About this Book

This index is a complete administrative listing of the National Park System's areas and related areas. It is revised biennially to reflect congressional actions. The entries, grouped by state, include administrative addresses and phone numbers, dates of authorization and establishment, boundary change dates, acreages, and brief statements explaining the areas' national significance. This book is not intended as a guide for park visitors. There is no information regarding campgrounds, trails, visitor services, hours, etc. Those needing such information can visit each area's web site, accessible through the National Park Service home page: www.nps.gov.

The Mission of the National Park Service

The National Park Service preserves unimpaired the natural and cultural resources and values of the National Park System for the enjoyment, education, and inspiration of this and future generations. The National Park Service cooperates with partners to extend the benefits of natural and cultural resource conservation and outdoor recreation throughout this country and the world.

Recent actions of the 111th Congress

On March 30, 2009, while this book was in production, the Omnibus Public Land Management Act of 2009 was signed into law. Among its provisions, PL 111-11 authorized nine National Heritage Areas, two waterways within the National Wild and Scenic Rivers System, and four new trails within the National Trails System. New areas are listed below. Changes to existing site names are reflected within this book.

Additional National Heritage Areas

Muscle Shoals National Heritage Area, Alabama
Kenai Mountains-Turnagain Arm National Heritage Area, Alaska
Sangre de Cristo National Heritage Area, Colorado
South Park National Heritage Area, Colorado
Baltimore National Heritage Area, Maryland
Freedom's Way National Heritage Area, Massachusetts, New Hampshire
Mississippi Delta National Heritage Area, Mississippi
Northern Plains National Heritage Area, North Dakota
Mississippi Hills National Heritage Area, Mississippi

Additional National Wild and Scenic Rivers

Taunton River, Massachusetts
Snake River Headwaters, Wyoming

Additional National Trails

Arizona National Scenic Trail
New England National Scenic Trail
Pacific Northwest National Scenic Trail
Washington-Rochambeau Revolutionary Route National Historic Trail

For more information about these recent actions contact the National Park Service Office of Public Affairs 202-208-6843.

Introduction

Grand Canyon National Park

Lincoln Memorial

On August 25, 1916, President Woodrow Wilson signed the act creating the National Park Service, a new federal bureau in the Department of the Interior responsible for protecting the 35 national parks and monuments then managed by the department and those yet to be established. This "Organic Act" states that "the Service thus established shall promote and regulate the use of the Federal areas known as national parks, monuments and reservations . . . by such means and measures as conform to the fundamental purpose of the said parks, monuments and reservations, which purpose is to conserve the scenery and the natural and historic objects and the wild life therein and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment of future generations."

The National Park Service strives to meet those original goals, while filling other roles as well: guardian of our diverse cultural and recreational resources; environmental advocate; world leader in the parks and preservation community; and pioneer in the drive to protect America's open space.

The National Park System comprises 391 areas covering over 84 million acres in 49 States, the District of Columbia, American Samoa, Guam, Puerto Rico, Saipan, and the Virgin Islands. These areas are of such national significance as to justify special recognition and protection in accordance with various acts of Congress.

By the Act of March 1, 1872, Congress established Yellowstone National Park in the Territories of Montana and Wyoming "as a public park or pleasuring-ground for the benefit and enjoyment of the people" and placed it "under exclusive control of the Secretary of the Interior." The founding of Yellowstone National Park began a worldwide national park movement. Today over 100 nations contain some 100,000 national parks or equivalent preserves.

In the years following the establishment of Yellowstone, the United States authorized additional national parks and monuments, most of them carved from the federal lands of the West. These, also, were administered by the Department of the Interior, while other monuments and natural and historical areas were administered as separate units by the War Department and the Forest Service of the Department of Agriculture. No single

agency provided unified management of the varied federal parklands.

An Executive Order in 1933 transferred 56 national monuments and military sites from the Forest Service and the War Department to the National Park Service. This action was a major step in the development of today's truly national system of parks—a system that includes areas of historical, scenic, and scientific importance.

Congress declared in the General Authorities Act of 1970 "that the National Park System, which began with the establishment of Yellowstone National Park in 1872, has since grown to include superlative natural, historic, and recreation areas in every region . . . and that it is the purpose of this Act to include all such areas in the System. . . ."

