*National Park Service. U.S. Department of the Interior*

As the Nation's principal conservation agency, the Department of the Interior has responsibility for most of our nationally owned public lands and natural resources. This includes fostering sound use of our land and water resources, protecting our fish, wildlife, and biological diversity, preserving the environmental and cultural values of our national parks and historical places, and providing for the enjoyment of life through outdoor recreation. The Department

assesses our energy and mineral resources and works to ensure that their development is in the best interest of all our people by encouraging stewardship and citizen participation in their care. The Department also has a major responsibility for American Indian reservation communities and for people who live in island territories under U.S. administration.

## National Park System

Lincoln Memorial

On August 25, 1916, President Woodrow Wilson signed the act creating the National Park Service, a new federal bureau in the Department of the Interior responsible for protecting the 40 national parks and monuments then in existence and those yet to be established. This "Organic Act" of August 25, 1916, states that "the Service thus established shall promote and regulate the use of Federal areas known as national parks, monuments and reservations . . . by such means and measures as conform to the fundamental purpose of the said parks, monuments and reservations, which purpose is to conserve the scenery and the natural and historic objects and the wild life therein and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment of future generations."

The National Park Service still strives to meet those original goals, while filling many other roles as well: guardian of our diverse cultural and recreational resources; environmental advocate; world leader in the parks and preservation community; and pioneer in the drive to protect America's open space.

The National Park System of the United States comprises 367 areas covering more than 80 million acres in 49 States, the District of Columbia, American Samoa, Guam, Puerto Rico, Saipan, and the Virgin Islands. These areas are of such national significance as to justify special recognition and protection in accordance with various acts of Congress.

By Act of March 1, 1872, Congress established Yellowstone National Park in the Territories of Montana and Wyoming "as a public park or pleasuring ground for the benefit and enjoyment of the people" and placed it "under exclusive control of the Secretary of the Interior." The founding of Yellowstone National Park began a worldwide national park movement. Today more than 100 nations contain some 1,200 national parks or equivalent preserves.

In the years following the establishment of Yellowstone, the United States authorized additional national parks and monuments, most of them carved from the federal lands of the West. These, also, were administered by the Department of the Interior, while other monuments and natural and historical areas were administered as separate units by the War Department and the Forest Service of

the Department of Agriculture. No single agency provided unified management of the varied federal parklands.

An Executive Order in 1933 transferred 63 national monuments and military sites from the Forest Service and the War Department to the National Park Service. This action was a major step in the development of today's truly national system of parks—a system that includes areas of historical as well as scenic and scientific importance.

Congress declared in the General Authorities Act of 1970 "that the National Park System, which began with the establishment of Yellowstone National Park in 1872, has since grown to include superlative natural, historic, and recreation areas in every region . . . and that it is the purpose of this Act to include all such areas in the System. . . ."

Additions to the National Park System are now generally made through acts of Congress, and national parks can be created only through such acts. But the President has authority, under the Antiquities Act of 1906, to proclaim national monuments on lands already under federal jurisdiction. The Secretary of the Interior is usually asked by Congress for recommendations on proposed additions to the System. The Secretary is counseled by the National Park System Advisory Board, composed of private citizens, which advises on possible additions to the System and policies for its management.

### **Nomenclature of Park System Areas**

The diversity of the parks is reflected in the variety of titles given to them. These include such designations as national park, national preserve, national monument, national memorial, national historic site, national seashore, and national battlefield park.

Although some titles are self-explanatory, others have been used in many different ways. For example, the title "national monument" has been given to great natural reservations, historic military fortifications, prehistoric ruins, fossil sites, and to the Statue of Liberty.

In recent years, Congress and the National Park Service have attempted, with some success, to simplify the nomenclature and to establish basic criteria for use of the different official titles. Brief definitions of the most common titles follow.

Areas added to the National Park System

for their natural values are expanses or features of land or water of great scenic and scientific quality and are usually designated as national parks, monuments, preserves, seashores, lakeshores, or riverways. Such areas contain one or more distinctive attributes such as forest, grassland, tundra, desert, estuary, or river systems; they may contain "windows" on the past for a view of geological history, imposing landforms such as mountains, mesas, thermal areas, and caverns, and they may be habitats of abundant or rare wildlife and plantlife.

Generally, a **national park** contains a variety of resources and encompasses large land or water areas to help provide adequate protection of the resources.

A **national monument** is intended to preserve at least one nationally significant resource. It is usually smaller than a national park and lacks its diversity of attractions.

In 1974, Big Cypress and Big Thicket were authorized as the first **national preserves**. This category is established primarily for the protection of certain resources. Activities such as hunting and fishing or the extraction of minerals and fuels may be permitted if they do not jeopardize the natural values. **National reserves** are similar to the preserves. Management, however, is by local or state authorities. The first reserve, City of Rocks, was established in 1988.

Preserving shoreline areas and off-shore islands, the **national lakeshores** and **national seashores** focus on the preservation of natural values while at the same time providing water-oriented recreation. Although national lakeshores can be established on any natural freshwater lake, the existing four are all located on the Great Lakes. The national seashores are on the Atlantic, Gulf, and Pacific coasts.

