FOREWORD

This compilation includes all laws enacted by the 108th Congress (2003-2004) that affect the National Park Service. We have included both park bills passed individually, as well as any legislation concerning national parks that was included in appropriations bills. In each case, we have noted in the index the specific section of the act where the language can be found.

The text used for each public law is the same version as is found in the *United States Statutes at Large*. A line of stars in the text denotes omitted, extraneous material.

In addition to the public laws, this compilation includes copies of any presidential proclamations and executive orders that affect the National Park Service. The one presidential proclamation affecting Governors Island is found under the National Monuments heading, while the executive orders are found under their own heading.

We appreciate the assistance of LaTonya Ward in compiling these laws. If you have any questions, please feel free to contact us.

SEC. 138. (a) SHORT TITLE.—This section may be cited as the “Eastern Band of Cherokee Indians Land Exchange Act of 2003”.

(b) FINDINGS AND PURPOSES.—

(1) FINDINGS.—Congress finds the following:

(A) Since time immemorial, the ancestors of the Eastern Band of Cherokee Indians have lived in the Great Smoky Mountains of North Carolina. The Eastern Band's ancestral homeland includes substantial parts of seven eastern States and the land that now constitutes the Great Smoky Mountains National Park.

(B) The Eastern Band has proposed a land exchange with the National Park Service and has spent over \$1,500,000 for studies to thoroughly inventory the environmental and cultural resources of the proposed land exchange parcels.

(C) Such land exchange would benefit the American public by enabling the National Park Service to acquire the Yellow Face tract, comprising 218 acres of land adjacent to the Blue Ridge Parkway.

(D) Acquisition of the Yellow Face tract for protection by the National Park Service would serve the public interest by preserving important views for Blue Ridge Parkway visitors, preserving habitat for endangered species and threatened species including the northern flying squirrel and the rock gnome lichen, preserving valuable high altitude wetland seeps, and preserving the property from rapidly advancing residential development.

(E) The proposed land exchange would also benefit the Eastern Band by allowing it to acquire the Ravensford tract, comprising 143 acres adjacent to the Tribe's trust territory in Cherokee, North Carolina, and currently within the Great Smoky Mountains National Park and Blue Ridge Parkway. The Ravensford tract is part of the Tribe's ancestral homeland as evidenced by archaeological finds dating back no less than 6,000 years.

(F) The Eastern Band has a critical need to replace the current Cherokee Elementary School, which was built by the Department of the Interior over 40 years ago with a capacity of 480 students. The school now hosts 794 students in dilapidated buildings and mobile classrooms at a dangerous highway intersection in downtown Cherokee, North Carolina.

(G) The Eastern Band ultimately intends to build a new three-school campus to serve as an environmental, cultural, and educational “village,” where Cherokee language and culture can be taught alongside the standard curriculum.

Effective dates.

Eastern Band of
Cherokee Indians
Land Exchange
Act of 2003.
16 USC 460a-5
note.

(H) The land exchange and construction of this educational village will benefit the American public by preserving Cherokee traditions and fostering a vibrant, modern, and well-educated Indian nation.

(I) The land exchange will also reunify tribal reservation lands now separated between the Big Cove Community and the balance of the Qualla Boundary, reestablishing the territorial integrity of the Eastern Band.

(J) The Ravensford tract contains no threatened species or endangered species listed pursuant to the Endangered Species Act of 1973. The 218-acre Yellow Face tract has a number of listed threatened species and endangered species and a higher appraised value than the 143-acre Ravensford tract.

(K) The American public will benefit from the Eastern Band's commitment to mitigate any impacts on natural and cultural resources on the Ravensford tract, by among other things reducing the requested acreage from 168 to 143 acres.

(L) The Congress and the Department of the Interior have approved land exchanges in the past when the benefits to the public and requesting party are clear, as they are in this case.

(2) PURPOSES.—The purposes of this section are the following:

(A) To acquire the Yellow Face tract for protection by the National Park Service, in order to preserve the Waterrock Knob area's spectacular views, endangered species and high altitude wetland seeps from encroachment by housing development, for the benefit and enjoyment of the American public.

(B) To transfer the Ravensford tract, to be held in trust by the United States for the benefit of the Eastern Band of Cherokee Indians, in order to provide for an education facility that promotes the cultural integrity of the Eastern Band and to reunify two Cherokee communities that were historically contiguous, while mitigating any impacts on natural and cultural resources on the tract.

(C) To promote cooperative activities and partnerships between the Eastern band and the National Park Service within the Eastern Band's ancestral homelands.

(c) LAND EXCHANGE.—

(1) IN GENERAL.—The Secretary of the Interior ("Secretary") shall exchange the Ravensford tract, currently in the Great Smoky Mountains National Park and the Blue Ridge Parkway, for the Yellow Face tract adjacent to the Waterrock Knob Visitor Center on the Blue Ridge Parkway.

(2) TREATMENT OF EXCHANGED LANDS.—Effective upon receipt by the Secretary of a deed or deeds satisfactory to the Secretary for the lands comprising the Yellow Face tract (as described in subsection (3)) to the United States, all right, title, and interest of the United States in and to the Ravensford tract (as described in subsection (4)), including all improvements and appurtenances, are declared to be held in trust by the United States for the benefit of the Eastern Band of Cherokee Indians as part of the Cherokee Indian Reservation.

(3) **YELLOW FACE TRACT.**—The Yellow Face tract shall contain Parcels 88 and 89 of the Hornbuckle Tract, Yellow Face Section, Qualla Township, Jackson County, North Carolina, which consist altogether of approximately 218 acres and are depicted as the “Yellow Face Tract” on the map entitled “Land Exchange Between the National Park Service and the Eastern Band of Cherokee Indians,” numbered 133/80020A, and dated November 2002. The map shall be on file and available for public inspection in the appropriate offices of the National Park Service and the Bureau of Indian Affairs. Upon completion of the land exchange, the Secretary shall adjust the boundary of the Blue Ridge Parkway to include such lands and shall manage the lands as part of the parkway.

(4) **RAVENSFORD TRACT.**—The lands declared by subsection (2) to be held in trust for the Eastern Band of Cherokee Indians shall consist of approximately 143 acres depicted as the “Ravensford Tract” on the map identified in subsection (3). Upon completion of the land exchange, the Secretary shall adjust the boundaries of Great Smoky Mountains National Park and the Blue Ridge Parkway to exclude such lands.

(5) **LEGAL DESCRIPTIONS.**—Not later than 1 year after the date of enactment of this section, the Secretary of the Interior shall file a legal description of the areas described in subsections (3) and (4) with the Committee on Resources of the House of Representatives and the Committee on Indian Affairs and the Committee on Energy and Natural Resources of the Senate. Such legal descriptions shall have the same force and effect as if the information contained in the description were included in those subsections except that the Secretary may correct clerical and typographical errors in such legal descriptions. The legal descriptions shall be on file and available for public inspection in the offices of the National Park Service and the Bureau of Indian Affairs.

Deadline.

(d) **IMPLEMENTATION PROCESS.**—

(1) **GOVERNMENT-TO-GOVERNMENT AGREEMENTS.**—In order to fulfill the purposes of this section and to establish cooperative partnerships for purposes of this section the Director of the National Park Service and the Eastern Band of Cherokee Indians shall enter into government-to-government consultations and shall develop protocols to review planned construction on the Ravensford tract. The Director of the National Park Service is authorized to enter into cooperative agreements with the Eastern Band for the purpose of providing training, management, protection, preservation, and interpretation of the natural and cultural resources on the Ravensford tract.