Additions to the National Park System are now generally made through acts of Congress, and national parks can be created only through such acts. But the president has authority, under the Antiquities Act of 1906, to proclaim national monuments on lands already under federal jurisdiction. The Secretary of the Interior is usually asked by Congress for recommendations on proposed additions to the System. The Secretary is counseled by the National Park System Advisory Board, composed of private citizens, which advises on possible additions to the System and policies for its management.

Nomenclature of Park System Areas

The diversity of the parks is reflected in the variety of titles given to them. These include such designations as national park, national preserve, national monument, national memorial, national historic site, national seashore, and national battlefield park.

Although some titles are self-explanatory, others have been used in many different ways. For example, the title "national monument" has been given to natural reservations, historic military fortifications, prehistoric ruins, fossil sites, and to the Statue of Liberty.

In recent years, both Congress and the National Park Service have attempted to simplify the nomenclature and to establish basic criteria for use of the different official titles. Brief definitions of the most common titles follow.

Areas added to the National Park System for their natural values are expanses or fea-

tures of land or water of great scenic and scientific quality and are usually designated as national parks, monuments, preserves, seashores, lakeshores, or riverways. Such areas contain one or more distinctive attributes like forest, grassland, tundra, desert, estuary, or river systems; they may contain windows on the past for a view of geological history; they may contain imposing landforms like mountains, mesas, thermal areas, and caverns; and they may be habitats of abundant or rare wildlife and plantlife.

Generally, a **national park** contains a variety of resources and encompasses large land or water areas to help provide adequate protection of the resources.

A **national monument** is intended to preserve at least one nationally significant resource. It is usually smaller than a national park and lacks its diversity of attractions.

In 1974, Big Cypress and Big Thicket were authorized as the first **national preserves**. This category is established primarily for the protection of certain resources. Activities like hunting and fishing or the extraction of minerals and fuels may be permitted if they do not jeopardize the natural values. **National reserves** are similar to the preserves. Management may be transferred to local or state authorities. The first reserve, City of Rocks, was established in 1988.

Preserving shoreline areas and off-shore islands, the **national lakeshores** and **national seashores** focus on the preservation of natural values while at the same time providing water-oriented recreation. Although national lakeshores can be established on any natural freshwater lake, the existing four are all located on the Great Lakes. The national seashores are on the Atlantic, Gulf, and Pacific coasts.

National rivers and wild and scenic riverways preserve ribbons of land bordering free-flowing streams which have not been dammed, channelized, or otherwise altered. Besides preserving rivers in their natural state, these areas provide opportunities for outdoor activities like hiking, canoeing, and hunting.

National scenic trails are generally long-distance footpaths winding through areas of natural beauty.

Although best known for its great scenic parks, over half the areas of the National Park System preserve places and commemorate

persons, events, and activities important in the nation's history. These range from archaeological sites associated with prehistoric Indian civilizations to sites related to the lives of modern Americans. Historical areas are customarily preserved or restored to reflect their appearance during the period of their greatest historical significance.

In recent years, **national historic site** has been the title most commonly applied by Congress in authorizing the addition of such areas to the National Park System. A wide variety of titles—**national military park**, **national battlefield park**, **national battlefield site**, and **national battlefield**—has been used for areas associated with American military history. But other areas like **national monuments** and **national historical parks** may include features associated with military history. **National historical parks** are commonly areas of greater physical extent and complexity than national historic sites. The lone **international historic site** refers to a site relevant to both U.S. and Canadian history.

The title **national memorial** is most often used for areas that are primarily commemorative. They need not be sites or structures historically associated with their subjects. For example, the home of Abraham Lincoln in Springfield, Ill., is a national historic site, but the Lincoln Memorial in the District of Columbia is a national memorial.

Several areas whose titles do not include the words "national memorial" are nevertheless classified as memorials. These are Franklin Delano Roosevelt Memorial, Korean War Veterans Memorial, Lincoln Memorial, Lyndon Baines Johnson Memorial Grove, Theodore Roosevelt Island, Thomas Jefferson Memorial, Vietnam Veterans Memorial, Washington Monument, and World War II Memorial in the District of Columbia; Jefferson National Expansion Memorial in Missouri; Perry's Victory in Ohio; and Arlington House in Virginia.