**National rivers and wild and scenic riverways** preserve ribbons of land bordering on free-flowing streams which have not been dammed, channelized, or otherwise altered. Besides preserving rivers in their natural state, these areas provide opportunities for outdoor activities such as hiking, canoeing, and hunting.

**National scenic trails** are generally long-distance footpaths winding through areas of natural beauty.

Although best known for its great scenic parks, more than half the areas of the Na-

tional Park System preserve places and commemorate persons, events, and activities important in the Nation's history. These range from archeological sites associated with prehistoric Indian civilizations to sites related to the lives of modern Americans. Historical areas are customarily preserved or restored to reflect their appearance during the period of their greatest historical significance.

In recent years, **national historic site** has been the title most commonly applied by Congress in authorizing the addition of such areas to the National Park System. A wide variety of titles—**national military park**, **national battlefield park**, **national battlefield site**, and **national battlefield**—has been used for areas associated with American military history. But other areas such as **national monuments** and **national historical parks** may include features associated with military history. **National historical parks** are commonly areas of greater physical extent and complexity than national historic sites. The lone **international historic site** refers to a site relevant to both U.S. and Canadian history.

The title **national memorial** is most often used for areas that are primarily commemorative. But they need not be sites or structures historically associated with their subjects. For example, the home of Abraham Lincoln in Springfield, Ill., is a national historic site, but the Lincoln Memorial in the District of Columbia is a national memorial.

Several areas administered by National Capital Region whose titles do not include the words national memorial are nevertheless classified as memorials. These are John F. Kennedy Center for the Performing Arts, Lincoln Memorial, Lyndon Baines Johnson Memorial Grove on the Potomac, Theodore Roosevelt Island, Thomas Jefferson Memorial, and the Washington Monument—all in the District of Columbia.

Originally, **national recreation areas** in the Park System were units surrounding reservoirs impounded by dams built by other federal agencies. The National Park Service manages many of these areas under cooperative agreements. The concept of recreational areas has grown to encompass other lands and waters set aside for recreational use by acts of Congress and now includes major areas in urban centers. There are also national recreation areas outside the National Park System

that are administered by the Forest Service, U.S. Department of Agriculture.

**National parkways** encompass ribbons of land flanking roadways and offer an opportunity for leisurely driving through areas of scenic interest. They are not designed for high speed travel. Besides the areas set aside as parkways, other units of the National Park System include parkways within their boundaries.

Two areas of the National Park System have been set aside primarily as sites for the **performing arts**. These are Wolf Trap Farm Park for the Performing Arts, Virginia, America's first such national park, and the John F. Kennedy Center for the Performing Arts in Washington, D.C. Two historical areas, Ford's Theatre National Historic Site, also in Washington, D.C., and Chamizal National Memorial, Texas, also provide facilities for the performing arts.

### Designation of Wilderness Areas

In the Wilderness Act of 1964, Congress directed three federal agencies, including the National Park Service, to study certain lands within their jurisdiction to determine the suitability of these lands for inclusion in the National Wilderness Preservation System.

By subsequent legislation, Congress has designated **wilderness areas** in many units of the National Park System. This designation (noted in this booklet in the listing by states) does not remove wilderness lands from the parks, but it does ensure that they will be managed to retain their "primeval character and influence, without permanent improvements or human habitation. . . ."

The Act provides, generally, that "there shall be no commercial enterprise and no permanent road within any wilderness area . . . and (except for emergency uses) no temporary road, no use of motor vehicles, motorized equipment or motorboats, no landing of aircraft, no other form of mechanical transport, and no structure or installation." Wilderness areas are open to hiking and, in some cases, horseback riding, primitive camping, and similar pursuits.

### Parks in the Nation's Capital

Washington, D.C., has a unique park system. Most public parks are administered by the Federal Government through the National Capital Region of the National Park Service.

National Capital Region has inherited duties originally assigned to three Federal Commissioners appointed by President George Washington in 1790. The city's parks were administered by a variety of federal agencies until this responsibility was assigned to the National Park Service under the Reorganization Act of 1933. Most parklands in the city are included in the federal holdings, although the District of Columbia also operates parks, playgrounds, and recreational facilities.

National Capital Region also administers several National Park System units in Maryland, Virginia, and West Virginia, which are shown in this booklet in the listing by states.

### **Related Areas**

Besides the National Park System three groups of areas exist—Affiliated Areas, the Wild and Scenic Rivers System, and the National Trails System—that are closely linked in importance and purpose to those areas managed by the National Park Service. Except for those wild and scenic rivers administered by the National Park Service, these areas are not units of the National Park System, yet they preserve important segments of the Nation's heritage. They are, therefore, given recognition in Part 3 of this book.

