Memorandum

To: Director
From: Acting Superintendent
Subject: Monthly Report for August 1958

Following is the report of activities for Yellowstone National Park during the month of August 1958.

General

Weather. A maximum of 97° was recorded at Park Headquarters on the 8th while the minimum of 33° was recorded on the 30th. Precipitation was recorded on 13 days at Mammoth and the total for the month there was a maximum of 2.28 inches.

Range. Forage growth on the upper, non-critical range continued until about mid-August.

The status of the range in Yellowstone in support of recommendations for reduced grazing pressure was reviewed at the meeting of the Upper Gallatin Conservation Committee, on the 24th.

Jack M. Bottier, Bureau of Land Management Motion Picture Specialist, from Washington, D. C. was in the Park August 4-10 to gather material for a movie relating to soil and moisture control and range improvement.

Increase or Decrease in Travel. The millionth visitor for 1958 was admitted on August 13, a week later than in 1957. Travel for the season, thru August, was down 10.4 percent for the same period last year--1,272,821 as against 1,417,072. A total of 460,760 visitors entered the Park during August as against 514,259 for August 1957. Trailer travel through August for the season is showing an increase of 14.4 percent above last year.

Inspections. Superintendent Frank Oberhansley and Forester Maynard Barrows of Grand Teton National Park were in on August 1 to discuss matters of mutual interest.

Newell Joyner, Museum Curator, Region Two, arrived August 9 to work on the museum records system. He departed the 17th.

Lewis D. Parr, Personnel Officer, WOOC, San Francisco, was in the Park August 9-11 on an inspection and audit of WOOC field personnel operations and student assistance programs.

John E. Boucher, NPS Photographer, Washington, D. C. was in the Park from August 11th through the 28th, to obtain color slides and black and whites of MISSION 66, visitor use, scenic views, etcetera.

John M. Davis, Chief of Ranger Activities, Washington, D. C. arrived August 17 in connection with ranger activities and other Park operations. He left the 29th.

Winthrop S. Marsden, Supervisory Electrical Engineer, Ralph McFadden, Electronics Engineer and Ralph C. Chernoff, Student Assistant Engineer, WOOC, were in the Park August 12-21 to make a field survey for information on 1959 fiscal year projects and inspection of electrical contracts.

Francis A. Roberson, Regional Architect, was in the Park August 17-19 to gather specific quarters data for Quarters reports and other Park matters.

Malcom W. Gratton, Regional Landscape Architect, was here from August 19 to 22 to observe recent developments under MISSION 66 and review sign programs.

James D. Geissinger, Regional Solicitor, Department of the Interior, Billings, Montana, was in the Park August 17 and 18, enroute to Glacier, to discuss law enforcement problems.

C. W. Voit, Supply Service Office, General Services Administration, Denver, was in the Park August 17 and 20 to discuss proposed field distribution system in Yellowstone with the Purchasing Division.

Dan Feaser, Exhibits Construction specialist, Frank Phillips, Exhibits Construction Specialist, and Floyd Lafayette, Museum Specialist, WASO, left the Park on August 5 after assisting with the Canyon Visitor Center exhibits.

O. L. Wallis, Aquatic Biologist, NPS, Washington, D. C., was here from August 23 to 27 to determine and evaluate needs for research and interpretation of aquatic resources.

John M. Good, Geologist, Region Two, was here from the 23rd to 25th familiarizing himself with Park Naturalist George Marler's thermal studies.

Ernest K. Field, Forester, Region Two, was in August 24, to study Yellowstone Lake and development of use policy. He departed the 27th.

in some cases, the same, or similar, products are available at lower prices in other countries. In such cases, it may be more economical to buy from abroad than to buy from the United States.

In other cases, however, the cost of shipping and handling may be so high that it is better to buy from the United States. This is particularly true if the product is a large item, such as a car or a piece of machinery.

It is also important to consider the quality of the product. Some products are made of inferior materials and are not as durable as others. It is important to buy from a company that has a good reputation for quality and reliability.

