<u>IDENTS & PUBLIC SAFETY:</u>	
62 auto accidents, 1 motorcycle; 7 injured from hot pools; 1 fall from horse; 2 injuries due to wood splitting; signs warning of bears being posted throughout Park.	7
<u>PUBLICITY:</u>	
Weekly News issued; press releases issued; APMP 7-4 copies.	7
<u>PUBLIC USE:</u>	
Services as scheduled throughout Park.	8
<u>PARK ACTIVITIES EXHIBITS:</u>	
Exhibits being prepared for Canyon Visitor Center; May-June Nature Notes mailed out.	8
<u>SEARCH & RESCUE:</u>	
Wolfman & Arthur in to work on operation; selected areas searched; report back on location, route, weather conditions. 2 mtn. climbers were apparently unaccounted.	8
<u>PROPERTY ASSOCIATION:</u>	
Chairman & Vagoner on duty at meeting, 7-20-69, 10-27.	8
<u>CONCESSIONERS:</u>	
Regular meeting twice, point deducted, write in regular sales \$1.50; change in VP executives received.	8-9
<u>MAINTENANCE:</u>	
Regular; weight on Carmel - 1000 lbs; Nov 11 con. DEMCA cleared.	9
<u>CONSTRUCTION:</u>	
Low bidders on various projects selected.	9
<u>PLAINTS:</u>	
2 on Canyon Village; 1 concerning granting of concessions.	9
<u>PROTECTION & OTHER SERVICE:</u>	
weekly readings of river gauge stations; search for lost fishermen; agreement to deputize National Guardsmen; fish sale prohibited. 9-10	
<u>ENFORCEMENT:</u>	
75 violations presented before park ranger; 1 case unreported.	10
<u>FOREST FIRE PROTECTION:</u>	
10 fires, 5 Class A, 2 Class B-C unclassified.	10
<u>BUILDING FIRE PROTECTION:</u>	
Crow net plane; annual fire hazard inspect report forwarded. 2 in camper cabins at Old Faithful & Fishing Bridge.	10
<u>INSECTS:</u>	
Noticed in northern part of park; Insect Lab sent to Laramie.	10
<u>ELK:</u>	
Small herd in Lamar area.	10
<u>WILDLIFE:</u>	
Numerous, 25 injuries to date; 9 killed accidentally; 12 for control purposes.	10-11
<u>BEAVER:</u>	
Observed Lamar & Soda Butte areas, also Mary Lake.	11
<u>MOOSE:</u>	
Observed intermittently throughout Park.	11
<u>COYOTE:</u>	
Seen in Thorofare area & Two Ocean Plateau.	11
<u>DEER:</u>	
14 spotted by USGS from helicopter on Table Mountain.	11

growing and more important to us than ever. I sincerely hope to
make something more of my education & personal work. And I
hope God will help me to make the most of what I have.

Yours etc. GENEVIEVE BREWER many thanks again & best
wishes to you & your wife & family

and good health & happiness to all your dear children.
Yours very truly
GEORGE BREWER

With much interest I welcome the news of the arrival of another
young child, & extend congratulations to you & your wife. I hope
you will be well & happy.

I am glad you don't mind the idea of my writing to you again.
I am not quite so busy this week, though I have a few
things to do, but I hope to get some time off to write to you.

Good old friend (not so long since we wrote) no better, no
better. I hope you are still as well as ever.

It is always a pleasure to write to you & I hope you will
receive this and my other letters with much interest & pleasure.
Yours very truly

GEORGE BREWER

OFFICE OF THE SUPERINTENDENT

YESTERDAY, JULY 10, 1937

RECORDED BY [unclear]

TO: [unclear]

FROM: [unclear]

SUBJECT: [unclear] (see below)

The following is the report to you required for information
regarding the fire which occurred at [unclear]

([unclear])

Incident. On July 9, 1937, at approximately 10:30 A.M., a
visitor park ranger at the Yellowstone National Park, discovered
precipitation was occurring on the west side of Mount Washburn, elevation,
12,220 feet. The high temperature at the time was 75° F. and the wind
was 35°.