## Alabama

**Horseshoe Bend  
National Military Park**  
Route 1, Box 103  
Daviston, AL 36256  
205-234-7111

On March 27, 1814, at the "horseshoe bend" in the Tallapoosa River, Gen. Andrew Jackson's forces broke the power of the Upper Creek Indian Confederacy and opened large parts of Alabama and Georgia to settlement.  
Authorized July 25, 1956.  
*Acreage—2,040, all federal.*

**Little River Canyon  
National Preserve**  
P.O. Box 45  
2201-E Gault Ave. North  
Fort Payne, AL 35967  
205-997-9239

The preserve protects the natural, scenic, recreational, and cultural resources of the Little River Canyon of northeast Alabama. Little River flows atop Lookout Mountain for most of its length. Erosion has created a variety of superlative rock expanses, benches, and bluffs that create a unique environment for several threatened and endangered species and for recreational pursuits including kayaking and mountain climbing. Hunting, fishing, and trapping are permitted. NO FEDERAL FACILITIES.

Authorized Oct. 24, 1992.

*Acreage—undetermined.*

**Natchez Trace  
National Scenic Trail**  
(See Mississippi)

**Natchez Trace Parkway**  
(See Mississippi)

**Russell Cave  
National Monument**  
Route 1, Box 175  
Bridgeport, AL 35740  
205-495-2672

An almost continuous archeological record of human habitation from at least 7000 BC to about AD 1650—Transitional Paleo to Mississippian cultural periods—is revealed in this cave. Proclaimed May 11, 1961.

*Acreage—310.45, all federal.*

**Tuskegee Institute  
National Historic Site**  
P.O. Drawer 10  
Tuskegee Institute, AL  
36087  
205-727-3200

Booker T. Washington founded this college for African Americans in 1881. Preserved here are the brick buildings the students constructed themselves, Washington's home, and the George Washington Carver Museum, which serves as the visitor center. The college is still an active institution that owns most of the property within the national historic site.

Authorized Oct. 26, 1974.

*Acreage—57.62 Federal: 8.32 Nonfederal: 49.30.*

## Alaska

**Alagnak Wild River**  
c/o Katmai National Park  
and Preserve, P.O. Box 7  
King Salmon, AK 99613  
907-246-3305

The Alagnak River flows from Kukaklek Lake in Katmai National Preserve and offers 69 miles of outstanding white-water floating. The river is also noted for abundant wildlife and sport fishing for five species of salmon. Portions of the main stem lie outside and westward of Katmai.

Established: Dec. 2, 1980. Length: 69 miles.

*Acreage—24,038, all federal.*

**Aniakchak National Monument and Preserve**  
P.O. Box 7  
King Salmon, AK 99613  
907-246-3305

The Aniakchak Caldera, covering some 30 square miles, is one of the great dry calderas in the world. Located in the volcanically active Aleutian Mountains, the Aniakchak last erupted in 1931. The crater includes lava flows, cinder cones, and explosion pits, as well as Surprise Lake, source of the Aniakchak River, which cascades through a 1,500-foot gash in the crater wall. The site contains the Aniakchak Wild River. **NO FEDERAL FACILITIES.**

Proclaimed as Aniakchak National Monument Dec. 1, 1978; established as a national monument and preserve Dec. 2, 1980.

*Acreage—National monument: 137,176, all federal. National Preserve: 465,603 Federal: 400,257 Nonfederal: 65,346.*

**Bering Land Bridge National Preserve**  
P.O. Box 220, Nome, AK  
99762  
907-443-2522

Located on the Seward Peninsula in northwest Alaska, the preserve is a remnant of the land bridge that once connected Asia with North America more than 13,000 years ago. Paleontological and archeological resources abound; large populations of migratory birds nest here. Ash explosion craters and lava flows, rare in the Arctic, are also present. **LIMITED FEDERAL FACILITIES.**

Proclaimed as Bering Land Bridge National Monument Dec. 1, 1978; established as a national preserve Dec. 2, 1980.

*Acreage—2,784,960 Federal: 2,690,179 Nonfederal: 94,781.*

**Cape Krusenstern National Monument**  
P.O. Box 1029  
Kotzebue, AK 99752  
907-442-3890

Archeological sites located along a succession of 114 lateral beach ridges illustrate Eskimo communities of every known cultural period in Alaska, dating back some 4,000 years. Older sites are located inland, along the foothills. The monument includes a representative example of the arctic coastline along the Chukchi Sea. **LIMITED FEDERAL FACILITIES.**

Proclaimed Dec. 1, 1978. Boundary change: Dec. 2, 1980.

*Acreage—659,807 Federal: 621,592 Nonfederal: 38,215.*

**Denali National Park and Preserve**  
P.O. Box 9  
McKinley Park, AK 99755  
907-683-2294

The park contains North America's highest mountain, 20,320-foot Mount McKinley. Large glaciers of the Alaska Range, caribou, Dall sheep, moose, grizzly bears, and timber wolves are other highlights of this national park and preserve.

Established as Mt. McKinley National Park Feb. 26, 1917. Separate Denali National Monument proclaimed Dec. 1, 1978. Both incorporated into and established as Denali National Park and Preserve Dec. 2, 1980. Wilderness designated Dec. 2, 1980. Other boundary changes: Jan. 30, 1922; March 19, 1932. Designated a Biosphere Reserve 1976.