(2) **CONSTRUCTION STANDARDS.**—Recognizing the mutual interests and responsibilities of the Eastern Band of Cherokee Indians and the National Park Service for the conservation and protection of the resources on the Ravensford tract, the National Park Service and the Eastern Band shall develop mutually agreed upon standards for size, impact, and design of construction consistent with the purposes of this section on the Ravensford tract. The standards shall be consistent with the Eastern Band’s need to develop educational facilities and support infrastructure adequate for current and future generations and shall otherwise minimize or mitigate any adverse impacts on natural or cultural resources. The standards

shall be based on recognized best practices for environmental sustainability and shall be reviewed periodically and revised as necessary. Development of the tract shall be limited to a road and utility corridor, an educational campus, and the infrastructure necessary to support such development. No new structures shall be constructed on the part of the Ravensford tract depicted as the "No New Construction" area on the map referred to in subsection (c)(3), which is generally the area north of the point where Big Cove Road crosses the Raven Fork River. All development on the Ravensford tract shall be conducted in a manner consistent with this section and such development standards.

(e) GAMING PROHIBITION.—Gaming as defined and regulated by the Indian Gaming Regulatory Act (25 U.S.C. 2701 et seq.) shall be prohibited on the Ravensford tract.

SEC. 139. Notwithstanding any implementation of the Department of the Interior's trust reorganization plan within fiscal years 2003 or 2004, funds appropriated for fiscal year 2004 shall be available to the tribes within the California Tribal Trust Reform Consortium and to the Salt River Pima Maricopa Indian Community, the Confederated Salish-Kootenai Tribes of the Flathead Reservation and the Chippewa Cree Tribe of the Rocky Boys Reservation on the same basis as funds were distributed in fiscal year 2003. This Demonstration Project shall operate separate and apart from the Department of the Interior's trust reform reorganization, and the Department shall not impose its trust management infrastructure upon or alter the existing trust resource management systems of the above referenced tribes having a self-governance compact and operating in accordance with the Tribal Self-Governance Program set forth in 25 U.S.C. Sections 458aa-458hh: *Provided*, That the California Trust Reform Consortium and any other participating tribe agree to carry out their responsibilities under the same fiduciary standards as those to which the Secretary of the Interior is held: *Provided further*, That they demonstrate to the satisfaction of the Secretary that they have the capability to do so.

49 USC 40101 note.

Congress finds the following:

(1) The United States has revolutionized the way people travel, developing new technologies and aircraft to move people more efficiently and more safely.

Civil aviation products and services generate a significant surplus for United States trade accounts, and amount to significant numbers of the Nation's highly skilled, technologically qualified work force.

(4) Aerospace technologies, products, and services underpin the advanced capabilities of our men and women in uniform and those charged with homeland security.

(5) Future growth in civil aviation increasingly will be constrained by concerns related to aviation system safety and

An Act

To provide for the exchange of certain lands in the Coconino and Tonto National Forests in Arizona, and for other purposes.

Dec. 19, 2003

[H.R. 622]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

16 USC 431 note.

SECTION 1. FINDINGS; PURPOSE.

(a) FINDINGS.—Congress finds the following:

(1) Certain private lands adjacent to the Montezuma Castle National Monument in Yavapai County, Arizona, are desirable for Federal acquisition to protect important riparian values along Beaver Creek and the scenic backdrop for the National Monument.

(2) Certain other inholdings in the Coconino National Forest are desirable for Federal acquisition to protect important public values near Double Cabin Park.

(3) Approximately 108 acres of land within the Tonto National Forest, northeast of Payson, Arizona, are currently occupied by 45 residential cabins under special use permits from the Secretary of Agriculture, and have been so occupied since the mid-1950s, rendering such lands of limited use and enjoyment potential for the general public. Such lands are, therefore, appropriate for transfer to the cabin owners in exchange for lands that will have higher public use values.

(4) In return for the privatization of such encumbered lands the Secretary of Agriculture has been offered approximately 495 acres of non-Federal land (known as the Q Ranch) within the Tonto National Forest, east of Young, Arizona, in an area where the Secretary has completed previous land exchanges to consolidate public ownership of National Forest lands.

(5) The acquisition of the Q Ranch non-Federal lands by the Secretary will greatly increase National Forest management efficiency and promote public access, use, and enjoyment of the area and surrounding National Forest System lands.

(b) PURPOSE.—The purpose of this Act is to authorize, direct, facilitate, and expedite the consummation of the land exchanges set forth herein in accordance with the terms and conditions of this Act.

SEC. 2. DEFINITIONS.

(6) **SECRETARY.**—The term “Secretary” means the Secretary of Agriculture, unless otherwise specified.

SEC. 3. MONTEZUMA CASTLE LAND EXCHANGE.

(d) **EQUAL VALUE EXCHANGE.**—The values of the non-Federal and Federal land directed to be exchanged under this section shall be equal or equalized as determined by the Secretary through an appraisal performed by a qualified appraiser mutually agreed to by the Secretary and MCJV and performed in conformance with the Uniform Appraisal Standards for Federal Land Acquisitions (U.S. Department of Justice, December 2000), and section 206(d) of FLPMA (43 U.S.C. 1716(d)). If the values are not equal, the Secretary shall delete Federal lots from the conveyance to MCJV in the following order and priority, as necessary, until the values of Federal and non-Federal land are within the 25 percent cash equalization limit of section 206(b) of FLPMA (43 U.S.C. 1716(b)):

- (1) Lot 3.
- (2) Lot 4.
- (3) Lot 9.
- (4) Lot 10.
- (5) Lot 11.
- (6) Lot 8.

Applicability.

(e) **CASH EQUALIZATION.**—Any difference in value remaining after compliance with subsection (d) shall be equalized by the payment of cash to the Secretary or MCJV, as the circumstances dictate, in accordance with section 206(b) of FLPMA (43 U.S.C.

1716(b)). Public Law 90-171 (16 U.S.C. 484a; commonly known as the "Sisk Act") shall, without further appropriation, apply to any cash equalization payment received by the United States under this section.

If the values are not equal, they shall be equalized by the payment of cash to the Secretary or DPSHA pursuant to section 206(b) of FLPMA (43 U.S.C. 1716(b)). Public Law 90-171 (16 U.S.C. 484a; commonly known as the "Sisk Act") shall, without further appropriation, apply to any cash equalization payment received by the United States under this section.

Applicability.

(e) SPECIAL USE PERMIT TERMINATION.—Upon execution of the land exchange authorized by this section, all special use cabin permits on the Federal land shall be terminated.

SEC. 5. MISCELLANEOUS PROVISIONS.

(d) **ADMINISTRATION OF ACQUIRED LAND.**—The land acquired by the Secretary pursuant to this Act shall become part of the Tonto or Coconino National Forest, as appropriate, and be administered as such in accordance with the laws, rules, and regulations generally applicable to the National Forest System. (a) **BONUSES.**—

(1) **IN GENERAL.**—Chapter 57 of title 5, United States Code, is amended by striking sections 5753 and 5754 and inserting the following:

“§ 5753. Recruitment and relocation bonuses

“(a)(1) This section may be applied to—

“(A) employees covered by the General Schedule pay system established under subchapter III of chapter 53; and

“(B) employees in a category approved by the Office of Personnel Management at the request of the head of an Executive agency.

“(2) A bonus may not be paid under this section to an individual who is appointed to or who holds—

“(A) a position to which an individual is appointed by the President, by and with the advice and consent of the Senate;

“(B) a position in the Senior Executive Service as a non-career appointee (as such term is defined under section 3132(a)); or

“(C) a position which has been excepted from the competitive service by reason of its confidential, policy-determining, policy-making, or policy-advocating character.

“(3) In this section, the term ‘employee’ has the meaning given that term in section 2105, except that such term also includes an employee described in subsection (c) of that section.

“(b) The Office of Personnel Management may authorize the head of an agency to pay a bonus under this section to an individual only if—

“(1) the position to which such individual is appointed (as described in paragraph (2)(A)) or to which such individual moves or must relocate (as described in paragraph (2)(B)) is likely to be difficult to fill in the absence of such a bonus; and

“(2) the individual—

“(A) is newly appointed as an employee of the Federal Government; or

“(B)(i) is currently employed by the Federal Government; and

“(ii)(I) moves to a new position in the same geographic area under circumstances described in regulations of the Office; or

“(II) must relocate to accept a position in a different geographic area.