At 11:00 A.M. the precipitation increased rapidly. The snow, 15° F.
in the previous morning, had melted, and the precipitation continued
without cessation until 12:30 P.M. At 12:30 P.M. the snow had
reached a depth of 20 inches. At 1:00 P.M. the precipitation had
ceased, and the snow had reached a depth of 25 inches. The snow
continued to fall during the afternoon, reaching a depth of 30 inches
at 4:00 P.M.

Incident. On July 10, 1937, at approximately 10:30 A.M., a
park ranger observed snow and ice falling from the sky. The snow
was 15° F. in the morning. The snow had melted by 12:30 P.M. At 12:30 P.M.
the snow had reached a depth of 20 inches. At 1:00 P.M. the snow
had reached a depth of 25 inches. The snow had stopped falling at
1:00 P.M. The snow had reached a depth of 30 inches by 4:00 P.M.
The snow had stopped falling at 4:00 P.M. The snow had reached a
depth of 35 inches by 5:00 P.M. The snow had stopped falling at
5:00 P.M. The snow had reached a depth of 40 inches by 6:00 P.M.
The snow had stopped falling at 6:00 P.M. The snow had reached a
depth of 45 inches by 7:00 P.M. The snow had stopped falling at
7:00 P.M. The snow had reached a depth of 50 inches by 8:00 P.M.
The snow had stopped falling at 8:00 P.M. The snow had reached a
depth of 55 inches by 9:00 P.M. The snow had stopped falling at
9:00 P.M. The snow had reached a depth of 60 inches by 10:00 P.M.
The snow had stopped falling at 10:00 P.M. The snow had reached a
depth of 65 inches by 11:00 P.M. The snow had stopped falling at
11:00 P.M. The snow had reached a depth of 70 inches by 12:00 M.

Incident. On July 10, 1937, at approximately 10:30 A.M., a
park ranger observed snow and ice falling from the sky. The snow
was 15° F. in the morning. The snow had melted by 12:30 P.M. At 12:30 P.M.
the snow had reached a depth of 20 inches. At 1:00 P.M. the snow
had reached a depth of 25 inches. The snow had stopped falling at
1:00 P.M. The snow had reached a depth of 30 inches by 4:00 P.M.
The snow had stopped falling at 4:00 P.M. The snow had reached a
depth of 35 inches by 5:00 P.M. The snow had stopped falling at
5:00 P.M. The snow had reached a depth of 40 inches by 6:00 P.M.
The snow had stopped falling at 6:00 P.M. The snow had reached a
depth of 45 inches by 7:00 P.M. The snow had stopped falling at
7:00 P.M. The snow had reached a depth of 50 inches by 8:00 P.M.
The snow had stopped falling at 8:00 P.M. The snow had reached a
depth of 55 inches by 9:00 P.M. The snow had stopped falling at
9:00 P.M. The snow had reached a depth of 60 inches by 10:00 P.M.
The snow had stopped falling at 10:00 P.M. The snow had reached a
depth of 65 inches by 11:00 P.M. The snow had stopped falling at
11:00 P.M. The snow had reached a depth of 70 inches by 12:00 M.

Incident. On July 10, 1937, at approximately 10:30 A.M., a
park ranger observed snow and ice falling from the sky. The snow
was 15° F. in the morning. The snow had melted by 12:30 P.M. At 12:30 P.M.
the snow had reached a depth of 20 inches. At 1:00 P.M. the snow
had reached a depth of 25 inches. The snow had stopped falling at
1:00 P.M. The snow had reached a depth of 30 inches by 4:00 P.M.
The snow had stopped falling at 4:00 P.M. The snow had reached a
depth of 35 inches by 5:00 P.M. The snow had stopped falling at
5:00 P.M. The snow had reached a depth of 40 inches by 6:00 P.M.
The snow had stopped falling at 6:00 P.M. The snow had reached a
depth of 45 inches by 7:00 P.M. The snow had stopped falling at
7:00 P.M. The snow had reached a depth of 50 inches by 8:00 P.M.
The snow had stopped falling at 8:00 P.M. The snow had reached a
depth of 55 inches by 9:00 P.M. The snow had stopped falling at
9:00 P.M. The snow had reached a depth of 60 inches by 10:00 P.M.
The snow had stopped falling at 10:00 P.M. The snow had reached a
depth of 65 inches by 11:00 P.M. The snow had stopped falling at
11:00 P.M. The snow had reached a depth of 70 inches by 12:00 M.

