FOR TWO TYPES OF JOBS IN EACH OF THE TWO PARKS, NATIONWIDE.

## SUMMER EMPLOYMENT FOR CLERICAL JOBS

Applicants for summer clerical jobs— typist, stenographer, information receptionist, office machine operator, or administrative clerk— may submit an application (S.F. 171) to the National Park Service Region or Office where they wish consideration. Typists and stenographers may provide proof that they have the required skills. This may be established by a certificate of proficiency based on a performance test administered by a public, parochial, or properly accredited private high school; or by a business, commercial, or secretarial school; or by a college or junior college; or by a school approved by the Veterans Administration for educating veterans and their dependents; or by a state or local employment service office.

Most summer clerical positions are located in the Washington (headquarters) Office. Applications will be accepted according to the filing dates specified in the Office of Personnel Management's Summer Job Announcement No. 414. There is no written test for summer clerical positions.

## SEASONAL POSITIONS IN THE NATIONAL PARK SERVICE

### SEASONAL PARK TECHNICIAN

---

Initial grade is GS-4

**Duties:** Fee collection, dispatcher, information desk, guide, firefighting, lifeguard, conservation, restoration, interpretation, law enforcement, or public safety duties. Jobs are initially filled at grade GS-4 and exist in most areas. In the National Capital Region in Washington, D.C., jobs involving visitor information services usually begin before June 1.

**Qualifications:** 1½ years of experience of a general nature and 6 months of specialized experience directly related to park operations, recreation, or conservation work that provides good knowledge of standard practices required in park operations. Successful completion of at least 2 academic years of college study may be substituted for the required experience if coursework includes any field-oriented natural science, social science, history, archeology, police science, park and recreation management, community outdoor recreation, dramatic arts, or other disciplines related to park management. (Some seasonal park technicians perform lifesaving and rescue work as part of their overall duties. In those cases, applicants must meet the lifesaving and rescue qualifications required of seasonal lifeguard applicants, which may include passing a performance test.) Applicants may be required to possess a valid state driver's license. Applicants for positions involving predominantly law enforcement or public safety duties must also meet Departmental and Bureau requirements. These positions are restricted to persons at least 21 years of age.

**How to apply:** Contact any National Park Service Regional Office listed on page 13 for the correct application 10-139. When applying for a Summer Seasonal Position, submit a completed application 10-139 between September 1 and (postmarked by) January 15 to the Seasonal Employment Unit, 18th and C Streets N.W., Room 2229, Washington, DC 20240. When applying for a Winter Seasonal Position, submit a completed application 10-139 between June 1 and (postmarked by) July 15 to the Regional Headquarters or Park Area you want to work in.

### SEASONAL PARK AID

---

Grades GS-2 and GS-3

**Duties:** Similar to those of seasonal park technician described above, but more basic and more closely supervised.

**Qualifications:** For grade GS-2, 6 months of experience of a general nature in park operations or in related fields; or a high school diploma or certificate of equivalency. For grade GS-3, 6 months of experience of a general nature plus one season (at least 90 days) of experience directly related to park operations, recreation, or conservation work. Successful completion of one academic year of college study may be substituted for the required experience if coursework includes any field-oriented natural science, social science, history, archeology, police science, park and recreation management, community outdoor recreation, dramatic arts, or other disciplines related to park management. Applicants may be required to possess a valid state driver's license.

**How to apply:** Same as for Seasonal Park Technician (page 6).

## SEASONAL PARK RANGER

---

Only a limited number of seasonal park ranger opportunities exist. Initial grade is GS-4

**Duties:** Visitor services, such as interpreting for visitors a park's natural, historic, or archeological features; planning and implementing resource management, including fire control; search and rescue activities; or law enforcement and providing for visitor safety.

Jobs are initially filled at grade GS-4 and provide close support to permanent employees. Most history-related jobs are in the Mid-Atlantic, Southeast, and National Capital Regions. Most archeology-related jobs are in the Western and Southwestern Regions.

**Qualifications for a GS-4:** 2½ years of successfully completed college study in such fields as park and recreation management, any field-oriented natural science, American history, law, anthropology, archeology, police science, business administration, dramatic arts, or the social or behavioral sciences; or 2 years of progressively responsible experience in park, forest, interpretive, or conservation work; or any combination of such qualifying experience and education totaling 2 years. Applicants for positions predominantly involving law enforcement or public safety duties must also meet Departmental and Bureau requirements. These positions are restricted to persons at least 21 years of age. Applicants may be required to possess a valid state driver's license.

**How to apply:** Same as for Seasonal Park Technician.

## SEASONAL CLERICAL

---

Grades GS-4 and below

**Duties:** Information receptionist, clerk, office machine operator, clerk-typist and/or clerk-stenographer. Best job opportunities are in Washington, D.C., where a small number are hired for work in the Service's headquarters.