*Acreage—National park: 5,000,000 Federal: 4,724,113.95 Nonfederal: 275,888.05. National preserve: 1,500,000 Federal: 1,304,132 Nonfederal: 195,868. Wilderness area: 1,900,000.*

**Gates of the Arctic  
National Park and Preserve**  
P.O. Box 74680  
Fairbanks, AK 99707  
907-456-0281

Lying entirely north of the Arctic Circle, the park and preserve includes a portion of the Central Brooks Range, the northernmost extension of the Rocky Mountains. Often referred to as the greatest remaining wilderness in North America, this second largest unit of the National Park System is characterized by jagged peaks, gentle arctic valleys, wild rivers, and numerous lakes. The forested southern slopes contrast to the barren northern reaches of the site at the edge of Alaska's "north slope." The park-preserve contains the Alatna, John, Kobuk, part of the Noatak, the North Fork of the Koyukuk, and the Tinayguk Wild Rivers. And with adjacent Kobuk Valley National Park and Noatak National Preserve, it is one of the largest park areas in the world.  
**LIMITED FEDERAL FACILITIES.**

Proclaimed Gates of the Arctic National Monument Dec. 1, 1978; established as a national park and preserve Dec. 2, 1980. Wilderness designated Dec. 2, 1980. Designated a Biosphere Reserve (portion) 1984.

*Acreage—National park: 7,523,888 Federal: 7,281,654.48  
Nonfederal: 242,233.52 National preserve: 948,629 Federal:  
948,504 Nonfederal: 125. Wilderness area: 7,052,000.*

**Glacier Bay  
National Park and Preserve**  
P.O. Box 140  
Gustavus, AK 99826  
907-697-2232

Great tidewater glaciers, a dramatic range of plant communities from rocky terrain recently covered by ice to lush temperate rain forest, and a large variety of animals, including brown and black bear, mountain goats, whales, seals, and eagles can be found within the park. Also included are Mount Fairweather, the highest peak in southeast Alaska, and the U.S. portion of the Alsek River.

Proclaimed Glacier Bay National Monument Feb. 25, 1925; established as a national park and preserve Dec. 2, 1980. Boundary changes: April 18, 1939; March 31, 1955; December 1, 1978. Wilderness designated Dec. 2, 1980. Designated a Biosphere Reserve 1986.

*Acreage—National park: 3,225,284 Federal: 3,224,938  
Nonfederal: 346. National preserve: 57,884 Federal: 55,439  
Nonfederal: 2,445. Wilderness area: 2,770,000.*

**Katmai  
National Park and Preserve**  
P.O. Box 7  
King Salmon, AK 99613  
907-246-3305

Variety marks this vast land: lakes, forests, mountains, and marshlands all abound in wildlife. The Alaska brown bear, the world's largest carnivore, thrives here, feeding upon red salmon that spawn in the many lakes and streams. Wild rivers and renowned sport fishing add to the attractions of this subarctic environment. Here, in 1912, Novarupta Volcano erupted violently, forming the ash-filled "Valley of Ten Thousand Smokes" where steam rose from countless fumaroles. Today only a few active vents remain. The park-preserve contains part of the Alagnak Wild River.

Proclaimed as Katmai National Monument Sept. 24, 1918; established as a national park and preserve Dec. 2, 1980. Boundary changes: April 24, 1931; Aug. 4, 1942; Jan. 20, 1969; Dec. 1, 1978; Dec. 2, 1980. Wilderness designated Dec. 2, 1980.

*Acreage—National park: 3,716,000 Federal: 3,575,000  
Nonfederal: 141,000. National preserve: 374,000, all federal.  
Wilderness area: 3,473,000.*

**Kenai Fjords National Park**

P.O. Box 1727  
Seward, AK 99664  
907-224-3175

The park includes one of the four major ice caps in the U.S., the 300-square-mile Harding Icefield and coastal fjords. Here a rich, varied rain forest is home to tens of thousands of breeding birds and adjoining marine waters support a multitude of sea lions, sea otters, and seals. The visitor center is in Seward, 10 miles from the park.

Proclaimed Kenai Fjords National Monument Dec. 1, 1978; established as a national park Dec. 2, 1980.

*Acreege—669,541 Federal: 649,946 Nonfederal: 19,595.*

**Klondike Gold Rush  
National Historical Park**

P.O. Box 517  
Skagway, AK 99840  
(See also Washington)  
907-983-2921

Historic buildings in Skagway and portions of Chilkoot and White Pass Trails, all prominent in the 1898 gold rush, are included in the park. A visitor center is located in the Pioneer Square Historic District in Seattle, Wash.

Established June 30, 1976.