Finally, it is important to consider the cost of shipping and handling. If the cost of shipping and handling is too high, it may not be worth the extra cost to buy from abroad.

Overall, buying from abroad can be a good way to save money, but it is important to carefully consider all factors before making a decision.

Special Visitors. Paul Johnson, of the National Geographic Magazine, Editor of the Book on National Parks, which is to be published soon, was in the Park August 16 to refresh himself on Yellowstone and to catch some of the feelings of the Park which his book will convey to the public.

Bernard Krebs, world-famous盲人writer and lecturer, Mr. Mrs. Krebs, who is partially-sighted, were in the Park August 16 and 17 to make a touch "Sightsee" tour of the Park.

Carl Loren, Chief, Branch of Recreation Survey and Robert Jones, Recreation Planner, Region IV visited in the Park like 28th enroute to Omaha.

Mark Evans, Radio and Television Broadcast Director for station WOP, Washington, arrived in the Park the 26th. He made two tape recordings of Park operations and happenings at the Conference Center.

Mr. Edmund J. Rogers, Special Assistant to the Director, and former superintendent visited the park with Mr. Rogers August 28-30.

Miss Helen Brown, one of the leaders of American youth arrived in the Park August 29 to spend some time here before going to Grand Teton next month.

Marcia M. Albright, who was Superintendent of the Park from 1919 to 1927 and Director of the National Park Service from 1927 to 1933, arrived with Mrs. Albright on August 18, and will go to Grand Teton next month.

Special Activities. Superintendent Garrison, Park Ranger Rowe and Electrical supervisor Murray left the Park on a motor back and camping trip in the southcentral portion of the Park. They met with the "Wilderness Trail Riders of America", a group organized by the American Forestry Association. They returned the 26th, while Messrs. Rowe and Murray returned the 1st.

Superintendent Garrison, Park Ranger Tamm and Ranger Hayes, Chief of Ranger Activities, KPB, Jackson, left the Park on a motor back and camping trip in the southcentral portion of the Park. They met with the "Wilderness Trail Riders of America", a group organized by the American Forestry Association. They returned the 26th.

Assistant Superintendent Garrison, Assistant Game Ranger Sylvester and Biologist Kittens, went to Grand Teton on 28th to attend a meeting of the Jackson Hole Cooperative Elk Committee. They returned the next day.

Administrative Officer Ansdell, Personnel Officer, Miller and Painter Foreman Olson went to Pocatello, Idaho on the 4th on a Wage Board survey. They returned the 5th.

the original formation of the country. Most of the time, however, the
formation of the soil is due to the action of water and the action of wind,
which carries away the loose soil particles and the fine sand, leaving
the coarse, solid rock particles which form the base of the soil.

The soil is composed of various materials, such as sand, silt, clay, and
lime, which are derived from the weathering of rocks and the decomposition
of organic matter.

The soil is a mixture of mineral and organic materials, and it is
composed of various components, such as sand, silt, clay, lime, and organic
matter.

The soil is a mixture of mineral and organic materials, and it is
composed of various components, such as sand, silt, clay, lime, and organic
matter.

The soil is a mixture of mineral and organic materials, and it is
composed of various components, such as sand, silt, clay, lime, and organic
matter.

The soil is a mixture of mineral and organic materials, and it is
composed of various components, such as sand, silt, clay, lime, and organic
matter.

The soil is a mixture of mineral and organic materials, and it is
composed of various components, such as sand, silt, clay, lime, and organic
matter.

matter.

The soil is a mixture of mineral and organic materials, and it is
composed of various components, such as sand, silt, clay, lime, and organic
matter.

Park Rangers Davis, Gundlach, Hays, Jackson, Burke and Webb, were dispatched to Glacier the 14th to help fight a large fire which broke out in a primitive portion of that area. Park Naturalists Replogle and Lystrup and Park Ranger Viking left the 15th to render further assistance. Mr. Lystrup returned the 20th while the others returned the 22nd.