Originally, **national recreation areas** in the park system were units surrounding reservoirs impounded by dams built by other federal agencies. The National Park Service manages many of these areas under cooperative agreements. The concept of recreational areas has grown to encompass other lands and waters set aside for recreational use by acts of Congress and now includes major

areas in urban centers. There are also national recreation areas outside the National Park System that are administered by the Forest Service, U.S. Department of Agriculture.

National parkways encompass ribbons of land flanking roadways and offer an opportunity for driving through areas of scenic interest. They are not designed for high speed travel. Besides the four areas set aside as parkways, other units of the National Park System include parkways within their boundaries.

One area of the National Park System has been set aside primarily as a site for the **performing arts**. This is Wolf Trap National Park for the Performing Arts, Virginia, America's first such national park. Two historical areas, Ford's Theatre National Historic Site, in Washington, D.C., and Chamizal National Memorial, Texas, also provide facilities for the performing arts.

Designation of Wilderness Areas

In the Wilderness Act of 1964 Congress directed certain federal agencies, including the National Park Service, to study lands they administer for their suitability for inclusion in the National Wilderness Preservation System. Congress has now designated **wilderness areas** in 47 units of the National Park System. Wilderness designation does not remove these lands from the parks but ensures they are managed to retain their "primeval character and influence, without permanent improvements or human habitation." There are also 38 wilderness study areas under National Park Service management. Of these areas, 19 were formally transmitted for Congressional action over the last 35 years.

The Act provides that "there shall be no commercial enterprise and no permanent road within any wilderness area . . . and (except for emergency uses) no temporary road, no use of motor vehicles, motorized equipment or motor boats, no landing of aircraft, no other form of mechanical transport, and no structure or installation." Wilderness areas are open to hiking and, in some cases, horseback riding, primitive camping, and other nonmechanical recreation. The Wilderness Act recognizes that wilderness "may also contain ecological, geological, or other features of scientific, educational, scenic, or historical value." Wilderness embodies spiritual, artistic, therapeutic, cultural, and other important values.

Wilderness holds exciting prospects for future management of National Park Service lands. Because wilderness exists on lands of the National Park System, National Forest System, National Wildlife Refuge System, and Bureau of Land Management, it offers a common statutory basis for interagency cooperation in ecosystem management. Only the Wilderness Act mandates preservation of natural processes, making wilderness areas ideal protected core areas for ecosystems, just as national parks often provide core protection for biosphere reserves and world heritage sites. As such, wilderness areas provide important benchmark areas for scientific research and monitoring.

Growing demand for wilderness experience makes sophisticated, sensitive wilderness management essential. The National Park Service believes that wilderness management is the highest form of stewardship it can provide for the public lands in its care.

Parks in the Nation's Capital

Washington, D.C., has a unique park system. Most public parks are administered by the federal government through the National Capital Region of the National Park Service.

National Capital Region has inherited duties originally assigned to three Federal Commissioners appointed by President George Washington in 1790. The city's parks were administered by a variety of federal agencies until this responsibility was assigned to the National Park Service under the Reorganization Act of 1933. Most city parklands are included in the federal holdings, although the District of Columbia also operates parks, playgrounds, and recreational facilities. National Capital Region also administers National Park System units in Maryland, Virginia, and West Virginia.

Related Areas

Besides the National Park System, four area designations—Affiliated Areas, National Heritage Areas, the National Wild and Scenic Rivers System, and National Trails System—are linked in importance and purpose to areas managed by the National Park Service. These areas are not all units of the National Park System, yet they preserve important segments of the nation's heritage. They are listed in Part 3 of this book.

Booker T. Washington founded this college for African Americans in 1881. Preserved here are the brick buildings the students constructed themselves, Washington's home, and the George Washington Carver Museum, which serves as the visitor center. The college is still an active institution that owns most of the property within the national historic site.
Authorized Oct. 26, 1974.
Acreage—57.92 *Federal*: 8.92 *Nonfederal*: 49.