*Acreege—13,191.35 Federal: 2,721.33 Nonfederal:  
10,470.02.*

**Kobuk Valley National Park**

P.O. Box 1029  
Kotzebue, AK 99752  
907-442-3890

Embracing the central valley of the Kobuk River, the park, located entirely north of the Arctic Circle, includes a blend of biological, geological, and cultural resources. Here, in the northmost extent of the boreal forest, a rich array of arctic wildlife can be found, including caribou, grizzly and black bear, wolf, and fox. The 25-square-mile Great Kobuk Sand Dunes lie just south of the Kobuk River against the base of the Waring Mountains. Archeological sites revealing more than 10,000 years of human occupation are among the most significant sites known in the Arctic. The park contains the Salmon Wild River. LIMITED FEDERAL FACILITIES.

Proclaimed Kobuk Valley National Monument Dec. 1, 1978; established as a national park Dec. 2, 1980. Wilderness designated Dec. 2, 1980.

*Acreege—1,750,421 Federal: 1,726,463 Nonfederal: 23,958.  
Wilderness area: 190,000.*

**Lake Clark  
National Park and Preserve**

4230 University Drive  
Suite 311  
Anchorage, AK 99508  
907-781-2218

Located in the heart of the Chigmit mountains along the western shore of Cook Inlet, the park-preserve contains great geologic diversity, including jagged peaks, granite spires, and two symmetrical active volcanoes. More than a score of glacial carved lakes rim the mountain mass. Lake Clark, more than 40 miles long, is not only the largest lake here, but it is also the headwaters for red salmon spawning. Merrill and Lake Clark Passes cut through the mountains and are lined by dozens of glaciers and hundreds of waterfalls that cascade over rocky ledges. The park-preserve contains the Chilikadrotna, Mulchatna, and Tlikakila Wild Rivers. LIMITED FEDERAL FACILITIES.

The park system of the Nation's Capital comprises parks, parkways, and reservations in the District of Columbia, including such properties as the Battleground National Cemetery, the President's Parks (Lafayette Park north of the White House and the Ellipse south of the White House), a variety of military fortifications, and green areas.  
When Congress established a permanent National Capital in 1790, the city's Federal Commissioners were given the power "to purchase or accept such quantity of land as the President shall deem proper for the use of the United States." Under this authority the Commissioners purchased Washington's first 17 public reservations and accepted donations of other lands required for the street system of L'Enfant's plan. Today more than 300 park units derive from these lands. Office of Public Buildings and Public Parks of the National Capital was abolished and public reservations were transferred to National Capital Parks, National Park Service, Aug. 10, 1933.

The White House has been the residence and office of the Presidents of the United States since November 1800, and it has become the symbol of the Presidency. The cornerstone was laid Oct. 13, 1792, on the site selected by George Washington and included in the L'Enfant Plan; renovations were made 1949-52. The Jacqueline Kennedy Garden and the Rose Garden are often used for formal ceremonies and bill signings.

Transferred Aug. 10, 1933, to National Park Service, U.S. Dept. of the Interior, the direct legal successor of three

Federal Commissioners, who were appointed by the President under act of July 16, 1790, and directed initial construction. Their authority developed through acts of May 1, 1802; April 29, 1816; March 3, 1849; March 2, 1867; July 1, 1898; Feb. 26, 1925; March 3, 1933; and Executive Order of June 10, 1933. Under act of Sept. 22, 1961, "the White House . . . shall be administered pursuant to the act of August 25, 1916" and supplementary and amendatory acts.

**Fort Larned  
National Historic Site**  
Route 3  
Larned, KS 67550  
316-285-6911

This military outpost was established midway along the Santa Fe Trail in 1859, to protect the mail and travelers. The fort served as a bureau for the Indian Agency during much of the 1860s, and was a key military base of operations during the Indian War of 1868-69. The fort was deactivated in 1878 and sold at public auction in 1884. The stone buildings are among the best preserved vestiges of the Indian Wars era.

Authorized Aug. 31, 1964; established Oct. 14, 1966.

**Fort Scott  
National Historic Site**  
Old Fort Boulevard  
Fort Scott, KS 66701-1471  
316-223-0310

Established in 1842 as a base for the U.S. Army's peace-keeping efforts along the "permanent Indian frontier," the fort was manned by U.S. Dragoons and infantry soldiers who served valiantly in the Mexican War. The Dragoons provided armed escorts for parties on the Santa Fe and Oregon trails, surveyed unmapped country, and maintained contact with Plains Indians. The post was abandoned in 1853 and a town grew up in its place. "Bleeding Kansas" took its toll. During the Civil War the post was reactivated and served as headquarters for southern Kansas. The fort preserves the U.S. frontier of the 1840s and 1850s.

Established as an affiliated area Aug. 31, 1965; authorized as a National Park Service unit Oct. 19, 1978; established May 18, 1979.