Canyon Visitor Center was dedicated on August 17. Secretary of the Interior Fred A. Seaton was the principal speaker at the ceremonies. Director Mirth introduced the Secretary while Superintendent Garrison was Master of Ceremonies. Other officials attending the dedication were: George Abbot, Administrative Assistant to Secretary Seaton; George F. Bagley, Regional Chief of Operations, and Luther T. Petersen, Junior Engineer, Region Two. Governor J. Hugo Aronson, of Montana and Robert W. Myrick, of Idaho were honored guests. Mr. George E. Staples, Assistant to the Regional Operation Director, Post Office Department, Denver, spoke for the Post Office Department. The colors, which were raised at the ceremonies, also flew over old Fort Yellowstone near Mammoth when the Fort was closed in 1916, as the National Park Service assumed jurisdiction of Yellowstone from the U. S. Army.

The pageant, depicting the birth of the National Park idea being the reenactment of the Washburn-Osgood Expedition campsite of September 18, 1870, was presented on August 18, the anniversary of the National Park Service.

The Upper Gallatin Conservation Committee held their annual ride August 21-22. Supervisory Park Ranger Jerry and Biological Division attended the business sessions.

Chief Park Ranger Brown attended a wildlife and range observation meeting in Lusk, Montana on July 18th, returning the 20th.

Staff meetings were held August 21-22.

The Incentive Awards Committee held their monthly meeting on August 19.

Administration

Personnel. Gilbert E. Johnson, machinist, Draftsman, and Harold F. Derryall, Electrician, resigned, both effective August 10.

Lawrence J. Novig, converted to career-conditional appointment, effective August 10.

Margaret L. Billman, promoted from Clerk-Stenographer, GS-3, to Clerk-Stenographer, GS-4, effective August 10.

and the other, which is the same, I think, as the one you have
written to me, I will add a few more observations about
the last sentence. There are two ways of looking at it. One way
is to take the first part of the sentence as referring to the
whole of the last part of the sentence, and the second part
as referring to the whole of the sentence.

The first part of the sentence is "that the author of the
last part of the sentence is the same as the author of the
whole of the sentence." This is true if we consider the
whole of the sentence as referring to the whole of the sentence.
The second part of the sentence is "that the author of the
last part of the sentence is the same as the author of the
whole of the sentence." This is true if we consider the
whole of the sentence as referring to the whole of the sentence.
This is true if we consider the whole of the sentence as
referring to the whole of the sentence. This is true if we
consider the whole of the sentence as referring to the whole of the
sentence. This is true if we consider the whole of the
sentence as referring to the whole of the sentence.

and the second part of the sentence is "that the author of the
last part of the sentence is the same as the author of the
whole of the sentence." This is true if we consider the
whole of the sentence as referring to the whole of the
sentence.

This is true if we consider the whole of the sentence as
referring to the whole of the sentence. This is true if we
consider the whole of the sentence as referring to the
whole of the sentence. This is true if we consider the
whole of the sentence as referring to the whole of the
sentence. This is true if we consider the whole of the
sentence as referring to the whole of the sentence.

and the second part of the sentence is "that the author of the
last part of the sentence is the same as the author of the
whole of the sentence."

Conclusion

the conclusion you have got is that the author of the
last part of the sentence is the same as the author of the
whole of the sentence. This is true if we consider the
whole of the sentence as referring to the whole of the
sentence. This is true if we consider the whole of the
sentence as referring to the whole of the sentence.

and the second part of the sentence is "that the author of the
last part of the sentence is the same as the author of the
whole of the sentence."

Walter H. Kittams, promotion and change of headquarters, from Biologist, GS-11, Yellowstone to field research biologist, GS-11, in Region Two, effective August 10.

Arthur F. Hewett, promotion and change of headquarters, from Park Naturalist, GS-7, Carlsbad Caverns National Park, to Park Naturalist, GS-9, effective August 17.

Anne B. Goff, promotion from Secretary (stenographer), GS-6, to Secretarial Assistant, GS-7, effective August 19.

Henry J. Pratt, promotion from Personnel Clerk, GS-3, to Personnel Assistant, GS-7, effective August 22.