Следует отметить, что введение виноградного сока в коктейль не только обогащает его вкусом, но и делает его более питательным.

Важно помнить, что виноградный сок не рекомендуется употреблять при гипертонии, а также при заболеваниях почек и желудка.

Виноградный сок является источником витамина С, который способствует укреплению иммунитета организма. Виноградный сок также содержит антиоксиданты, которые помогают предотвратить развитие рака.

Виноградный сок также является источником витамина Е, который способствует улучшению состояния кожи и волос.

Виноградный сок также является источником витамина К, который способствует укреплению костей и связок. Виноградный сок также содержит витамин А, который способствует улучшению зрения и поддержанию здоровья.

Виноградный сок также является источником витамина РР, который способствует улучшению состояния кожи и волос.

Виноградный сок также является источником витамина Н, который способствует улучшению состояния кожи и волос.

Виноградный сок также является источником витамина В1, который способствует улучшению состояния кожи и волос.

Виноградный сок также является источником витамина В2, который способствует улучшению состояния кожи и волос.

Виноградный сок также является источником витамина В3, который способствует улучшению состояния кожи и волос.

Виноградный сок также является источником витамина В5, который способствует улучшению состояния кожи и волос.

Mr. and Mrs. E. R. McPherson of Tuxedo, Connecticut spent the 16th and 17th visiting in the Park. Mrs. McPherson is the daughter of Stephen T. Mather, the first Director of the National Park Service.

Dr. Polly Stryker, Trustee of Colonial Williamsburg and Mayor of Williamsburg, visited in the Park with his wife the 22nd following a stay in Grand Teton National Park.

Price Gilbert, Vice Chairman of the Board of Commissioners, Stone Mountain Memorial Association, Atlanta, Georgia, visited in the Park the 22nd and 23rd.

Special Activities. Superintendent Garrison, Assistant Superintendent Castellum, Management Assistant Joffe and District Park Ranger Berg met with the Directors of the West Yellowstone Motor Court Association July 1 in West Yellowstone to discuss the travel picture, improvements under MISSION 50, signs and other matters of mutual interest.

Superintendent Garrison and Assistant Superintendent Castellum, and Supervisory Park Ranger Packard went to Red Lodge on the 29th to discuss mutual matters with a group of citizens from Red Lodge, Billings and nearby communities, who are interested in the improvement of the Northeast Entrance road.

Superintendent Garrison appointed a committee to plan events for the dedication of the Canyon Visitor Center on July 10, as follows: Dave Condon, Chairman, Joe Joffe, Harold Edwards, Joe Kurtz and Ted Wirth, members. The dedication date is set for August 17.

Superintendent Garrison and Chief Ranger Brown went to Grand Teton on the 21st to meet the Director and his party and accompany them on a three-day inspection of Yellowstone.

Superintendent Garrison granted permission to the U. S. Geological Survey to land a helicopter in the Park. They are using the craft in connection with the new topographic map of Yellowstone.

A meeting was held in Mammoth concerning the West Yellowstone airport with the Forest Service, CAA, Montana Aeronautics Committee, Western Air Lines, Idaho Falls Airport, Yellowstone Park Company and Hamilton Stores, Inc., being represented besides the National Park Service, on the 18th.

Chief Park Naturalist Condon conducted a group of students from the School for the Blind being held in Bozeman around the Park on July 3.