Two stretches of the Missouri River are protected here. The portion originally set aside, from Gavins Point Dam near Yankton, S.D., to Ponca, Neb., still exhibits the river's dynamic character in its islands, bars, chutes, and snags; it was authorized in 1978. The second portion includes the land located adjacent to the free-flowing segment between Lewis and Clark Lake and Lake Francis Case. This section was authorized in 1991 and represents one of the best natural landscapes associated with the river along its entire course. Native floodplain forest, tallgrass and mixed grass prairies, and the river provide habitats for several endangered bird and fish species. Recreational activities include fishing, hunting, and boating. The park also includes the lower 20 miles of the Niobrara River and 6 miles of Verdigris Creek. The U.S. Army Corps of Engineers, Omaha District, manages the river through a cooperative agreement with the National Park Service.

Authorized Nov. 10, 1978, with additional legislative action May 24, 1991. Length: 59 miles (original segment); 56 miles (1991 addition).

**Pecos National  
Historical Park**  
P.O. Drawer 418  
Pecos, NM 87522  
505-757-6414

The park is a site of exceptional historic and archeological importance. Its strategic location between the Great Plains and the Rio Grande Valley has made it the focus of the region's 10,000 years of human history. The park preserves the ruins of the great Pecos pueblo, a major trade center and the ruins of two Spanish colonial missions dating from the 17th and 18th centuries. It also contains sites relating to the Santa Fe Trail. The Glorieta Unit protects key sites associated with the 1862 Civil War Battle of Glorieta Pass—a watershed event that ended the Confederate attempt to carry the war into the west. Two miles of pristine riparian habitat on the Pecos River are also protected.

Authorized as Pecos National Monument June 28, 1965; redesignated June 27, 1990. Boundary changes: Oct. 21, 1976; June 27, 1990; Nov. 8, 1990.

**Crater Lake National Park**  
P.O. Box 7  
Crater Lake, OR 97604  
503-594-2211

Crater Lake is world known for its deep blue color. It lies within the caldera of Mt. Mazama, a volcano of the Cascade Range that erupted about 7,700 years ago. The mountain collapsed, forming a caldera. Annual rain and melting snow gradually filled it. Currently, evaporation and seepage balance annual precipitation and the present level is relatively constant. Its greatest depth of 1,932 feet makes it the deepest lake in the United States.

Established May 22, 1902. Boundary changes: June 7, 1924; May 14, 1932; Dec. 19, 1980; Sept. 8, 1982.

c/o Christiansted  
National Historic Site  
P.O. Box 160, Christiansted,  
St. Croix, VI 00821  
809-773-1460

The area was set aside to preserve and interpret the archeology of the area, which encompasses all major cultural periods in the U.S. Virgin Islands. It is the only known site where members of the Columbus expedition set foot on what is now U.S. territory. The park contains the only ceremonial prehistoric ball court ever discovered in the Lesser Antilles, village middens, and burial grounds. The area was a focal point of various European attempts to colonize the area during the post-Columbian period by the Spaniards, French, Dutch, English, and Danish. The site is marked by Fort Sale, a remaining earthworks fortification from the Dutch period of occupation. Authorized Feb. 24, 1992. *Acreage—912, all nonfederal.*

## **Virgin Islands National Park**

### **Ebey's Landing**

#### **National Historical Reserve**

P.O. Box 774  
Coupeville, WA 98239  
206-678-6084

This rural historic district preserves and protects an unbroken historical record of Puget Sound exploration and settlement from the 19th century to the present. Historic farms, still under cultivation in the prairies of Whidbey Island, reveal land use patterns unchanged since settlers claimed the land in the 1850s under the Donation Land Claim Act. The Victorian seaport community of Coupeville is also in the Reserve. The prairies, seaport, and dramatic coastal beaches and cliffs create a cultural landscape of national significance. LIMITED PUBLIC FACILITIES.

Authorized Nov. 10, 1978.

*Acres*—8,000 *Federal*: 1,355.10 *Nonfederal*: 6,644.90.

### **Fort Vancouver**

#### **National Historic Site**

612 E. Reserve Street  
Vancouver, WA 98661-3897  
206-696-7655

From 1825 to 1849, Fort Vancouver was the western headquarters of the Hudson's Bay Company's fur trading operations. Under the leadership of John McLoughlin, the fort became the center of political, cultural, commercial, and manufacturing activities in the Pacific Northwest. When American pioneers arrived in the Oregon Country during the 1830s and 1840s, they came to Fort Vancouver for supplies to begin their farms.

Authorized as a national monument June 19, 1948; changed to national historic site June 30, 1961. Boundary changes: January 15, 1958; June 30, 1961; April 4, 1972.

## Affiliated Areas

In an Act of August 18, 1970, the National Park System was defined in law as "any area of land and water now or hereafter administered by the Secretary of the Interior through the National Park Service for park, monument, historic, parkway, recreational or other purposes." The same law specifically excludes "miscellaneous areas administered in connection therewith," that is, those properties that are neither federally owned nor directly administered by the National Park Service but which utilize NPS assistance.

The Affiliated Areas comprise a variety of locations in the United States and Canada that preserve significant properties outside the National Park System. Some of these have been recognized by Acts of Congress, others have been designated national historic sites by the Secretary of the Interior under authority of the Historic Sites Act of 1935. All draw on technical or financial aid from the National Park Service.