Contracts.

“(c)(1) Payment of a bonus under this section shall be contingent upon the employee entering into a written service agreement to complete a period of employment with the agency, not longer than 4 years. The Office may, by regulation, prescribe a minimum service period for purposes of this section.

“(2)(A) The agreement shall include—

“(i) the commencement and termination dates of the required service period (or provisions for the determination thereof);

“(ii) the amount of the bonus;

“(iii) the method of payment; and

“(iv) other terms and conditions under which the bonus is payable, subject to the requirements of this section and regulations of the Office.

“(B) The terms and conditions for paying a bonus, as specified in the service agreement, shall include—

“(i) the conditions under which the agreement may be terminated before the agreed-upon service period has been completed; and

“(ii) the effect of the termination.

“(C) The required service period shall commence upon the commencement of service with the agency or movement to a new position or geographic area, as applicable, unless the service agreement provides for a later commencement date in circumstances and to the extent allowable under regulations of the Office, such as when there is an initial period of formal basic training.

“(d)(1) Except as provided in subsection (e), a bonus under this section shall not exceed 25 percent of the annual rate of

basic pay of the employee at the beginning of the service period multiplied by the number of years (including a fractional part of a year, as determined under regulations of the Office) in the required service period of the employee involved.

“(2) A bonus under this section may be paid as an initial lump sum, in installments, as a final lump sum upon the completion of the full period of service required by the agreement, or in a combination of these forms of payment.

“(3) A bonus under this section is not part of the basic pay of an employee for any purpose.

“(4) Under regulations of the Office, a recruitment bonus under this section may be paid to an eligible individual before that individual enters on duty.

“(e) The Office may authorize the head of an agency to waive the limitation under subsection (d)(1) based on a critical agency need, subject to regulations prescribed by the Office. Under such a waiver, the maximum bonus allowable shall—

“(1) be equal to the maximum that would be determined if subsection (d)(1) were applied by substituting ‘50’ for ‘25’; but

“(2) in no event exceed 100 percent of the annual rate of basic pay of the employee at the beginning of the service period.

Nothing in this subsection shall be considered to permit the waiver of any requirement under subsection (c).

“(f) The Office shall require that an agency establish a plan for the payment of recruitment bonuses before paying any such bonuses, and a plan for the payment of relocation bonuses before paying any such bonuses, subject to regulations prescribed by the Office.

“(g) The Office may prescribe regulations to carry out this section, including regulations relating to the repayment of a bonus under this section in appropriate circumstances when the agreed-upon service period has not been completed.

“§ 5754. Retention bonuses

“(a)(1) This section may be applied to—

“(A) employees covered by the General Schedule pay system established under subchapter III of chapter 53; and

“(B) employees in a category approved by the Office of Personnel Management at the request of the head of an Executive agency.

“(2) A bonus may not be paid under this section to an individual who is appointed to or who holds—

“(A) a position to which an individual is appointed by the President, by and with the advice and consent of the Senate;

“(B) a position in the Senior Executive Service as a non-career appointee (as such term is defined under section 3132(a)); or

“(C) a position which has been excepted from the competitive service by reason of its confidential, policy-determining, policy-making, or policy-advocating character.

“(3) In this section, the term ‘employee’ has the meaning given that term in section 2105, except that such term also includes an employee described in subsection (c) of that section.

“(b) The Office of Personnel Management may authorize the head of an agency to pay a retention bonus to an employee if—

“(1) the unusually high or unique qualifications of the employee or a special need of the agency for the employee’s services makes it essential to retain the employee; and

“(2) the agency determines that, in the absence of a retention bonus, the employee would be likely to leave—

“(A) the Federal service; or

“(B) for a different position in the Federal service under conditions described in regulations of the Office.

“(c) The Office may authorize the head of an agency to pay retention bonuses to a group of employees in 1 or more categories of positions in 1 or more geographic areas, subject to the requirements of subsection (b)(1) and regulations prescribed by the Office, if there is a high risk that a significant portion of employees in the group would be likely to leave in the absence of retention bonuses.

Contracts.

“(d)(1) Payment of a retention bonus is contingent upon the employee entering into a written service agreement with the agency to complete a period of employment with the agency.

“(2)(A) The agreement shall include—

“(i) the length of the required service period;

“(ii) the amount of the bonus;

“(iii) the method of payment; and

“(iv) other terms and conditions under which the bonus is payable, subject to the requirements of this section and regulations of the Office.

“(B) The terms and conditions for paying a bonus, as specified in the service agreement, shall include—

“(i) the conditions under which the agreement may be terminated before the agreed-upon service period has been completed; and

“(ii) the effect of the termination.

“(3)(A) Notwithstanding paragraph (1), a written service agreement is not required if the agency pays a retention bonus in biweekly installments and sets the installment payment at the full bonus percentage rate established for the employee with no portion of the bonus deferred.

Notices.

“(B) If an agency pays a retention bonus in accordance with subparagraph (A) and makes a determination to terminate the payments, the agency shall provide written notice to the employee of that determination. Except as provided in regulations of the Office, the employee shall continue to be paid the retention bonus through the end of the pay period in which such written notice is provided.

“(4) A retention bonus for an employee may not be based on any period of such service which is the basis for a recruitment or relocation bonus under section 5753.

“(e)(1) Except as provided in subsection (f), a retention bonus, which shall be stated as a percentage of the employee’s basic pay for the service period associated with the bonus, may not exceed—

“(A) 25 percent of the employee’s basic pay if paid under subsection (b); or

“(B) 10 percent of an employee’s basic pay if paid under subsection (c).

“(2)(A) A retention bonus may be paid to an employee in installments after completion of specified periods of service or in a single

lump sum at the end of the full period of service required by the agreement.

“(B) An installment payment is derived by multiplying the amount of basic pay earned in the installment period by a percentage not to exceed the bonus percentage rate established for the employee.

“(C) If the installment payment percentage established for the employee is less than the bonus percentage rate established for the employee, the accrued but unpaid portion of the bonus is payable as part of the final installment payment to the employee after completion of the full service period under the terms of the service agreement.

“(D) For purposes of this paragraph, the bonus percentage rate established for an employee means the bonus percentage rate established for such employee in accordance with paragraph (1) or subsection (f), as the case may be.

“(3) A retention bonus is not part of the basic pay of an employee for any purpose.

“(f) Upon the request of the head of an agency, the Office may waive the limit established under subsection (e)(1) and permit the agency head to pay an otherwise eligible employee or category of employees retention bonuses of up to 50 percent of basic pay, based on a critical agency need.

“(g) The Office shall require that, before paying any bonuses under this section, an agency shall establish a plan for the payment of any such bonuses, subject to regulations prescribed by the Office.

“(h) The Office may prescribe regulations to carry out this section.”

(B) should monitor the payment of such bonuses (in the circumstances described in subparagraph (A)) to ensure that they are an effective use of the Federal Government's funds and have not adversely affected the ability of those Government agencies that lost employees to other Government agencies (in such circumstances) to carry out their mission.

The percentage shall be calculated by Region 10 on a rolling basis as each sale is sold (for purposes of this amendment, a "rolling basis" shall mean that the determination of how much western redcedar is eligible for sale to various markets shall be made at the time each sale is awarded). Western redcedar shall be deemed "surplus to the needs of domestic processors in Alaska" when the timber sale holder has presented to the Forest Service documentation of the inability to sell western redcedar logs from a given sale to domestic Alaska processors at a price equal to or greater than the log selling value stated in the contract. All additional western redcedar volume not sold to Alaska or contiguous 48 United States domestic processors may be exported to foreign markets at the election of the timber sale holder. All Alaska yellow cedar may be sold at prevailing export prices at the election of the timber sale holder.

TITLE V—NATIONAL AVIATION HERITAGE AREA

National
Aviation
Heritage Area
Act.**SEC. 501. SHORT TITLE.**

16 USC 461 note.

This title may be cited as the “National Aviation Heritage Area Act”.