Alaska

Alagnak Wild River

Katmai National Park
and Preserve, PO Box 7
King Salmon, AK 99613-0007
907-246-3305

The Alagnak River flows from Kukaklek Lake in Katmai National Preserve and offers 69 miles of outstanding whitewater floating. The river is also noted for abundant wildlife and sport fishing for five species of salmon.

Established Dec. 2, 1980. Length: 69 miles.

Acreage—30,655.45 *Federal*: 26,806 *Nonfederal*: 3,859.45.

Aniakchak

National Monument and

Aniakchak

National Preserve

PO Box 7
King Salmon, AK 99613-
0007
907-246-3305

The Aniakchak Caldera, covering some 30 square miles, is one of the great dry calderas in the world. Located in the volcanically active Aleutian Mountains, the Aniakchak last erupted in 1931. The crater includes lava flows, cinder cones, and explosion pits, as well as Surprise Lake, source of the Aniakchak River, which cascades through a 1,500-foot gash in the crater wall. NO FEDERAL FACILITIES.

Proclaimed Aniakchak National Monument Dec. 1, 1978; established as a national monument and national preserve Dec. 2, 1980.

Acreage—*National monument*: 137,176, all federal. *National preserve*: 464,117.93 *Federal*: 439,863 *Nonfederal*: 24,254.93

Bering Land Bridge

National Preserve

PO Box 220
Nome, AK 99762-0220
907-443-2522

Located on the Seward Peninsula, the preserve is a remnant of the land bridge that once connected Asia with North America over 13,000 years ago. Paleontological and archeological resources abound; large populations of migratory birds nest here. Ash explosion craters and lava flows, rare in the Arctic, are present. LIMITED FEDERAL FACILITIES. Proclaimed a national monument Dec. 1, 1978; established as a national preserve Dec. 2, 1980.

Acreage—2,697,393.11 *Federal*: 2,537,672 *Nonfederal*: 159,721.11.

Cape Krusenstern

National Monument

PO Box 1029
Kotzebue, AK 99752-0029
907-442-3890

Archeological sites located along a succession of 114 lateral beach ridges illustrate Eskimo communities of every known cultural period in Alaska, dating back some 4,000 years. LIMITED FEDERAL FACILITIES.

Proclaimed Dec. 1, 1978. Boundary change: Dec. 2, 1980.

Acreage—649,085.04 *Federal*: 588,241.79 *Nonfederal*: 60,843.25.

Denali National Park and

Denali National Preserve

PO Box 9
McKinley Park, AK 99755-
0009
907-683-2294

The park contains North America's highest mountain, 20,320-foot Mount McKinley. Large glaciers of the Alaska Range, caribou, Dall sheep, moose, grizzly bears, and timber wolves are highlights of this national park and preserve.

Established as Mt. McKinley National Park Feb. 26, 1917. Separate Denali National Monument proclaimed Dec. 1, 1978. Both incorporated into and established as Denali National Park and Denali National Preserve Dec. 2, 1980. Wilderness designated Dec. 2, 1980. Other boundary changes: Jan. 30, 1922; March 19, 1932. Designated a Biosphere Reserve 1976.

Acreage—*National park*: 4,740,911.72 *Federal*: 4,724,790.51 *Nonfederal*: 16,121.21. *Wilderness area*: 1,900,000. *National preserve*: 1,334,117.87 *Federal*: 1,303,972 *Nonfederal*: 30,145.87.

**Gates of the Arctic
National Park and
Gates of the Arctic
National Preserve**

201 First Avenue
Doyon Building
Fairbanks, AK 99701-4848
907-457-5752

Lying north of the Arctic Circle, the park and preserve include part of the Central Brooks Range, the northernmost extension of the Rocky Mountains. Often called the greatest wilderness in North America, these NPS units are characterized by jagged peaks, gentle arctic valleys, wild rivers, and many lakes. With adjacent Kobuk Valley National Park and Noatak National Preserve, they form one of the largest park areas in the world. Proclaimed Gates of the Arctic National Monument Dec. 1, 1978; established as a national park and national preserve Dec. 2, 1980. Wilderness designated Dec. 2, 1980. Designated a Biosphere Reserve (portion) 1984.

Acres—**National park:** 7,523,897.74 *Federal:* 7,266,102.39 *Nonfederal:* 257,795.35. *Wilderness area:* 7,052,000. **National preserve:** 948,607.96 *Federal:* 948,200.00 *Nonfederal:* 407.96.