**Qualifications:** For grade GS-1, no education or experience required; for grade GS-2, high school graduate or 6 months of experience; for grade GS-3, one year of college or one year of experience; and grade GS-4, two years of college or two years of experience. No written test required.

**How to apply:** Apply directly to the area where you wish consideration. Regional Offices are listed on page 13.

## SEASONAL ARCHITECT, LANDSCAPE ARCHITECT, OR ENGINEER (mechanical, civil, electrical, or electronic)

---

Grades GS-5 and above

**Duties:** These positions involve professional duties in field surveys, planning, design, and construction. Most jobs are located at the Denver Service Center, but work may be performed throughout the country.

**Qualifications:** Applicants must be college graduates, graduate students, faculty members, or possess the equivalent experience in fields related to these professions. A valid state driver's license is required.

**How to apply:** Applications are accepted year-round, but for employment that begins in April, May, June, and July the application deadline is March 15. Request application forms and information from: National Park Service, Denver Service Center, Personnel Office, 755 Parfet Street, Denver, CO 80255

## SURVEYING TECHNICIAN

Grades GS-4 and GS-5

**Duties:** Field Survey team work at locations throughout the United States. Most jobs are at the Denver Service Center; some may be located elsewhere.

**Qualifications:** For grade GS-4, 1½ years of general experience that provided knowledge and training helpful in developing skill in taking measurements, using instruments, making calculations, compiling maps, and similar surveying technician work, and 6 months of specialized experience using surveying instruments and techniques. For grade GS-5, 2 years of general experience and 1 year of specialized experience.

College level education may be substituted for experience requirements if it included courses in surveying, engineering, industrial technology, construction, physics, drafting, forestry, geography, navigation, cartography, physical sciences, or mathematics. For grade GS-4, 2 years of study (60 semester hours) that included at least 12 semester hours in a combination of the above subjects. For grade GS-5, 4 years of study (120 semester hours) that included at least 24 semester hours in the above subjects, or a bachelor's degree in an appropriate field of surveying, engineering, construction, or industrial technology. For both grades the education must have included a course in surveying.

**How to apply:** Same as for Seasonal Architect, Landscape Architect, or Engineer (Page 7).

## ENGINEERING TECHNICIAN

Grades GS-4 and GS-5

**Duties:** Assists engineers, landscape architects, or architects in the planning, design, or construction phase of development projects. Some jobs are in the Denver area, others at project sites throughout the country.

**Qualifications:** For grade GS-4, 1½ years of general experience and 6 months of specialized experience. For Grade GS-5, 2 years of general experience and 1 year of specialized experience. General experience is that which provided knowledge helpful in developing skill in making measurements, using text instruments, computing, reading engineering drawings or specifications, or other engineering technician work. Specialized experience is that which provided knowledge of some of the principles, methods, and techniques of civil engineering.

College level education may be substituted for the experience requirements. For grade GS-4, 2 years (60 semester hours) that included at least 18 semester hours in a combination of engineering, engineering or industrial technology, construction, drafting, surveying, physical sciences, or mathematics courses. For grade GS-5, 4 years (120 semester hours) that included at least 36 semester hours in a combination of the above courses,

or a bachelor's degree in an appropriate field of engineering, construction, or industrial technology.

**How to apply:** Same as for Seasonal Architect, Landscape Architect, or Engineer (page 7).

Some of the following archeology-related jobs are in Germantown, Md., others are at archeological sites throughout the country.

#### ARCHEOLOGICAL AID/TECHNICIAN

---

Grades GS-3, GS-4, and GS-5

**Duties:** Archeological aids and technicians provide non-professional technical support to professional archeologists in recovering and analyzing data from archeological sites. Duties include excavation; cleaning, labeling, cataloging and shipping of artifacts; taking notes and photographs; compiling maps and drawings; plotting; preparing documents for microfilming; and using transit or alidade and planetable.

**Qualifications:** For grade GS-3, one year of general experience; grade GS-4, one year of general and at least 6 months of specialized experience; and grade GS-5, 2 years of general and 1 year of specialized experience. General experience is assisting in biological, physical or social science or engineering or other professional disciplines which provided any of the following: Ability to compile technical information (narrative, graphic, or statistical); ability to take precise measurements; ability to catalog items; ability to preserve fragile or valuable items; skill in the use of maps; skill in technical drawing or drafting; skill in mathematical computations; or any other knowledge, skill, or ability generally applicable to the field of archeology. Normally, clerical experience would not be qualifying. Specialized experience is technical experience in either a laboratory or field environment in archeological or anthropological work which provided the candidate with two or more of the following knowledges, skills, or abilities: Knowledge of excavation techniques with shovel, trowel, etc; knowledge of on-site procedures for mapping, photographing, and describing in writing cultural remains exposed during ground disturbance or archeological excavation; ability to wash, label, and catalog artifacts; ability to use transit or alidade and planetable; knowledge of research methodology in the field of archeology; and skill in cartographic techniques.