SEC. 502. FINDINGS AND PURPOSE.

16 USC 461 note.

(a) **FINDINGS.**—Congress finds the following:

(1) Few technological advances have transformed the world or our Nation’s economy, society, culture, and national character as the development of powered flight.

(2) The industrial, cultural, and natural heritage legacies of the aviation and aerospace industry in the State of Ohio are nationally significant.

(3) Dayton, Ohio, and other defined areas where the development of the airplane and aerospace technology established our Nation’s leadership in both civil and military aeronautics and astronautics set the foundation for the 20th Century to be an American Century.

(4) Wright-Patterson Air Force Base in Dayton, Ohio, is the birthplace, the home, and an integral part of the future of aerospace.

(5) The economic strength of our Nation is connected integrally to the vitality of the aviation and aerospace industry, which is responsible for an estimated 11,200,000 American jobs.

(6) The industrial and cultural heritage of the aviation and aerospace industry in the State of Ohio includes the social history and living cultural traditions of several generations.

(7) The Department of the Interior is responsible for protecting and interpreting the Nation’s cultural and historic resources, and there are significant examples of these resources within Ohio to merit the involvement of the Federal Government to develop programs and projects in cooperation with the Aviation Heritage Foundation, Incorporated, the State of Ohio, and other local and governmental entities to adequately conserve, protect, and interpret this heritage for the educational and recreational benefit of this and future generations of Americans, while providing opportunities for education and revitalization.

(8) Since the enactment of the Dayton Aviation Heritage Preservation Act of 1992 (Public Law 102-419), partnerships among the Federal, State, and local governments and the private sector have greatly assisted the development and preservation of the historic aviation resources in the Miami Valley.

(9) An aviation heritage area centered in Southwest Ohio is a suitable and feasible management option to increase

collaboration, promote heritage tourism, and build on the established partnerships among Ohio's historic aviation resources and related sites.

(10) A critical level of collaboration among the historic aviation resources in Southwest Ohio cannot be achieved without a congressionally established national heritage area and the support of the National Park Service and other Federal agencies which own significant historic aviation-related sites in Ohio.

(11) The Aviation Heritage Foundation, Incorporated, would be an appropriate management entity to oversee the development of the National Aviation Heritage Area.

(12) Five National Park Service and Dayton Aviation Heritage Commission studies and planning documents: "Study of Alternatives: Dayton's Aviation Heritage", "Dayton Aviation Heritage National Historical Park Suitability/Feasibility Study", "Dayton Aviation Heritage General Management Plan", "Dayton Historic Resources Preservation and Development Plan", and Heritage Area Concept Study, demonstrated that sufficient historical resources exist to establish the National Aviation Heritage Area.

(13) With the advent of the 100th anniversary of the first powered flight in 2003, it is recognized that the preservation of properties nationally significant in the history of aviation is an important goal for the future education of Americans.

(14) Local governments, the State of Ohio, and private sector interests have embraced the heritage area concept and desire to enter into a partnership with the Federal Government to preserve, protect, and develop the Heritage Area for public benefit.

(15) The National Aviation Heritage Area would complement and enhance the aviation-related resources within the National Park Service, especially the Dayton Aviation Heritage National Historical Park, Ohio.

(b) PURPOSE.—The purpose of this title is to establish the Heritage Area to—

(1) encourage and facilitate collaboration among the facilities, sites, organizations, governmental entities, and educational institutions within the Heritage Area to promote heritage tourism and to develop educational and cultural programs for the public;

(2) preserve and interpret for the educational and inspirational benefit of present and future generations the unique and significant contributions to our national heritage of certain historic and cultural lands, structures, facilities, and sites within the National Aviation Heritage Area;

(3) encourage within the National Aviation Heritage Area a broad range of economic opportunities enhancing the quality of life for present and future generations;

(4) provide a management framework to assist the State of Ohio, its political subdivisions, other areas, and private organizations, or combinations thereof, in preparing and implementing an integrated Management Plan to conserve their aviation heritage and in developing policies and programs that will preserve, enhance, and interpret the cultural, historical, natural, recreation, and scenic resources of the Heritage Area; and

(5) authorize the Secretary to provide financial and technical assistance to the State of Ohio, its political subdivisions, and private organizations, or combinations thereof, in preparing and implementing the private Management Plan.

Joint Resolution

Recognizing the 60th anniversary of the Battle of Peleliu and the end of Imperial Japanese control of Palau during World War II and urging the Secretary of the Interior to work to protect the historic sites of the Peleliu Battlefield National Historic Landmark and to establish commemorative programs honoring the Americans who fought there.

Dec. 21, 2004

[H.J. Res. 102]

Whereas on December 7, 1941, Imperial Japan bombed the United States fleet at Pearl Harbor, Hawaii, forcing the United States to declare war on Japan;

Whereas by 1944, United States victories in the Southwest and Central Pacific were bringing the war ever closer to Japan;

Whereas on September 15, 1944, after three days of naval gunfire, United States forces landed on the beaches of Peleliu, in the Palau islands chain, with the objective of capturing a vital air field;

Whereas the battle for Peleliu lasted more than two months, during which the United States suffered over 10,000 casualties, including an estimated 1,250 Marines and 540 soldiers killed in action;

Whereas George H.W. Bush, the 41st President of the United States, served as a torpedo-bomber pilot in the Navy and sank an armed Japanese trawler during Operation Snapshot, an operation to weaken Japanese defenses on Peleliu before United States Marines invaded the island in September 1944;

George H.W.
Bush.

Whereas former Secretary of State George P. Shultz served as an officer in the Marine Corps detached to the 81st Infantry Division of the Army during the Battle of Peleliu and participated in the seizure, occupation, and defense of Angaur Island in the Palau islands chain;

George P. Shultz.

Whereas on February 4, 1985, the Secretary of the Interior officially designated the Peleliu battlefield as the "Peleliu Battlefield National Historic Landmark";

Whereas the landmark plaque has been mounted and is now displayed in a prominent place in the village of Kloulkubed;

Whereas that designation as a national historic landmark attests not only to the significance of the battlefield site, but also to the integrity of the site;

Whereas the Peleliu battlefield today has considerable physical evidence of the battle, including about 100 identified individual cave sites occupied by the defending Japanese troops, as well as pill boxes, casemates, and large military equipment, both American and Japanese, which played a direct role in the battle for Peleliu; and

Whereas thanks to the sacrifices of members of the United States Armed Forces who participated in the Battle of Peleliu, the Republic of Palau today is an independent, democratic nation and a strong ally of the United States: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Congress recognizes the bravery and courage of the members of the United States Armed Forces who participated in the Battle of Peleliu and of all veterans who fought in the Pacific Theater during World War II.

SEC. 2. The Congress urges the Secretary of the Interior—

(1) to recognize the year 2004 as the 60th anniversary of the Battle of Peleliu and the end of Imperial Japanese control of Palau during World War II;

(2) to work to protect the historic sites of the Peleliu Battlefield National Historic Landmark; and

(3) to establish commemorative programs honoring the Americans who fought at those sites.

TITLE II—CASTILLO DE SAN MARCOS NATIONAL MONUMENT BOUNDARY MODIFICATION

SEC. 201. SHORT TITLE.

This title may be cited as the “Castillo de San Marcos National Monument Boundary Adjustment Act of 2004”.

SEC. 202. FINDINGS.

Congress finds the following:

(1) The early defense lines for Fort Marion, Florida, today known as the Castillo de San Marcos National Monument, included defenses extending in a line due west to the Sebastian River, a distance of about one half mile.

(2) In the 1830's, during the Seminole Wars in Florida, these defensive lines were maintained, but as Florida became more settled they fell into disrepair and/or became obsolete.

(3) In 1908 the War Department deeded much of the property running west to the Sebastian River to the St. Johns County Board of Public Instruction. The portion of this property remaining in federal ownership today is occupied by Orange Street, a City of St. Augustine, Florida street.