**Glacier Bay National Park
and Glacier Bay
National Preserve**

PO Box 140
Gustavus, AK 99826-0140
907-697-2232

Great tidewater glaciers, a dramatic range of plant communities from rocky terrain recently covered by ice to lush temperate rain forest, and a large variety of animals, including grizzly bears, mountain goats, whales, seals, and eagles, are found within these parks.

Proclaimed Glacier Bay National Monument Feb. 26, 1925; established as a national park and national preserve Dec. 2, 1980. Boundary changes: April 18, 1939; March 31, 1955; December 1, 1978. Wilderness designated Dec. 2, 1980. Designated a Biosphere Reserve 1986. Designated a World Heritage site Dec. 14, 1992.

Acres—**National park:** 3,224,840.31 *Federal:* 3,223,018.23 *Nonfederal:* 1,822.08. *Wilderness area:* 2,770,000. **National preserve:** 58,406, all federal.

**Katmai National Park and
Katmai National Preserve**

PO Box 7
King Salmon, AK 99613-
0007
907-246-3305

Variety marks this vast land: lakes, forests, mountains, and marshlands abound in wildlife. The Alaska brown bear, the world's largest carnivore, thrives here, feeding on red salmon that spawn in the lakes and streams. Wild rivers and renowned sport fishing add to the attractions of this subarctic environment. Here, in 1912, Novarupta Volcano erupted violently, forming the ash-filled "Valley of Ten Thousand Smokes" where steam rose from countless fumaroles.

Proclaimed Katmai National Monument Sept. 24, 1918; established as national park and national preserve Dec. 2, 1980. Boundary changes: April 24, 1931; Aug. 4, 1942; Jan. 20, 1969; Dec. 1, 1978; Dec. 2, 1980. Wilderness designated Dec. 2, 1980.

Acres—**National park:** 3,674,529.68 *Federal:* 3,611,708.62 *Nonfederal:* 62,821.06. *Wilderness area:* 3,473,000. **National preserve:** 418,699.22 *Federal:* 405,432 *Nonfederal:* 13,267.22.

**Kenai Fjords
National Park**

PO Box 1727
Seward, AK 99664-1727
907-224-7500

The park includes one of the four major ice caps in the U.S., the 300-square-mile Harding Icefield, and coastal fjords. Here a rich, varied rain forest is home to tens of thousands of breeding birds, and adjoining marine waters support a multitude of sea lions, sea otters, and seals. The visitor center is in Seward, 10 miles from the park.

Proclaimed a national monument Dec. 1, 1978; established as a national park Dec. 2, 1980.

Acres—669,982.99 *Federal:* 601,839.20 *Nonfederal:* 68,143.79.

**Klondike Gold Rush
National Historical Park**
PO Box 517
Skagway, AK 99840-0517
907-983-2921
(See also Washington)

Historic buildings and exhibits in Skagway and portions of Chilkoot and White Pass trails, all prominent in the 1898 gold rush, are included in the park. A visitor center and 13 other restored historic buildings are in downtown Skagway. Authorized June 30, 1976.
Acreage—13,191.35 Federal: 2,418.93 Nonfederal: 10,772.42.

**Kobuk Valley
National Park**
PO Box 1029
Kotzebue, AK 99752-1029
907-442-3890

Embracing the central valley of the Kobuk River, the park, located north of the Arctic Circle, includes a blend of biological, geological, and cultural resources. Here, in the northernmost extent of the boreal forest, a rich array of arctic wildlife can be found, including caribou, grizzly and black bear, wolf, and fox. **LIMITED FEDERAL FACILITIES.** Proclaimed a national monument Dec. 1, 1978; established as a national park Dec. 2, 1980. Wilderness designated Dec. 2, 1980.
Acreage—1,750,716.50 Federal: 1,669,912.98 Nonfederal: 80,803.52. Wilderness area: 190,000.