College level education may be substituted for the experience requirements. For grade GS-3, one year (30 semester hours) of accredited post-high school education that included at least one course in archeology. For GS-4, two years (60 semester hours) which included at least 12 semester hours in any combination of the following subjects: Field-oriented natural or physical science, history, archeology, anthropology, mathematics, drafting, cartography or surveying. This course work must have included at least one course in archeology. For GS-5, four years (120 semester hours) that included at least 24 semester hours in any combination of the subjects listed above, of which two courses were in archeology. Education must also have included a course in, or supplemented by, 3 months of experience in excavation or laboratory techniques under the direction of a recognized professional archeologist.

## ARCHEOLOGIST

---

Grades GS-5 and GS-7

**Duties:** Archeologist performs professional work that may include research, field investigation, laboratory analysis, library research, interpretation, preparation of reports for publication, or curation and exhibition of collections.

**Qualifications:** Applicants must be college graduates, graduate students, faculty members, or possess equivalent experience in the field of archeology.

**How to apply:** Same as Seasonal Architect, Landscape Architect, or Engineer (page 7).

## ARCHITECTURAL TECHNICIAN

---

Grades GS-4, GS-5, and GS-7

**Duties:** Assists professional architectural staff in graphically reading and documenting historic sites, structures, and technologies. Positions are located in Washington, D.C., and other sites throughout the country. Technicians will work in teams on individual projects.

**Qualifications:** For grade GS-4, 2 years of college study which includes 18 semester hours in architecture, which may be substituted for 2 years of experience including 6 months of specialized experience; for Grade GS-5, successful completion of full 5-year course of study in a college or university, leading to a bachelor's degree with major study in architecture, or 5 years of experience; for grade GS-7, must have completed one year of study toward a Master's degree in the field of architecture at an accredited college or university, or 6 years of experience.

**How to apply:** Applications are accepted between January 1 and February 28. Request information and application forms from:

National Park Service  
Branch of Employee Evaluation and Staffing  
18th & C Streets, N.W., Room 2215  
Washington, DC 20240

## HISTORIANS

---

Grades GS-5 and GS-7

**Duties:** Using primary and secondary sources, produces historical reports on specific sites and structures. Researches, edits and arranges historical data and photographic records. Positions are in Washington, D.C., and several Regional Offices.

**Qualifications:** For grade GS-5, must have completed course work for a bachelor's degree in technological history, American civilization, material culture, and/or historic preservation with one semester in architectural history. For grade GS-7, must be currently working toward a Master's or Doctoral degree in history.

**How to apply:** Same as for Architectural Technician, above.

## SEASONAL LABORER

---

Grades WG-2 and WG-3

**Duties:** Unskilled outdoor work on trails, forestry programs, various maintenance activities, and similar work in which

physical labor is performed. Wages paid on hourly basis according to local prevailing wage rates.

**Qualifications:** Excellent physical condition and the ability to perform the duties of the job.

**How to apply:** Contact the National Park Service Regional Office in the geographic area you wish to work in for application forms and filing procedures. Regional Offices are listed on page 13.

## SEASONAL SKILLED TRADES AND CRAFTS

Grades WG-4 and above

**Duties:** Skilled and semi-skilled trades—axeman, sawyer (woods worker), trail maintenanceman, motor vehicle operator, carpenter, mechanic, etc. Wages paid on hourly basis according to local prevailing wage rates.

**Qualifications:** Helper or journeyman-level proficiency usually required for semi-skilled and skilled jobs.

**How to apply:** Contact the area you want to work in for application forms and filing procedures.

## RECREATION AID/ASSISTANT (LIFEGUARD)

Grades GS-3 through GS-6

**Duties:** Lifesaving and rescue work as needed for persons swimming in rivers, lakes, and oceans and for management of beach and swimming areas. Opportunities exist at Assateague Island, Cape Cod, Cape Hatteras, Coulee Dam, Delaware Water Gap, Fire Island, Gateway, Golden Gate, Gulf Islands, Lake Mead, Padre Island, Chickasaw, Point Reyes, Sleeping Bear Dunes, and Pictured Rocks.