(4) For nearly a century, the City of St. Augustine has maintained and managed Orange Street, a modern city street, and associated utilities in the Orange Street corridor.

(5) Any archeological remains that are still present on the property overlaid by Orange Street are adequately protected by the City's archeological ordinances, and by the City having an archeologist on staff.

(6) Although the city currently operates Orange Street under a right-of-way from the National Park Service, from a management perspective it is appropriate for the City of St. Augustine to own Orange Street.

SEC. 203. BOUNDARY ADJUSTMENT.

(a) **CONVEYANCE OF LAND.**—The Secretary of the Interior shall convey, without consideration, to the City of St. Augustine, Florida, all right, title, and interest of the United States in and to the lands known as Orange Street, a portion of the Castillo de San Marcos National Monument (Monument), consisting of approximately 3.1 acres, as shown on the map entitled Castillo de San Marcos National Monument Boundary Adjustment and Correction, numbered 343/80060, and dated April 2003. Upon completion of

the conveyance, the Secretary shall revise the boundary of the Monument to exclude the land conveyed.

(b) **BOUNDARY REVISION.**—Effective on the date of the enactment of this Act, the boundary of the Monument is revised to include an area of approximately 0.45 acres, as shown on the map identified in subsection (a). The Secretary shall administer the lands included in the boundary as part of the national monument in accordance with applicable laws and regulations. Effective date.

Title 3—

Proclamation 7647 of February 7, 2003

The President

Establishment of the Governors Island National Monument

By the President of the United States of America

A Proclamation

On the north tip of Governors Island, at the confluence of the Hudson and East Rivers, stand two fortifications that served as an outpost to protect New York City from sea attack. These two important historic objects, Castle Williams and Fort Jay, are part of a National Historic Landmark District designated in 1985. Between 1806 and 1811, these fortifications were constructed as part of the First and Second American Systems of Coastal Fortification. Castle Williams and Fort Jay represent two of the finest examples of defensive structures in use from the Renaissance to the American Civil War. They also played important roles in the War of 1812, the American Civil War, and World Wars I and II.

These fortifications were built on the most strategic defensive positions on the island. Fort Jay, constructed between 1806 and 1809, is on the highest point of the island from which its glacis originally sloped down to the waterfront on all sides. Castle Williams, constructed between 1807 and 1811, occupies a rocky promontory as close as possible to the harbor channels and served as the most important strategic defensive point in the entrance to the New York Harbor.

Governors Island was managed by the United States Army and the United States Coast Guard for nearly 200 years, but is no longer required for defense or Coast Guard purposes. It provides an excellent opportunity for the public to observe and understand the harbor history, its defense, and its ecology. Its proximity to lower Manhattan also makes it an appropriate location from which to reflect upon the tragic events of September 11, 2001.

Section 2 of the Act of June 8, 1906 (34 Stat. 225, 16 U.S.C. 431) (the "Antiquities Act"), authorizes the President, in his discretion, to declare by public proclamation historic landmarks, historic and prehistoric structures, and other objects of historic or scientific interest that are situated upon the lands owned or controlled by the Government of the United States to be national monuments, and to reserve as a part thereof parcels of land, the limits of which in all cases shall be confined to the smallest area compatible with the proper care and management of the objects to be protected.

A Governors Island National Monument was established by Proclamation 7402 of January 19, 2001, in order to protect the two fortifications. The monument, however, remained subject to Public Law 105-33, section 9101, 111 Stat. 670 (August 5, 1997), which required the entire island, including the monument lands, to be sold with a right of first offer to the State and City of New York.

WHEREAS the State and City of New York each executed a consent and waiver of the right of first offer regarding Governors Island; and

WHEREAS the portion of Governors Island described on the accompanying land description was sold to the National Trust for Historic Preservation (National Trust), on January 31, 2003, and the remainder of Governors Island was sold to the Governors Island Preservation and Education Corporation (GIPEC) of the State and City of New York, on January 31, 2003; and

WHEREAS the National Trust, on January 31, 2003, relinquished and conveyed to the United States of America all lands owned by the National Trust on Governors Island; and

WHEREAS such relinquishment and conveyance have been accepted by the Secretary of the Interior (Secretary) pursuant to the Antiquities Act; and

WHEREAS it appears that it would be in the public interest to preserve Castle Williams, Fort Jay, and certain lands and buildings necessary for the care and management of the Castle and Fort as the Governors Island National Monument;

NOW, THEREFORE, I, GEORGE W. BUSH, President of the United States of America, by the authority vested in me by section 2 of the Act of June 8, 1906 (34 Stat. 225, 16 U.S.C. 431), do proclaim that there are hereby set apart and reserved as the Governors Island National Monument for the purpose of protecting the objects identified above, all lands and interests in lands owned or controlled by the United States within the boundaries described on the accompanying land description, which is attached to and forms a part of this proclamation. The Federal land and interests in land reserved consist of approximately 22 acres, together with appurtenant easements for all necessary purposes and any associated federally owned personal property of historic interest, which is the smallest area compatible with the property care and management of the objects to be protected.

All Federal lands and interests in lands within the boundaries of this monument are hereby appropriated and withdrawn from all forms of entry, location, selection, sale, or leasing or other disposition under the public land laws, including but not limited to withdrawal from location, entry, and patent under the mining laws, and from disposition under all laws relating to mineral and geothermal leasing.

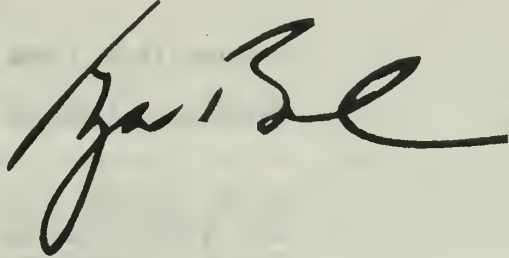

The Secretary shall manage the monument consistent with the purposes and provisions of this proclamation. For the purpose of preserving, restoring, and enhancing the public visitation and appreciation of the monument, the Secretary shall prepare a management plan for the monument within 3 years of the date of this proclamation. Further, to the extent authorized by law, the Secretary shall promulgate any additional regulations needed for the proper care and management of the objects identified above.

Title 3—

Executive Order 13287 of March 3, 2003

The President

Preserve America

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the National Historic Preservation Act (16 U.S.C. 470 *et seq.*) (NHPA) and the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*), it is hereby ordered:

Section 1. *Statement of Policy.* It is the policy of the Federal Government to provide leadership in preserving America's heritage by actively advancing the protection, enhancement, and contemporary use of the historic properties owned by the Federal Government, and by promoting intergovernmental cooperation and partnerships for the preservation and use of historic properties. The Federal Government shall recognize and manage the historic properties in its ownership as assets that can support department and agency missions while contributing to the vitality and economic well-being of the Nation's communities and fostering a broader appreciation for the development of the United States and its underlying values. Where consistent with executive branch department and agency missions, governing law, applicable preservation standards, and where appropriate, executive branch departments and agencies ("agency" or "agencies") shall advance this policy through the protection and continued use of the historic properties owned by the Federal Government, and by pursuing partnerships with State and local governments, Indian tribes, and the private sector to promote the preservation of the unique cultural heritage of communities and of the Nation and to realize the economic benefit that these properties can provide. Agencies shall maximize efforts to integrate the policies, procedures, and practices of the NHPA and this order into their program activities in order to efficiently and effectively advance historic preservation objectives in the pursuit of their missions.

Sec. 2. *Building Preservation Partnerships.* When carrying out its mission activities, each agency, where consistent with its mission and governing authorities, and where appropriate, shall seek partnerships with State and local governments, Indian tribes, and the private sector to promote local economic development and vitality through the use of historic properties in a manner that contributes to the long-term preservation and productive use of those properties. Each agency shall examine its policies, procedures, and capabilities to ensure that its actions encourage, support, and foster public-private initiatives and investment in the use, reuse, and rehabilitation of historic properties, to the extent such support is not inconsistent with other provisions of law, the Secretary of the Interior's Standards for Archeology and Historic Preservation, and essential national department and agency mission requirements.