**Lake Clark National Park
and Lake Clark
National Preserve**
4230 University Drive
Suite 311
Anchorage, AK 99508-4626
907-271-3751

Located in the heart of the Chigmit mountains, the park and preserve contain great geologic diversity, including jagged peaks, granite spires, and two symmetrical active volcanoes. Affiliated Areas

Roosevelt Campobello International Park

In the Act of August 18, 1970, the National Park System was defined in law as “any area of land and water now or hereafter administered by the Secretary of the Interior through the National Park Service for park, monument, historic, parkway, recreational or other purposes.” The same law specifically excludes “miscellaneous areas administered in connection therewith,” that is, those properties that are neither federally owned nor directly administered by the National Park Service but that the National Park Service assists.

The Affiliated Areas comprise a variety of locations in the United States and Canada that preserve significant properties outside the National Park System. Some of these have been recognized by Acts of Congress, others have been designated national historic sites by the Secretary of the Interior under authority of the Historic Sites Act of 1935. All draw on technical or financial aid from the National Park Service.

National Coal Heritage Area

National Heritage Areas expand on traditional approaches to resource stewardship by supporting large-scale, community centered initiatives that connect local citizens to the preservation, conservation, and planning processes. Through the facilitation of a local coordinating entity, like a private non-profit corporation or a public commission, residents of a region come together to improve regional quality of life by protecting their shared cultural and natural resources.

In National Heritage Areas, businesses, governments, non-profit organizations, and private individuals collaborate to promote sustainable economic development and community revitalization projects. This cooperative approach allows National Heritage Areas to achieve both conservation and economic growth in ways that do not compromise local land use controls. Participation in projects and programs is always voluntary, with zoning and land-use decisions remaining under the jurisdiction of local governments.

National Heritage Areas are designated by Congress. Each National Heritage Area is governed by separate authorizing legislation and operates under provisions unique to its resources and desired goals. The National Park Service provides technical planning and limited financial assistance. Serving as a partner and advisor, the National Park Service leaves decision-making authority in the hands of local people and organizations.

First inaugurated in 1984, National Heritage Areas encompass 40 regions, ranging from factory towns and city neighborhoods to farmland and battlefields. As part of a living, working, evolving landscape, National Heritage Areas reflect the diverse and evolving histories and cultures of the people who call the region home. Visitors who explore these special places will learn about an innovative approach to resource protection; they will also gain insight into the physical character and cultural legacy of the United States.

Here are the stories of the soldiers and civilians who shaped a critical period in American history. During the American Civil War, Virginia's Shenandoah Valley was in the crossfire between the North and South. This agricultural valley was militarily significant due to its ability to feed armies and its location close to the capitals of the opposing sides, Richmond, Va., and Washington, D.C. Authorized Nov. 12, 1996.

**Silos & Smokestacks
National Heritage Area**
604 Lafayette Street, Suite 202
Waterloo, IA 50704

Discover the story of agriculture, agribusiness, and farm life through sites, events, and communities. No other region in the United States shares such a rich agricultural legacy. Authorized Nov. 12, 1996.

**South Carolina
National Heritage Corridor**
1205 Pendleton Street
Columbia, SC 29201

Bounded at one end by the historic port city of Charleston and at the other by the Blue Ridge mountains, the corridor has historical, cultural, and natural resources that tell the vibrant story of South Carolina's centuries-old history. Authorized Nov. 12, 1996.

**Tennessee Civil War
National Heritage Area**
Center for Historic
Preservation, Middle
Tennessee State University

**Upper Housatonic Valley
National Heritage Area**
PO Box 493
Salisbury, CT 06068-0493

This region in northwestern Connecticut and western Massachusetts is noted for its picturesque landscape, the meandering Housatonic River, and traditional New England towns. The area's early history was marked by the American Revolution, early industrialization, and deforestation followed by a long history of reclamation and conservation. Authorized October 12, 2006.

**Wheeling
National Heritage Area**
1400 Main Street
Wheeling, WV 26003

The area commemorates the 1849 suspension bridge that extended the National Road (U.S. Route 40) into Ohio. The bridge brought people and goods to the city and enabled eastern settlers to migrate to the western frontier. The heritage area preserves and celebrates Wheeling's dramatic setting, resources, and history, including its role as birthplace of the state of West Virginia during the Civil War. Authorized Oct. 11, 2000.