## Wild and Scenic Rivers System

Public Law 90-542, of October 2, 1968, provides for the establishment of a system of rivers to be preserved as free-flowing streams accessible for public use and enjoyment. Components of the system, which may include only a portion of a river, are classified as wild, scenic, or recreational rivers. They are classified according to the degree of development on the river, shoreline, and adjacent lands. Thus a wild river shows little evidence of human activity, the river is free of dams, and it is generally inaccessible except by trail. A scenic river is one with relatively primitive shorelines but accessible in places by road. A recreational river has more development, is accessible, and may have been dammed or diverted in the past.

Once a river is designated a component of the Wild and Scenic Rivers System, the objective of the managing agency is to preserve or enhance the features that qualified the river for inclusion within the system; any recreational use must be compatible with preservation. Rivers administered by the National Park Service are units of the National Park System. Those administered by the U.S. Fish and Wildlife Service are components of the National Wildlife Refuge System.

Rivers and streams that are in state-protected systems may become units of the National System if the state's Governor asks for such inclusion. The Secretary of the Interior may then designate the river, if it is appropriate, as a unit of the system. Federally managed components of the system are designated by Acts of Congress. Usually Congress first authorizes a detailed study to determine the qualification of a river area for the system.

Acreages of the wild rivers entirely within larger units of the National Park System are not given separately. Acreages of wild rivers within the National Wildlife Refuge System in Alaska and several others are undetermined.

**A note on organization:** The first group of rivers, with addresses and brief descriptions, are those administered by the National Park Service. River mileages, refer only to mileage in parks where there is a jointly administered river. The second group, administered by a variety of federal, state, and local governments, provides only individual addresses to which you may write for further information.

**Middle Delaware River**

Delaware Water Gap  
National Recreation Area  
Bushkill, PA 18324

See Great Egg Harbor Scenic River, New Jersey, a unit of the National Park System.

The river flows south through the Anaktuvuk Pass of Alaska's Brooks Range, and its valley is an important migration route for the Arctic Caribou herd. Gates of the Arctic National Park and Preserve contains the wild river.  
Authorized Dec. 2, 1980. Length: 52 miles.

This river includes both the North and South Forks of the Kern. The South Fork is totally free-flowing. It descends through deep gorges with large granite outcroppings and domes interspersed with open meadows. It is home to the golden trout, the state fish of California. The upper 47.5 miles of the North Fork flow through Sequoia National Park and Golden Trout Wilderness, a scenic area with a wide variety of outstanding recreational opportunities, as well as cultural and historical associations.  
Authorized Nov. 24, 1987. Length: 151 miles.

This river includes the entire Middle and South Forks, which are largely in Kings Canyon National Park. Beginning in glacial lakes above timberline, the rivers flow through deep, steep-sided canyons, over falls and cataracts, eventually becoming an outstanding whitewater rafting river in its lower reaches in Sequoia National Forest. Geology, scenery, recreation, fish, wildlife, and history are all significant aspects.  
Authorized Nov. 3, 1987. Length: 55.5 miles.

Kobuk Wild River is contained within Gates of the Arctic National Park and Preserve, Alaska. From its headwaters in the Endicott Mountains, the stream courses south through a wide valley and passes through two scenic canyons.  
Authorized Dec. 2, 1980. Length: 110 miles.

Including the South Fork, this segment of the Merced flows through superlative scenery—glaciated peaks, lakes, alpine and subalpine meadows—in alternating pools and cascades. Wildflower displays are also spectacular. The South Fork possesses one of the few remaining pristine Sierra fisheries with self-sustaining populations of rainbow, eastern brook, and brown trout. Archeological and wildlife features are also noteworthy.  
Authorized Nov. 2, 1987. Length: 81 miles.

See Delaware National Scenic River, Pennsylvania, a unit of the National Park System.

**Missouri  
National Recreational River**  
P.O. Box 591

**Mulchatna Wild River**  
Lake Clark National Park  
and Preserve  
701 C Street, Box 61  
Anchorage, AK 99513

Mulchatna Wild River, which lies within Lake Clark National Park and Preserve, Alaska, is exceptionally scenic as it flows out of Turquoise Lake with the glacier-clad Chigmit Mountains to the east. Both moose and caribou inhabit the area. Authorized Dec. 2, 1980. Length: 24 miles.

**Niobrara  
National Scenic Riverway**  
P.O. Box 591  
O'Neill, NE 68763

See Niobrara National Scenic Riverway, Nebraska, a unit of the National Park System.

**Noatak Wild River**  
Gates of the Arctic  
National Park and Preserve  
P.O. Box 74680  
Fairbanks, AK 99707

Noatak Wild River is situated in Gates of the Arctic National Park and Preserve and Noatak National Preserve in Alaska. The Noatak drains the largest mountain-ringed river basin in America that is still virtually unaffected by human activities. Authorized Dec. 2, 1980. Length: 330 miles.