Sec. 3. *Improving Federal Agency Planning and Accountability.* (a) Accurate information on the state of Federally owned historic properties is essential to achieving the goals of this order and to promoting community economic development through local partnerships. Each agency with real property management responsibilities shall prepare an assessment of the current status of its inventory of historic properties required by section 110(a)(2) of the NHPA (16 U.S.C. 470h-2(a)(2)), the general condition and management needs of such properties, and the steps underway or planned to meet those management needs. The assessment shall also include an evaluation of the suitability of the agency's types of historic properties to contribute to community economic development initiatives, including heritage tourism, taking into

account agency mission needs, public access considerations, and the long-term preservation of the historic properties. No later than September 30, 2004, each covered agency shall complete a report of the assessment and make it available to the Chairman of the Advisory Council on Historic Preservation (Council) and the Secretary of the Interior (Secretary).

(b) No later than September 30, 2004, each agency with real property management responsibilities shall review its regulations, management policies, and operating procedures for compliance with sections 110 and 111 of the NHPA (16 U.S.C. 470h-2 & 470-3) and make the results of its review available to the Council and the Secretary. If the agency determines that its regulations, management policies, and operating procedures are not in compliance with those authorities, the agency shall make amendments or revisions to bring them into compliance.

(c) Each agency with real property management responsibilities shall, by September 30, 2005, and every third year thereafter, prepare a report on its progress in identifying, protecting, and using historic properties in its ownership and make the report available to the Council and the Secretary. The Council shall incorporate this data into a report on the state of the Federal Government's historic properties and their contribution to local economic development and submit this report to the President by February 15, 2006, and every third year thereafter.

(d) Agencies may use existing information gathering and reporting systems to fulfill the assessment and reporting requirements of subsections 3(a)-(c) of this order. To assist agencies, the Council, in consultation with the Secretary, shall, by September 30, 2003, prepare advisory guidelines for agencies to use at their discretion.

(e) No later than June 30, 2003, the head of each agency shall designate a senior policy level official to have policy oversight responsibility for the agency's historic preservation program and notify the Council and the Secretary of the designation. This senior official shall be an assistant secretary, deputy assistant secretary, or the equivalent, as appropriate to the agency organization. This official, or a subordinate employee reporting directly to the official, shall serve as the agency's Federal Preservation Officer in accordance with section 110(c) of the NHPA. The senior official shall ensure that the Federal Preservation Officer is qualified consistent with guidelines established by the Secretary for that position and has access to adequate expertise and support to carry out the duties of the position.

Sec. 4. Improving Federal Stewardship of Historic Properties. (a) Each agency shall ensure that the management of historic properties in its ownership is conducted in a manner that promotes the long-term preservation and use of those properties as Federal assets and, where consistent with agency missions, governing law, and the nature of the properties, contributes to the local community and its economy.

(b) Where consistent with agency missions and the Secretary of the Interior's Standards for Archeology and Historic Preservation, and where appropriate, agencies shall cooperate with communities to increase opportunities for public benefit from, and access to, Federally owned historic properties.

(c) The Council is directed to use its existing authority to encourage and accept donations of money, equipment, and other resources from public and private parties to assist other agencies in the preservation of historic properties in Federal ownership to fulfill the goals of the NHPA and this order.

(d) The National Park Service, working with the Council and in consultation with other agencies, shall make available existing materials and information for education, training, and awareness of historic property stewardship to ensure that all Federal personnel have access to information and can develop the skills necessary to continue the productive use of Federally owned historic properties while meeting their stewardship responsibilities.

(e) The Council, in consultation with the National Park Service and other agencies, shall encourage and recognize exceptional achievement by such agencies in meeting the goals of the NHPA and this order. By March 31, 2004, the Council shall submit to the President and the heads of agencies recommendations to further stimulate initiative, creativity, and efficiency in the Federal stewardship of historic properties.

Sec. 5. *Promoting Preservation Through Heritage Tourism.*

(a) To the extent permitted by law and within existing resources, the Secretary of Commerce, working with the Council and other agencies, shall assist States, Indian tribes, and local communities in promoting the use of historic properties for heritage tourism and related economic development in a manner that contributes to the long-term preservation and productive use of those properties. Such assistance shall include efforts to strengthen and improve heritage tourism activities throughout the country as they relate to Federally owned historic properties and significant natural assets on Federal lands.

(b) Where consistent with agency missions and governing law, and where appropriate, agencies shall use historic properties in their ownership in conjunction with State, tribal, and local tourism programs to foster viable economic partnerships, including, but not limited to, cooperation and coordination with tourism officials and others with interests in the properties.

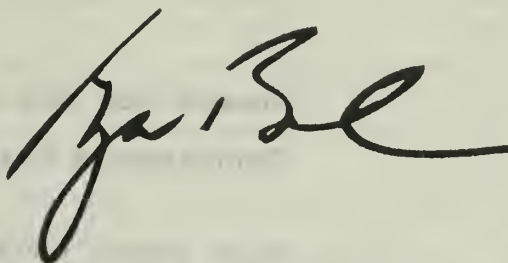

Sec. 6. *National and Homeland Security Considerations.*

Nothing in this order shall be construed to require any agency to take any action or disclose any information that would conflict with or compromise national and homeland security goals, policies, programs, or activities.

Sec. 7. *Definitions.* For the purposes of this order, the term "historic property" means any prehistoric or historic district, site, building, structure, and object included on or eligible for inclusion on the National Register of Historic Places in accordance with section 301(5) of the NHPA (16 U.S.C. 470w(5)). The term "heritage tourism" means the business and practice of attracting and accommodating visitors to a place or area based especially on the unique or special aspects of that locale's history, landscape (including trail systems), and culture. The terms "Federally owned" and "in Federal ownership," and similar terms, as used in this order, do not include properties acquired by agencies as a result of foreclosure or similar actions and that are held for a period of less than 5 years.

Sec. 8. *Judicial Review.* This order is intended only to improve the internal management of the Federal Government and it is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its departments,

agencies, instrumentalities or entities, its officers or employees, or any other person.

The President

Federal Real Property Asset Management

By the authority vested in me as President by the Constitution and the laws of the United States of America, including section 121(a) of title 40, United States Code, and in order to promote the efficient and economical use of Federal real property resources in accordance with their value as national assets and in the best interests of the Nation, it is hereby ordered as follows:

Section 1. Policy. It is the policy of the United States to promote the efficient and economical use of America's real property assets and to assure management accountability for implementing Federal real property management reforms. Based on this policy, executive branch departments and agencies shall recognize the importance of real property resources through increased management attention, the establishment of clear goals and objectives, improved policies and levels of accountability, and other appropriate action.

Sec. 2. Definition and Scope. (a) For the purpose of this executive order, Federal real property is defined as any real property owned, leased, or otherwise managed by the Federal Government, both within and outside the United States, and improvements on Federal lands. For the purpose of this order, Federal real property shall exclude: interests in real property assets that have been disposed of for public benefit purposes pursuant to section 484 of title 40, United States Code, and are now held in private ownership; land easements or rights-of-way held by the Federal Government; public domain land (including lands withdrawn for military purposes) or land reserved or dedicated for national forest, national park, or national wildlife refuge purposes except for improvements on those lands; land held in trust or restricted fee status for individual Indians or Indian tribes; and land and interests in land that are withheld from the scope of this order by agency heads for reasons of national security, foreign policy, or public safety.

(b) This order shall not be interpreted to supersede any existing authority under law or by executive order for real property asset management, with the exception of the revocation of Executive Order 12512 of April 29, 1985, in section 8 of this order.

Sec. 3. Establishment and Responsibilities of Agency Senior Real Property Officer. (a) The heads of all executive branch departments and agencies cited in sections 901(b)(1) and (b)(2) of title 31, United States Code, and the Secretary of Homeland Security, shall designate among their senior management officials, a Senior Real Property Officer. Such officer shall have the education, training, and experience required to administer the necessary functions of the position for the particular agency.