**Yuma Crossing
National Heritage Area**
180 West First Street, Suite E
Yuma, AZ 85364

This heritage area celebrates the pivotal role Yuma, Ariz., played as a Colorado River crossing point in the 1800s and the city's innovative role in water management in the 1900s. Authorized Oct. 19, 2000.

National Wild and Scenic Rivers System

Public Law 90-542, of October 2, 1968, provides for the establishment of a system of rivers to be preserved as free-flowing streams accessible for public use and enjoyment. Components of the system, which may include only a portion of a river, are classified as wild, scenic, or recreational rivers. They are classified according to the degree of development on the river, shoreline, and adjacent lands. Thus a wild river shows little evidence of human activity, the river is free of dams, and it is generally inaccessible except by trail. A scenic river is one with relatively primitive shorelines but accessible in places by road. A recreational river has more development, is accessible, and may have been dammed or diverted in the past.

Once a river is designated a component of the National Wild and Scenic Rivers System, the objective of the managing agency is to preserve or enhance the features that qualified the river for inclusion within the system; any recreational use must be compatible with preservation. The rivers listed here are administered by the National Park Service. Those administered by the U.S. Fish and Wildlife Service are components of the National Wildlife Refuge System.

Rivers and streams that are in state-protected systems may become units of the national system if the state's governor asks for such inclusion. The Secretary of the Interior may then designate the river, if it is appropriate, as a unit of the system. Federally managed components of the system are designated by acts of Congress. Usually Congress first authorizes a detailed study to determine the qualification of a river area for the system.

National Trails System

The National Trails System Act of 1968, as amended, calls for establishing trails in both urban and rural settings for people of all ages, interests, skills, and physical abilities. The act promotes the enjoyment and appreciation of trails while encouraging greater public access. It establishes four classes of trails: national scenic trails, national historic trails, national recreation trails, and side and connecting trails.

National scenic trails are to be continuous, extended routes of outdoor recreation within protected corridors. The first two established under the National Trails System Act were the Appalachian and Pacific Crest trails. They wind through some of the nation's most striking natural beauty. National historic trails recognize past routes of exploration, migration, and military action.

The term national recreation trail is given to an existing local or regional trail when recognized by the federal government, with the consent of any federal, state, or political entity having jurisdiction over these lands. Today over 1,050 of these trails have been designated throughout the country. They are located in 50 states, the District of Columbia, and Puerto Rico, totaling over 19,000 miles.

Side and connecting trails provide additional access to and between components of the National Trails System. To date, two have been designated.

Since 1968, 43 long-distance trails have been studied for inclusion in the system, and 26 have been designated. The National Park Service, U.S. Department of the Interior, administers 19; the Bureau of Land Management, U.S. Department of the Interior, administers one; and the National Park Service and Bureau of Land Management jointly administer two. The Forest Service, U.S. Department of Agriculture, administers four.

The National Park Service encourages all public and private agencies to develop, maintain, and protect trails. With the cooperation and support of a nationwide trails community, the vision of an interconnected, cross-country trail system will become a reality. For information about the National Trails System Act visit: www.nps.gov/nts.

Ala Kahakai, "trail by the sea," connects shoreline trails associated with Polynesian settlement, illustrating how Hawaiians flourished as a civilization. Events commemorated along the trail include Captain Cook's historic landing, the rise of Kamehameha I, and changes leading to Hawaii's unique blend of cultures. The trail runs along beaches, passes ancient sites, and goes through natural, urban, and wilderness areas. Established Jan. 24, 2000. Length: 175 miles.

About 2,150 miles of this scenic trail follow the Appalachian Mountains from Katahdin, Maine, through New Hampshire, Vermont, Massachusetts, Connecticut, New York, New Jersey, Pennsylvania, Maryland, West Virginia, Virginia, Tennessee, and North Carolina, to Springer Mountain, Ga. The trail is one of the two initial components of the National Trails System. It is also a unit of the National Park System. Established Oct. 2, 1968. Length: 2,175 miles.

The California Trail is a system of overland routes, starting at five points along the Missouri River and ending at many locations in California and Oregon. Over these trails, from 1841 to 1869, passed one of America's great mass migrations, seeking the promise of gold and a new life in California. Established Aug. 3, 1992. Length: 5,600 miles.