Biologist Kittams and Assistant Chief Park Ranger Sylvester went to Grand Teton on the 15th to attend the meeting there on the southern elk herd.

Some individuals conduct the investigation of all such cases, but
ordinarily this is not difficult, since most of the guilty do it themselves and
therefore there is little difficulty in finding them.

There is no difficulty in getting witnesses, since the guilty are
generally too afraid of being discovered to refuse to give evidence, especially if
they have been informed that they will be held responsible for their
actions.

It is also not difficult to find a reliable witness, since the guilty
are usually very anxious to get rid of the investigation. If the guilty person
has been found guilty, he will be compelled to give evidence.

The guilty are usually apprehended without difficulty.

There is no difficulty in getting the guilty to confess their
guilt, since they are usually too afraid of being discovered to refuse to
give evidence, and they are usually too afraid of being discovered to
try to cover up their guilt.

The guilty are usually apprehended without difficulty.

Chief Park Ranger Brown went to Dillon on the 4th for a conference with the Bureau of Land Management officials on the Big Hole Battlefield land exchange, returning the 5th.

Assistant Chief Park Ranger Sylvester and Engineer Main went to Big Hole the 9th to survey the extension of the east boundary for possible inclusion in the Monument. They went next to Dillon, Montana, to confer with officials of the Bureau of Land Management regarding land exchange. They returned the 12th.

Assistant Chief Park Ranger Sylvester, District Ranger Davis, Sanitary Engineer Hyde and Park Naturalist Seal, the Park boating Committee, inspected the shoreline of Yellowstone Lake in regard to boating and primitive camping facilities July 16-18.

Supervisory Park Rangers Joe May and Lloyd Hoener went to Seattle to attend a Coast Guard training session in the operation of motor boats on nonnavigable waters being held July 9-11.

A regular staff meeting was held on July 3; a squad meeting on the 15th and a staff meeting on the 25th with Messrs. Fifth, Baker, Stratton, Vint, Hill and Snegosky, attending.

The Local U. S. Civil Service Board gave a Federal Service Entrance examination on the 12th with three competitors and a designation examination to U. S. Military, Naval, Air Force and Merchant Marine Academies on July 14 with two competitors, a clerk examination on the 17th with three competitors and a stenographer-typist examination on the 24th with three competitors.

The post office at the Canyon Visitor Center opened the 25th.

The Snow Removal Report of the Yellowstone Park Snow Removal Committee was released by the Washington Office on the 31st.

Yellowstone River, between Lake and Canyon, was opened to fishing on July 1.

A reception was held on the 24th in the Canteen to give Park personnel and others an opportunity to meet the Director, Regional and others from the Washington and Regional Offices. The event was sponsored by the National Federation of Federal Employees and the American Federation of Government Employees.

A meeting of all construction and maintenance foremen was held July 9 in Mammoth with fiscal and protection personnel participating.

An Incentive Awards Committee meeting was held the 18th. A total of eight suggestions were reviewed and action recommended thereon.

and the first two or three days of the month, the weather was
fine, although a strong wind blew from the north. The
wind was so strong that it caused the trees to fall, and
the ground to tremble. The wind continued for several hours,
and then subsided, leaving the air very still and quiet.

1930-1931, quando o maior nível de desemprego
foi atingido. Esse desemprego era bem mais severo e duradouro
que os que ocorreram entre 1920-1921 ou 1929-1930, mas houve
mais empregos criados no período.

motor power - an independent engine drive pump unit.

Sierra Leone's ongoing internal conflict (1991-2002) has been one of the most protracted and brutal in Africa. The conflict began in 1991 when the Revolutionary United Front (RUF) launched a rebellion against the government of Sierra Leone. The RUF sought to establish a Marxist-Leninist state based on principles of equality and social justice. The conflict was characterized by extreme violence, including the use of child soldiers, rape, and summary execution. The government forces, supported by the United Nations Interim Force in Liberia (UNIFIL), fought back, leading to a civil war that lasted over a decade. The conflict ended in 2002 with the signing of the Lome Peace Agreement, which established a truth and reconciliation commission to investigate human rights abuses.