(b) The Senior Real Property Officer shall develop and implement an agency asset management planning process that meets the form, content, and other requirements established by the Federal Real Property Council established in section 4 of this order. The initial agency asset management plan will be submitted to the Office of Management and Budget on a date determined by the Director of the Office of Management and Budget. In developing this plan, the Senior Real Property Officer shall:

- (i) identify and categorize all real property owned, leased, or otherwise managed by the agency, including, where applicable, those properties outside the United States in which the lease agreements and arrangements reflect the host country currency or involve alternative lease plans or rental agreements;
 - (ii) prioritize actions to be taken to improve the operational and financial management of the agency's real property inventory;
 - (iii) make life-cycle cost estimations associated with the prioritized actions;
 - (iv) identify legislative authorities that are required to address these priorities;
 - (v) identify and pursue goals, with appropriate deadlines, consistent with and supportive of the agency's asset management plan and measure progress against such goals;
 - (vi) incorporate planning and management requirements for historic property under Executive Order 13287 of March 3, 2003, and for environmental management under Executive Order 13148 of April 21, 2000; and
 - (vii) identify any other information and pursue any other actions necessary to the appropriate development and implementation of the agency asset management plan.

- (e) The designation of the Senior Real Property Officer shall be made by agencies within 30 days after the date of this order.

Sec. 4. Establishment of a Federal Real Property Council. (a) A Federal Real Property Council (Council) is established, within the Office of Management and Budget for administrative purposes, to develop guidance for, and facilitate the success of, each agency's asset management plan. The Council shall be composed exclusively of all agency Senior Real Property Officers, the Controller of the Office of Management and Budget, the Administrator of General Services, and any other full-time or permanent part-time Federal officials or employees as deemed necessary by the Chairman of the Council. The Office of Management and Budget shall provide funding and administrative support for the Council, as appropriate.

(b) The Council shall provide a venue for assisting the Senior Real Property Officers in the development and implementation of the agency asset management plans. The Council shall work with the Administrator of General Services to establish appropriate performance measures to determine the effectiveness of Federal real property management. Such performance measures shall include, but are not limited to, evaluating the costs and benefits

- (i) life-cycle cost estimations associated with the agency's prioritized actions;
- (ii) the costs relating to the acquisition of real property assets by purchase, condemnation, exchange, lease, or otherwise;
- (iii) the cost and time required to dispose of Federal real property assets and the financial recovery of the Federal investment resulting from the disposal;
- (iv) the operating, maintenance, and security costs at Federal properties, including but not limited to the costs of utility services at unoccupied properties;
- (v) the environmental costs associated with ownership of property, including the costs of environmental restoration and compliance activities;
- (vi) changes in the amounts of vacant Federal space;
- (vii) the realization of equity value in Federal real property assets;
- (viii) opportunities for cooperative arrangements with the commercial real estate community; and
- (ix) the enhancement of Federal agency productivity through an improved working environment. The performance measures shall be designed to enable the heads of executive branch agencies to track progress in the achievement of Government-wide property management objectives, as well as allow for comparing the performance of executive branch agencies against industry and other public sector agencies.

(c) The Council shall serve as a clearinghouse for executive agencies for best practices in evaluating actual progress in the implementation of real property enhancements. The Council shall also work in conjunction with the President's Management Council to assist the efforts of the Senior Real Property Officials and the implementation of agency asset management plans.

(d) The Council shall be organized and hold its first meeting within 60 days of the date of this order. The Council shall hold meetings not less often than once a quarter each fiscal year.

Sec. 5. *Role of the General Services Administration.* (a) The Administrator of General Services shall, to the extent permitted by law and in consultation with the Federal Real Property Council, provide policy oversight and guidance for executive agencies for Federal real property management; manage selected properties for an agency at the request of that agency and with the consent of the Administrator; delegate operational responsibilities to an agency where the Administrator determines it will promote efficiency and economy, and where the receiving agency has demonstrated the ability and willingness to assume such responsibilities; and provide necessary leadership in the development and maintenance of needed property management information systems.

(b) The Administrator of General Services shall publish common performance measures and standards adopted by the Council.

(c) The Administrator of General Services, in consultation with the Federal Real Property Council, shall establish and maintain a single, comprehensive, and descriptive database of all real property under the custody and control of all executive branch agencies, except when otherwise required for reasons of national security. The Administrator shall collect from each executive branch agency such descriptive information, except for classified information, as the Administrator considers will best describe the nature, use, and extent of the real property holdings of the Federal Government.

(d) The Administrator of General Services, in consultation with the Federal Real Property Council, may establish data and other information technology (IT) standards for use by Federal agencies in developing or upgrading Federal

agency real property information systems in order to facilitate reporting on a uniform basis. Those agencies with particular IT standards and systems in place and in use shall be allowed to continue with such use to the extent that they are compatible with the standards issued by the Administrator.

Sec. 6. General Provisions. (a) The Director of the Office of Management and Budget shall review, through the management and budget review processes, the efforts of departments and agencies in implementing their asset management plans and achieving the Government-wide property management policies established pursuant to this order.

(b) The Office of Management and Budget and the General Services Administration shall, in consultation with the landholding agencies, develop legislative initiatives that seek to improve Federal real property management through the adoption of appropriate industry management techniques and the establishment of managerial accountability for implementing effective and efficient real property management practices.

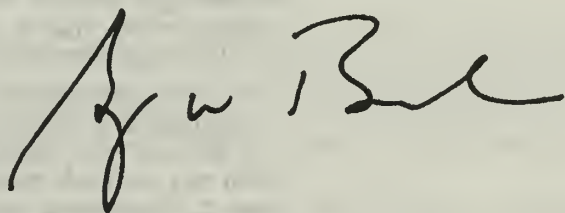

(c) Nothing in this order shall be construed to impair or otherwise affect the authority of the Director of the Office of Management and Budget with respect to budget, administrative, or legislative proposals.

(d) Nothing in this order shall be construed to affect real property for the use of the President, Vice President, or, for protective purposes, the United States Secret Service.

Sec. 7. Public Lands. In order to ensure that Federally owned lands, other than the real property covered by this order, are managed in the most effective and economic manner, the Departments of Agriculture and the Interior shall take such steps as are appropriate to improve their management of public lands and National Forest System lands and shall develop appropriate legislative proposals necessary to facilitate that result.

Sec. 8. Executive Order 12512 of April 29, 1985, is hereby revoked.

Sec. 9. Judicial Review. This order is intended only to improve the internal management of the executive branch and is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity, against the United States, its departments, agencies, or other entities, its officers or employees, or any other person.

Executive Order 13330 of February 24, 2004

The President

Human Service Transportation Coordination

By the authority vested in me as President by the Constitution and the laws of the United States of America, and to enhance access to transportation to improve mobility, employment opportunities, and access to community services for persons who are transportation-disadvantaged, it is hereby ordered as follows:

Section 1. This order is issued consistent with the following findings and principles:

(a) A strong America depends on citizens who are productive and who actively participate in the life of their communities.

(b) Transportation plays a critical role in providing access to employment, medical and health care, education, and other community services and amenities. The importance of this role is underscored by the variety of transportation programs that have been created in conjunction with health and human service programs, and by the significant Federal investment in accessible public transportation systems throughout the Nation.

(c) These transportation resources, however, are often difficult for citizens to understand and access, and are more costly than necessary due to inconsistent and unnecessary Federal and State program rules and restrictions.

(d) A broad range of Federal program funding allows for the purchase or provision of transportation services and resources for persons who are transportation-disadvantaged. Yet, in too many communities, these services and resources are fragmented, unused, or altogether unavailable.

(e) Federally assisted community transportation services should be seamless, comprehensive, and accessible to those who rely on them for their lives and livelihoods. For persons with mobility limitations related to advanced age, persons with disabilities, and persons struggling for self-sufficiency, transportation within and between our communities should be as available and affordable as possible.