**Qualifications:** For grade GS-3, one year of general experience is qualifying. General experience is experience which has provided a general familiarity with the routines and procedures followed in one or more of the various types of work situations. Such situations have involved simple clerical, supply, or other work which has enabled the applicant to demonstrate alertness, reliability, and the ability to deal with others. For grade GS-4, besides the general experience requirements for GS-3 level, applicants must demonstrate possession of one year of appropriate recreation experience. For grade GS-5 and 6 for each grade above the GS-4 level, in addition to the general requirement for GS-3 level, one year of appropriate recreational experience is required. In addition, one year of that experience must have been at a level of difficulty and responsibility comparable to that of the next lower grade level in the Federal Service. For all grade levels, the applicant's record must show that his or her experience has provided the ability to perform work at the level of the position to be filled.

**Additional requirements** — Must be at least 18 years of age, possess a current ARC Certificate in Standard First Aid, current Red Cross Life Saver's Certificate or Water Safety Instructor's Certificate. (Some seasonal park technicians perform lifesaving and rescue work as part of their overall duties, as described on page 6. In these cases applicants must meet the lifesaving and rescue qualifications required for seasonal lifeguard applicants.) Passing a performance test also may be necessary.

**When and Where to apply:** Contact any National Park Service Regional Office between September 1 and January 15. Regional Offices will send required form(s) and instructions. Regional Offices are listed on page 13.

## SEASONAL FORESTRY TECHNICIAN

---

Grades GS-3 through GS-7

These positions are used to form Interagency Hotshot Fire Crews, which are hired by the National Park Service, Branch of Fire Management, Boise Interagency Fire Center. The crews are stationed in various areas throughout the Park System.

**How to apply:** Applications are accepted between September 1 and January 15. Request qualification requirements, filing instructions and application forms from:

National Park Service  
Branch of Fire Management  
3905 Vista Ave.  
Boise, Idaho 83705

## HOW TO APPLY: GENERAL INFORMATION

All applicants for seasonal employment must complete required forms and file them with the National Park Service. The forms will be sent to you when your inquiry or letter of application is received. FOR DETAILED INSTRUCTIONS ON THE CORRECT FILING PROCEDURES AND FORMS, SEE THE "HOW TO APPLY" SECTIONS FOR DIFFERENT SEASONAL POSITIONS, pages 6 through 12. You may use photocopies of forms for job applications, but all forms—original or copies—must bear your original signature, not a copy of it.

Most seasonal Park Aid, Technician, and Laborer positions are filled for the summer months. Applications must be received by the National Park Service between September 1 and (postmarked by) January 15.

A few positions are filled during the winter at Death Valley National Monument, Everglades National Park, and other areas. For information on application and filing procedures for winter employment, contact the Regional Office in the geographic area in which you wish to work. The filing period for winter employment is June 1 through (postmarked by) July 15.

On your application list both addresses if your present address is not your permanent one, and indicate when you will be at each address. It is important that you show a telephone number where you can be reached. Also, it is essential that you indicate (1) your earliest reporting date and your latest departure date; (2) the two types of positions for which you are applying; (3) the two parks where you desire consideration; (4) the lowest acceptable grade or salary; and (5) any particular specialization, such as law enforcement or interpretation.

If you are applying for a technician, aid, or ranger position, also include a transcript or a listing of courses you will have completed by date of employment.

## EMPLOYMENT OPPORTUNITIES WITH NATIONAL PARK CONCESSIONERS

The hotels, lodges, restaurants, stores, transportation services, and other visitor facilities in areas administered by the National Park Service are operated by private companies and individuals who recruit their own personnel. These are NOT Government positions, and this information is furnished as a public service.

Basic qualifications vary somewhat among concessioners, but an applicant must generally be able to remain the entire season and be at least 18 years of age. Applicants are considered for employment without regard to race, color, religion, age, sex, marital status, non-disqualifying handicap, national origin, political affiliation, or other non-merit factors.

Concessioners normally pay the minimum wage established by the state the facility is located in. Although some pay a small bonus at the end of the season, they do not pay or make arrangements for transportation to and from the parks.

The National Park Service does not have application forms for concessioner employment. For applications and information about job openings, salaries, and working and living conditions, write to the concessioner. Names and addresses of concessioners are listed here under the name of the corresponding park. Apply soon after the first of the year. Only concessioners hiring substantial seasonal staff are listed.

<sup>2</sup>— Transportation

<sup>3</sup>— Stores, photographic studios, merchandising, service stations, etc.

As the nation's principal conservation agency, the Department of the Interior has responsibility for most of our nationally owned public lands and natural resources. This includes fostering the wisest use of our land and water resources, protecting our fish and wildlife, preserving the environmental and cultural values of our national parks and historical places, and providing for the enjoyment of life through outdoor recreation. The Department assesses our energy and mineral resources and works to assure that their development is in the best interest of all our people. The Department also has a major responsibility for American Indian reservation communities and for people who live in Island Territories under U.S. administration.