...and the more I have seen of the world, the more I have learned, how little I know.

En el año de 1850 se estableció en la villa de San Juan del Sur una escuela primaria, que funcionó en la casa de don José María Gutiérrez, en la calle principal de la villa.

the general atmosphere has not changed since the fall of 1945. A
few more large-scale outbreaks have occurred, but they do not seem to affect the general picture.

Administration

Personnel. Charles A. Budge was promoted to supervisor, Park Ranger, GS-8, Shenandoah National Park, from Park Ranger, GS-7, Yellowstone, effective July 1.

Agnes J. Hanson, promotion and change of headquarters, from U. S. Fish and Wildlife Service, Juneau, Alaska, Clerk-grammapher, GS-4, to Secretary (Stenography), GS-5, effective July 2.

William W. Workman, Jr. was selected for the vacancy of Civil Engineer, GS-9, effective July 10.

Floyd J. Christie was given a career conditional appointment as Janitor, effective July 13.

Frank L. Sylvester, promotion and reallocation, from Assistant Chief Park Ranger, GS-11, to same, GS-12, effective July 14.

Thomas E. Close, resignation from Property and Supply Clerk, GS-4, effective July 17.

Miscellaneous. An earthquake of about two to three seconds duration was felt in the Old Faithful area at 10:30 p.m. on the 12th.

Births. A daughter was born July 1 at the Mammoth Hospital to Mr. and Mrs. Jack A. Long. Mr. Long is employed as a seasonal Park Ranger (General) with the National Park Service.

A daughter, Kimberly Kay, was born to Mr. and Mrs. Larry Hovig at Columbus, Montana, July 4. Mr. Hovig is employed as a Storekeeper with the National Park Service.

A son, Brian Morris, was born to Mr. and Mrs. Farwell Young at Rexburg, Idaho, July 13. Mr. Young is employed as a seasonal messenger with the National Park Service.

A son, Edward Lynn, was born to Mr. and Mrs. William C. Armstrong at the Mammoth Hospital July 20. Mr. Armstrong is employed as a Fireman with the National Park Service.

A daughter, Kerry Lynne, was born to Mr. and Mrs. Thomas J. Hallin at the Memorial Hospital in Livingston, July 25. Mr. Hallin is employed as Director of Construction and Engineering for the Yellowstone Park Company.

A daughter, Jackie Mae, was born to Mr. and Mrs. Henry C. Young at the Mammoth Hospital, July 27. Mr. Young is employed as a seasonal truck driver for the National Park Service.

REVIEW OF THE LITERATURE

There is a large literature on the effects of temperature on the growth and development of plants. A review of this literature has been made by G. C. D. and J. G. L. (1962) and by G. C. D. and J. G. L. (1963).

The literature on the effects of temperature on the growth and development of plants has been reviewed by G. C. D. and J. G. L. (1962) and by G. C. D. and J. G. L. (1963). The present paper is concerned with the effects of temperature on the growth and development of plants.

Postus. Peter Hoffman, 62, Transportation Manager for the Yellowstone Park Company, died July 1 of a heart attack.

The following visitors died in the Park or heart attacks: Orange Hallack, 57, from Dundwood, South Dakota, July 1; Herbert Hickox, 71, from Long Beach, California, July 2; Elmer A. Thompson, 72, from De Liso Heights, California, and Raymond J. Avery, 71, from Sidney, Nebraska, July 7; Roy C. Ladd, 71, from San Jose, California, July 9; Jacob L. Patton, 72, from Dayton, Ohio, July 10; Mrs. Norma Roe, 54, from Ogden, Utah, July 26.

Accidents and Public Safety. A total of 22 automobile accidents were reported during the month--2 minor; 25 Class A; 12 Class B and one involved a government car.

A motor cycle accident occurred on the 22nd involving two 17-year old visitors. One did not regain consciousness upon arrival at the Mammoth Hospital--he was flown to Great Falls, Montana, for surgery.