(f) The development, implementation, and maintenance of responsive, comprehensive, coordinated community transportation systems is essential for persons with disabilities, persons with low incomes, and older adults who rely on such transportation to fully participate in their communities.

Sec. 2. Definitions. (a) As used in this order, the term "agency" means an executive department or agency of the Federal Government.

(b) For the purposes of this order, persons who are transportation-disadvantaged are persons who qualify for Federally conducted or Federally assisted transportation-related programs or services due to disability, income, or advanced age.

Sec. 3. Establishment of the Interagency Transportation Coordinating Council on Access and Mobility. (a) There is hereby established, within the Department of Transportation for administrative purposes, the "Interagency Transportation Coordinating Council on Access and Mobility" ("Interagency Transportation Coordinating Council" or "Council"). The membership of the Interagency Transportation Coordinating Council shall consist of:

- (i) the Secretaries of Transportation, Health and Human Services, Education, Labor, Veterans Affairs, Agriculture, Housing and Urban Development, and the Interior, the Attorney General, and the Commissioner of Social Security; and

(ii) such other Federal officials as the Chairperson of the Council may designate.

(b) The Secretary of Transportation, or the Secretary's designee, shall serve as the Chairperson of the Council. The Chairperson shall convene and preside at meetings of the Council, determine its agenda, direct its work, and, as appropriate to particular subject matters, establish and direct subgroups of the Council, which shall consist exclusively of the Council's members.

(c) A member of the Council may designate any person who is part of the member's agency and who is an officer appointed by the President or a full-time employee serving in a position with pay equal to or greater than the minimum rate payable for GS-15 of the General Schedule to perform functions of the Council or its subgroups on the member's behalf.

Sec 4. *Functions of the Interagency Transportation Coordinating Council.* The Interagency Transportation Coordinating Council shall:

(a) promote interagency cooperation and the establishment of appropriate mechanisms to minimize duplication and overlap of Federal programs and services so that transportation-disadvantaged persons have access to more transportation services;

(b) facilitate access to the most appropriate, cost-effective transportation services within existing resources;

Executive Order 13340 of May 18, 2004

The President

Establishment of Great Lakes Interagency Task Force and Promotion of a Regional Collaboration of National Significance for the Great Lakes

By the authority vested in me as President by the Constitution and the laws of the United States of America, and to help establish a regional collaboration of national significance for the Great Lakes, it is hereby ordered as follows:

Section 1. Policy. The Great Lakes are a national treasure constituting the largest freshwater system in the world. The United States and Canada have made great progress addressing past and current environmental impacts to the Great Lakes ecology. The Federal Government is committed to making progress on the many significant challenges that remain. Along with numerous State, tribal, and local programs, over 140 Federal programs help fund and implement environmental restoration and management activities throughout the Great Lakes system. A number of intergovernmental bodies are providing leadership in the region to address environmental and resource management issues in the Great Lakes system. These activities would benefit substantially from more systematic collaboration and better integration of effort. It is the policy of the Federal Government to support local and regional efforts to address environmental challenges and to encourage local citizen and community stewardship. To this end, the Federal Government will partner with the Great Lakes States, tribal and local governments, communities, and other interests to establish a regional collaboration to address nationally significant environmental and natural resource issues involving the Great Lakes. It is the further policy of the Federal Government that its executive departments and agencies will ensure that their programs are funding effective, coordinated, and environmentally sound activities in the Great Lakes system.

Sec. 2. Definitions. For purposes of this order:

(a) "Great Lakes" means Lake Ontario, Lake Erie, Lake Huron (including Lake Saint Clair), Lake Michigan, and Lake Superior, and the connecting channels (Saint Marys River, Saint Clair River, Detroit River, Niagara River, and Saint Lawrence River to the Canadian Border).

(b) "Great Lakes system" means all the streams, rivers, lakes, and other bodies of water within the drainage basin of the Great Lakes.

Sec. 3. Great Lakes Interagency Task Force.

(a) Task Force Purpose. To further the policy described in section 1 of this order, there is established, within the Environmental Protection Agency for administrative purposes, the "Great Lakes Interagency Task Force" (Task Force) to:

- (ii) Collaborate with Canada and its provinces and with bi-national bodies involved in the Great Lakes region regarding policies, strategies, projects, and priorities for the Great Lakes system.

- (iii) Coordinate the development of consistent Federal policies, strategies, projects, and priorities for addressing the restoration and protection of the Great Lakes system and assisting in the appropriate management of the Great Lakes system.
- (iv) Develop outcome-based goals for the Great Lakes system relying upon, among other things, existing data and science-based indicators of water quality and related environmental factors. These goals shall focus on outcomes such as cleaner water, sustainable fisheries, and biodiversity of the Great Lakes system and ensure that Federal policies, strategies, projects, and priorities support measurable results.
- (v) Exchange information regarding policies, strategies, projects, and activities of the agencies represented on the Task Force related to the Great Lakes system.
- (vi) Work to coordinate government action associated with the Great Lakes system.
- (vii) Ensure coordinated Federal scientific and other research associated with the Great Lakes system.
- (viii) Ensure coordinated government development and implementation of the Great Lakes portion of the Global Earth Observation System of Systems.
- (ix) Provide assistance and support to agencies represented on the Task Force in their activities related to the Great Lakes system.
- (x) Submit a report to the President by May 31, 2005, and thereafter as appropriate, that summarizes the activities of the Task Force and provides any recommendations that would, in the judgment of the Task Force, advance the policy set forth in section 1 of this order.

(b) Membership and Operation.

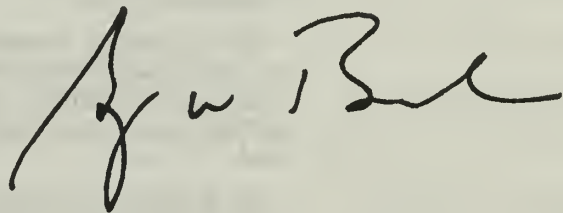

- (i) The Task Force shall consist exclusively of the following officers of the United States: the Administrator of the Environmental Protection Agency (who shall chair the Task Force), the Secretary of State, the Secretary of the Interior, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Housing and Urban Development, the Secretary of Transportation, the Secretary of Homeland Security, the Secretary of the Army, and the Chairman of the Council on Environmental Quality. A member of the Task Force may designate, to perform the Task Force functions of the member, any person who is part of the member's department, agency, or office and who is either an officer of the United States appointed by the President or a full-time employee serving in a position with pay equal to or greater than the minimum rate payable for GS-15 of the General Schedule. The Task Force shall report to the President through the Chairman of the Council on Environmental Quality.
- (ii) The Task Force shall establish a "Great Lakes Regional Working Group" (Working Group) composed of the appropriate regional administrator or director with programmatic responsibility for the Great Lakes system for each agency represented on the Task Force including: the Great Lakes National Program Office of the Environmental Protection Agency; the United States Fish and Wildlife Service, National Park Service, and United States Geological Survey within the Department of the Interior; the Natural Resources Conservation Service and the Forest Service of the Department of Agriculture; the National Oceanic and Atmospheric Administration of the Department of Commerce; the Department of Housing and Urban Development; the Department of Transportation; the Coast Guard within the Department of Homeland Security; and the Army Corps of Engineers within the Department of the Army. (c) Management Principles for Regional Collaboration of National Significance. To further the policy described in section 1, the Task Force shall recognize and apply key principles and foster conditions to ensure successful collaboration. To that end, the Environmental Protection Agency will coordinate the development of a set of principles of successful collaboration.

Nothing in this order shall be construed to affect the statutory authority or obligations of any Federal agency or any bi-national agreement with Canada.

Sec. 6. Judicial Review. This order is intended only to improve the internal management of the Federal Government and is not intended to, and does not, create any right, benefit, or trust responsibility, substantive or procedural, enforceable at law or in equity by a party against the United States, its departments, agencies, instrumentalities or entities, its officers or employees, or any other person.