**Kobuk Valley National Park**  
P.O. Box 1029  
Kotzebue, AK 99752

**North Fork of the Koyukuk  
Wild River**  
Gates of the Arctic  
National Park and Preserve  
P.O. Box 74680  
Fairbanks, AK 99707

The river flows from the south flank of the Arctic Divide through broad, glacially-carved valleys beside the rugged Endicott Mountains in Alaska's Central Brooks Range. Authorized Dec. 2, 1980. Length: 102 miles.

**Obed Wild and Scenic River**  
P.O. Drawer 630  
Oneida, TN 37841

**Salmon Wild River**  
Kobuk Valley National Park  
P.O. Box 1029  
Kotzebue, AK 99752

Salmon Wild River, located within Kobuk Valley National Park, Alaska, is small but exceptionally beautiful, with deep, blue-green pools and many rock outcroppings. Authorized Dec. 2, 1980. Length: 70 miles.

**Tinayguk Wild River**  
Gates of the Arctic  
National Park and Preserve  
P.O. Box 74680  
Fairbanks, AK 99707

Alaska's Tinayguk River is the largest tributary of the North Fork of the Koyukuk. Both lie entirely within the pristine environment of Gates of the Arctic National Park.  
Authorized Dec. 2, 1980. Length: 44 miles.

**Tlikakila Wild River**  
Lake Clark National Park  
and Preserve  
701 C Street, Box 61  
Anchorage, AK 99513

Located about 100 air miles west of Anchorage in Lake Clark National Park, Alaska, Tlikakila Wild River is closely flanked by glaciers, 10,000-foot high rock-and-snow-capped mountains, and perpendicular cliffs.  
Authorized Dec. 2, 1980. Length: 51 miles.

**Tuolumne River**  
Stanislaus National Forest  
19777 Greenley Road  
Sonora, CA 95370

The Tuolumne originates from snowmelt off Mounts Dana and Lyell in Yosemite National Park and courses 54 miles before crossing into Stanislaus National Forest. The national forest segment contains some of the most noted whitewater in the high Sierras and is an extremely popular rafting stream. The park segment provides views of some of America's most spectacular scenery.  
Authorized Sept. 28, 1984. Length: 54 miles.

Yosemite National Park  
P.O. Box 577, Yosemite  
National Park, CA 95389

**Upper Delaware River**

Appalachian National Scenic Trail

The National Trails System Act of 1968, as amended, calls for establishing trails in both urban and rural settings for persons of all ages, interests, skills, and physical abilities. The act promotes the enjoyment and appreciation of trails while encouraging greater public access. It establishes four classes of trails: national scenic trails, national historic trails, national recreation trails, and side and connecting trails.

National scenic trails are to be continuous, extended routes of outdoor recreation within protected corridors. The first two established under the National Trails System Act were the Appalachian and Pacific Crest trails. They wind through some of the Nation's most striking natural beauty. National historic trails recognize past routes of exploration, migration, and military action.

The term national recreation trail is given to an existing trail by the Federal Government, upon application, in recognition of its role as a component of the National Trails System. Today more than 800 of these trails have been designated throughout the country. They are located in every state, the District of Columbia, and Puerto Rico, totaling more than 9,000 miles in length. Most of them, 525, are on federal lands. Of the remainder, 151 are state trails, 85 are local, and 31 are on private lands, and 12 are managed by two or more entities.

Side and connecting trails provide additional access to and between components of the National Trails System. To date, two have been designated.

Since 1968, 35 long-distance trails have been studied for inclusion in the system, and 19 have been designated. The National Park Service administers 14 of them, the Forest Service administers four, and the Bureau of Land Management, one.

The National Park Service encourages all public and private agencies to develop, maintain, and protect trails. With the cooperation and support of a nationwide trails community, the vision of an interconnected, cross-country trail system will become a reality.

The California Trail is a system of overland routes, starting at five points along the Missouri River and ending at many locations in California and Oregon. Over these trails passed one of America's great mass migrations, seeking the promise of gold and a new life in California in the late 1840s and 1850s. Traces of their struggles and triumphs are still evident at many trail sites.

Established Aug. 3, 1992. Length: 5,600 miles.

Running the length of the Rocky Mountains near the Continental Divide, this trail extends from Canada's Waterton Lake into Montana, along the Idaho border, and on to Wyoming, Colorado, and New Mexico, ending at the U.S.-Mexico border.

Established Nov. 10, 1978. Length: 3,200 miles.

The trail runs north from Big Cypress National Preserve and the Kissimmee Prairie through various national and state forests to the gulf islands. More than 500 miles have been developed for public use.

Established March 28, 1983. Length: 1,300 miles.

Winding over Wisconsin's glacial moraines, the trail links together six of the nine units of the Ice Age National Scientific Reserve. It traverses significant features of Wisconsin's glacial heritage. Approximately 475 miles are open to public use; additional miles are being developed.

Authorized Oct. 3, 1980. Length: 1,000 miles.

One of Alaska's preeminent Gold Rush Trails, the Iditarod extends from Seward to Nome and is composed of a network of trails and side trails developed at the turn of the century.

Established Nov. 10, 1978. Length: 2,350 miles.