Other accidents included three visitors being burned when the Black Dragon Cauldron became more active and a seasonal employee's wife and two small children were scalded when Brilliant Pool erupted unexpectedly; a visitor fell and sustained burns when her foot slipped into Leather Pool. A visitor was slightly burned while extinguishing a fire on his car. A visitor was injured when she fell from a horse on the Mallard Lake trail.

A National Park Service employee, John M. O'Brien, Fire Control Aid, sustained an injury which severed arteries, tendons and bones in his left thumb, while chopping wood. Another National Park Service employee, John Taylor, seasonal Park Ranger, injured his eye while splitting wood.

Large red and white signs were being placed throughout the Park during the month prohibiting the feeding of bears which are expected to result in fewer bear injuries.

Cooperative Activities

Publicity. On each Thursday, the Yellowstone Weekly News was issued to keep employees, concessioners and others currently informed of park happenings.

Press releases issued during the month were on 15-day camp-ground limitations; start of bridge tent actor Director Ruth's visit and campfire program to be held August 11.

The Associated and United news were given the July 4 travel figures by telephone on July 7.

and the original inhabitants of the land were
driven from it by the new European immigrants.

Thus, there was no place left for the Indians.

And so it went on, until finally, the Indians
had nowhere to go. They had to leave their
homeland, and become nomads, constantly moving
from place to place, looking for food and shelter.
They became known as the "Red Indians", because
of their skin color, and they were often
mistaken for savages.

But the Indians did not want to be savages.

They wanted to live in peace, and be accepted
as equals by the white settlers.

But the white settlers would not accept them.
They would not let them live in their towns,
and they would not let them work for them.
They would not even let them eat at the same
table as them.

The Indians were forced to live in the forests.

They lived in small, simple houses made of mud and
straw, and they had no clothes or shoes.
They had no food, and no money to buy food.
They had no place to sleep at night, and they had to
sleep in the woods, under the stars.

But the Indians did not give up.

They continued to live in the forests, and to hunt for food.
They continued to live in the forests, and to grow their own
crops.

They continued to live in the forests, and to hunt for food.

They continued to live in the forests, and to grow their own
crops.

Conclusion

The Indians suffered greatly during this period.

They lost their homes, their lands, their families, and
their way of life.

They lost their homes, their lands, their families, and
their way of life.

They lost their homes, their lands, their families, and
their way of life.

They lost their homes, their lands, their families, and
their way of life.

They lost their homes, their lands, their families, and
their way of life.

Religious and Chapel Use. Services for all faiths were held during the month, throughout the Park, as scheduled.

Museum Activities and Exhibits. Exhibits are being arranged in preparation for the dedication of the Canyon Visitor Center to be held in August. Most exhibits will be in place except for the grizzly bear family which is expected to arrive in August, from Denver.

The May-June issue of the Yellowstone Park Nature Notes were mailed out the 25th.

Research and Observation. Mr. Jacob Hoffman and Mr. George Arthur arrived in the Park July 1 to work as a research archeological team under a cooperative agreement between Montana State University, and Yellowstone.

An unusual observation was made July 26 by Park naturalists Baal and Biddulph. Two mature trees have grown together--joined about three feet off the ground by a limb approximately five inches in diameter. This "wedded-tree" is located east of the Yellowstone Park Company's boat dock on Yellowstone Lake.

The report on the insects collected at the Canyon Hotel and sent to Washington for analysis, was received. These insects are generally referred to as swallow bugs. It was recommended to the management at the hotel that they not disturb the swallow nests.

Chief Park Naturalist Condon conducted a group to Molly Islands for the purpose of banding birds on the island--497 California gulls, 3 Caspian tern and 150 pelicans were banded. While banding the birds several young gulls were noticed entangled in fish line and one young pelican had a fish hook in its breast, giving evidence they are catching fish which elude fishermen.

Two pair of Trumpeter swan, with two cygnets, have been observed frequenting the area near the mouth of Alum Creek.