This historic trail consists of water routes in the Chesapeake Bay and its tributaries. It commemorates the exploratory voyages of Captain Smith in 1607–1608 and the American Indian cultures that he encountered. It also interprets the historic and contemporary natural history of the bay, connecting dozens of gateway communities. Established: December 19, 2006. Length: 3,000 miles.

The network connects visitors with the Chesapeake Bay and its rivers through a partnership of 161 parks, wildlife refuges, museums, sailing ships, historic communities, and trails. Here people can experience the authentic Chesapeake—its spectacular natural areas, its contributions to America's history, and its maritime heritage. The experience will hopefully inspire a commitment to conserve and restore the Chesapeake. Established: December 2, 2002. Chesapeake Bay watershed: 64,000 square miles.

Running the length of the Rocky Mountains near the Continental Divide, this trail extends from Canada's Waterton Lake into Montana, along the Idaho border, and on to Wyoming, Colorado, and New Mexico, ending at the U.S.-Mexican border. Established Nov. 10, 1978. Length: 3,200 miles.

**El Camino Real de los Tejas
National Historic Trail**
National Park Service
National Trails System Office
PO Box 728
Santa Fe, NM 87504-0728

Established in the late 1600s as a route connecting missions across the plains of Texas, the route played key roles in securing the Spanish frontier with France, in holding Mexico's northern frontier after independence in 1821, and as the gateway for American settlement of Texas after the Republic period. The route was known as the "Old San Antonio Road." Established Oct. 18, 2004. Length: multiple routes totaling about 2,600 miles.

324 South State St., Suite 200
Salt Lake City, UT 84111

For 18 months in 1860–61, horseback riders carried mail between St. Joseph, Mo., and Sacramento, Calif., in about 10 days, proving that a regular overland communications link to the Pacific coast was possible. Most of the 150 relay stations no longer exist.

Established Aug. 3, 1992. Length: 2,000 miles.

**Potomac Heritage
National Scenic Trail**
National Park Service
PO Box B
Harpers Ferry, WV 25425

This trail, a unit of the National Park System, connects the tidewater regions of the Potomac River with the Allegheny Highlands in Pennsylvania. The C&O Canal towpath serves as spine of the network, with trails and routes for different kinds of travel managed by various agencies and organizations. Established March 28, 1983. Length: 845 miles.

**Santa Fe
National Historic Trail**
National Park Service
National Trails System Office
PO Box 728
Santa Fe, NM 87504-0728

From 1821 the Santa Fe Trail was an international trade route between Missouri and New Mexico. After the U.S.-Mexican War (1846–1848), it continued to be used for commercial and military freighting, mail delivery, stagecoach lines, and general travel.

Established May 8, 1987. Length: 1,203 miles.

**Selma to Montgomery
National Historic Trail**
National Park Service
7002 US Highway 80
Hayneville, AL 36040-4612

This trail commemorates the 1965 voting rights march led by Dr. Martin Luther King, Jr. The marchers walked along U.S. Highway 80 from Brown Chapel A.M.E. Church in Selma, Ala., to the State Capitol in Montgomery. The march helped inspire passage of voting rights legislation signed by President Johnson on Aug. 6, 1965.

Established Nov. 12, 1996. Length: 54 miles.

**Star-Spangled Banner
National Historic Trail**
410 Severn Avenue
Annapolis, MD 21403

This five-pronged set of land and water trails commemorates the movements of British and American forces in the Chesapeake Bay region during the War of 1812. In the summer of 1814, British naval forces occupied the Chesapeake Bay, burned public buildings in Washington, D.C., occupied Alexandria, Va., and laid siege to Fort McHenry in Baltimore, Md. During that unsuccessful siege, Francis Scott Key wrote the poem that became the U.S. national anthem.

Established: May 8, 2008. Length: 290 miles.

**Trail of Tears
National Historic Trail**
National Park Service
National Trails System Office
PO Box 728
Santa Fe, NM 87504-0728

The Trail of Tears commemorates the primary land and water routes used for the forced removal of over 16,000 Cherokee Indians from their ancestral lands in North Carolina, Tennessee, Georgia, and Alabama to Indian Territory (today's Oklahoma) in 1838–39.

Established Dec. 16, 1987. Length: 2,200 miles.