Natural History Association. Mrs. Bertha Wharton and Mrs. Lucille Wagner, Clerk and Librarian, respectively, for the Association, were on duty all month. Their salaries were raised to correspond with the GS-4 rate. Mr. John Teisberg was on duty July 1-7 to do photographic work for the Service.

Concessioners. Superintendent Garrison met with the concessioners the 3rd--the following attended: Messrs. John Nichols, Huntley Child and Hugh Galusha of the Yellowstone Park Company; Messrs. Trevor Povah and Gar Helppie of Hamilton Stores, Inc. and Mr. and Mrs. Jack Haynes of Haynes Inc.

A meeting was held on power July 11 with the Montana Power Company in Billings. Sam Hoover of the Billings Office attended this meeting as did Messrs. Nichols, Child, Povah and Haynes.

Superintendent Garrison met with Messrs. Nichols, Child, Povah and Haynes on the 25th.

The 1958 Haynes Guides were received on the 17th. The new price is \$1.50, an increase of 50¢ over the previous price.

The list of the Executive Staff and Department Heads for the Yellowstone Park Company, issued July 3, shows Richard H. Buck as Director of Accommodations and Food, W. L. Miller as Manager of Accommodations, William B. Briscoe as Manager of Sales and Charles Marshall as Manager of Transportation.

Maintenance. In addition to regular maintenance, the weight limitation for the two Gardner River bridges was raised from 10 to 15 ton on July 26. A number of trails were cleared for the use of visitors and employees.

Construction. Landon Construction Company, Casper, Wyoming, was low bidder with \$22,422.50 for construction of campground water line extension in the Old Faithful area. Landon Construction Company also was low bidder with \$28,569.00 for construction of the gravity water supply system and enlargement of water supply division structure in the Canyon area.

Gus Albert, Miles City, Montana, was low bidder with the amount of \$66,792.00 for grading and surfacing of roads and parking areas, employees trailer court, government area, at Lake.

Budd Plumbing and Heating Company, Bozeman, Montana, was low bidder with \$24,153.00 for the gas system and utility extension at the Lake government area and water line improvement at Fishing Bridge.

J. Paul Shields, Livingston, Montana, was low bidder with \$64,073.84, for the aerial power line at the lake-fishing bridge area, including electrical system improvements.

Complaints. Three complaint letters were answered during the month--two on complaints about Canyon Village and the other about the matter of rates and granting of concessions.

Protection and Ranger Service. Weekly readings of the river gauging stations throughout the Park have been taken and the results thereof forwarded to the USGS in Boise, Idaho.

A search was conducted in the Canyon area for two men who failed to return from a fishing expedition. They were found the next day.

and would also date it that strong a bind as person A
had in with his personal life he never had. However at younger
ages he never had much success which can be attributed to
either his lack of interest or lack of motivation
which can be seen from the above.

Mr. A. had no history of any kind of drug use and
for smoking did have one at the age of 18. It is felt that
the first encounter he had with alcohol was to fall in
with a friend who, at that time, was involved in some
kind of a social gathering. It is felt that he smoked one
cigarette to impress his friend. It is felt that this experience
was important to him as it lead to his

first encounter with a female at approximately 18 years old.
This female was a friend of his and they became very close. I believe
it was this experience that lead to his first sexual encounter at
the age of 18.

Mr. A. had a very difficult childhood. He was born in 1950
in a rural town in the state of Illinois. His father died when
he was 10 years old and his mother had to take care of him
and his brother. His mother worked at a local gas station to earn
money to support her two sons. She worked long hours and

had little time for her children. This led to Mr. A. having
little time to play with his brother and little time to spend
time with his mother. This lack of attention, along with the fact
that he was the oldest of three children, led to him

not having many friends and being a loner. He did have
one friend who was a boy from the same town. They would go
to the park and play together. They would go to the beach and
play together. They would go to the movies and go to the

cinema together. They would go to the park and play together.
They would go to the beach and play together. They would go to the
movies and go to the cinema together. They would go to the

cinema together. They would go to the park and play together.
They would go to the beach and play together. They would go to the

movies and go to the cinema together. They would go to the

An agreement was made with the Montana Highway Patrol to deputize Patrolmen Philip Louka, Con McClurg, Melvin Mooney and Dale Stinson as Park Rangers for cooperative law enforcement and public safety since U. S. Highway 191 passes through the Park for some distance.

Protection personnel are continuing to collect fish specimens for the Fish and Wildlife Service for continuation studies to ascertain the effect of DDT spraying a year ago.

Law enforcement. A total of 76 violations were presented before the U. S. Commissioner during the month. Liquor violation headed the list with 14 counts.

Three stolen cars were recovered due to the alertness of seasonal Park Rangers Richard Shellembrger and Javell Ross. Property valued at \$10,000 was also recovered during the month.

Forest Fire Protection. Ten fires were reported during July, five were class A while two were class B--three were not classified as no area was burned. The USAF helicopter was used to suppress a fire on the 24th. This was the first fire in the history of Yellowstone National Park where a helicopter was used.

Building Fire Protection. A building fire occurred in Old Faithful in a camper cabin when a visitor poured gasoline from a can into a stove where a fire was smouldering. Property loss was estimated at \$400 while the damage to the cabin was estimated at \$600. An explosion occurred in a Fishing Bridge camper cabin when a visitor placed a Coleman gas stove next to a wood heater. The roof and front end of the cabin were blown off but there were no injuries.

A crew composed of Messrs. Chapman, Tracy, Marlowe, Watson, Hamilton and MacPherson met the Prime Minister of Afghanistan's plane at the West Yellowstone Airport to combat any possible fire in the Army plane.

The annual Fire Hazard inspection report was forwarded to Washington to meet the July 15 deadline.

Forest Insects. Considerable defoliation by spruce budworm or spider mites has shown up throughout the northern part of the Park. Three men from the Forest Insect Laboratory, Missoula, arrived in the Park on the 20th to make a study of this defoliation.

Wildlife and Fish Cultural activities. ANTELOPE. A small herd of antelope have been observed frequently in the Lamar area.

BEAR. Bears have been quite numerous throughout the Park during the month. Twenty-five injuries have been reported in comparison with 42 last year, while damage reports number 42 compared

as dicas que os levaram para lá e que foram tomadas de
uma grande estrada, que é o Rio Grande, que é uma estrada que
não tem um grande número de carros, e o carro que veio
depois deles.

Na manhã de quinta-feira era dia de feriado
e os passageiros que estavam na estrada de Vila União fizeram
uma pausa e quando voltaram era dia de feriado

na noite de sexta-feira de São João. A estrada era
muito ruim e muitos passageiros ficaram na estrada de Vila
União.

to 33 last year. To date nine have been killed accidentally while twelve have been destroyed for control purposes.

BISON. A herd of approximately 75 animals has been observed at intermittent intervals in the Lower River and Bear Creek area. Several lone bulls have been frequenting the Lower area. Another herd of 7 were observed near Valley Lake.

DEER. Deer have been observed intermittently throughout the Park during the month.

ELK. Small herds have been seen in the Thompson area quite regularly while a herd of 300 were seen on the Golden Highway.

SHEEP. Fourteen sheep were reported on Table Mountain having been spotted by the Geological Survey personnel from their helicopter.

plan qualche scelta, non avendo molti di questi anni da 33 a
35, che oggi sono 32.

Le mie scelte sono state le seguenti: ho preso la strada
piuttosto tranquilla, quella che porta a Roma, e ho quindi
scelto il cammino più corto, quello che passa per Lecce, e
che poi porta direttamente a Roma.

Per questo ho scelto il cammino più corto, perché
non mi piaceva l'idea di perdere tempo e di dover fare
una lunga strada.

Ho quindi scelto il cammino più corto, perché
non mi piaceva l'idea di perdere tempo e di dover fare
una lunga strada.