In-service Training. A series of training movies were presented on the 6th to Bureau of Public Roads employees in the canyon Visitor Center Auditorium.

A special training committee meeting was held on August 21. Committee members attending were Park Engineer Lowe, Chief Park Ranger Brown, Equipment supervisor Robinson, Administrative Officer Anderson, Personnel Officer Miller and Chief Park Naturalist Condon.

Miscellaneous. The American Federation of Government Employees held a regular meeting on August 11.

The National Federation of Federal Employees Local 661 held a special meeting on August 22. Mrs. Bernice Lundy, Montana State President of the organization, presided at the meeting.

Superintendent Garrison extended Mrs. Merrill D. Beal's appointment on the school board for 2 years, to August 1, 1960, or August 27.

Births. A daughter, Patricia Lynn, was born to Mr. and Mrs. Bill G. Erick. Mr. Erick is employed as a seasonal laborer with the National Park Service.

A son, William Andra, was born to Mr. and Mrs. Gerald Hoddenbach. Mr. Hoddenbach is employed as a seasonal fire Control Aid (Lookout), with the National Park Service.

A son, Wade Ames, was born to Mr. and Mrs. W. R. Miller. Mr. Miller is Manager of Accommodations with the Yellowstone Park Company.

Deaths. Edwin Reese, 60, Billings, Montana, died August 1 of a heart attack. Mr. Reese was employed as a seasonal carpenter with the Yellowstone Park Company.

and supported to receive his declining years. It will
also indicate where there is opportunity, if no employment can
be found outside of agriculture.

It is proposed to make the following changes, which
will affect all of the towns excepting those in which there
is no townsite.

(1) Amend section 3 by striking out "and" at the end
of the first sentence, thus reading "any townsite or

any village or hamlet in which there is no townsite or
any townsite which is not in the town or city of Boston;

(2) Amend section 4 by striking out "and" at the end of the first sentence, and
the word "any" at the beginning of the second sentence, so as to read "any townsite or
any townsite which is not in the town or city of Boston;

(3) Amend section 5 by striking out "any townsite or
any townsite which is not in the town or city of Boston;

(4) Amend section 6 by striking out "any townsite or
any townsite which is not in the town or city of Boston;

(5) Amend section 7 by striking out "any townsite or
any townsite which is not in the town or city of Boston;

(6) Amend section 8 by striking out "any townsite or
any townsite which is not in the town or city of Boston;

(7) Amend section 9 by striking out "any townsite or
any townsite which is not in the town or city of Boston;

(8) Amend section 10 by striking out "any townsite or
any townsite which is not in the town or city of Boston;

(9) Amend section 11 by striking out "any townsite or
any townsite which is not in the town or city of Boston;

Al Argilli, father of seasonal Park Ranger Stewart A. Argilli, passed away in Kemmerer, Wyoming, August 5.

Mrs. Dora B. Jensen, 65, mother of Mrs. William Biastoch, died in Columbus, Montana, on August 9.

Arthur E. Demaray, former Director of the National Park Service, died on August 19 at Tucson, Arizona. Flags in Yellowstone were flown at half staff in respect to Mr. Demaray until after the funeral.

Mrs. Ann Courtney, 63, mother of Mrs. Donald Cameron, passed away in Mammoth on the 26th following a long illness.

Four visitors died from heart attacks--Marvey Stein, 61, Ogden, Utah on the 13th; Robert H. Post, 61, Mattoon, Illinois, on the 18th; Milton J. Cadotte, 64, Springfield, Illinois, on the 20th and Frank Z. Decker, 75, Pocatello, Idaho on the 28th.

Miss Patricia M. Pinegar of Pauls River, New York, died on the 23rd and Clyde D. Moore of Lodge Grass, Montana, died the 24th in a one car accident which happened on the 23rd. Miss Pinegar was a seasonal Yellowstone Park employee while Mr. Moore was a visitor.

Marriages. Mr. Cole Iverson and Miss Carole Killander were married August 18 in the Yellowstone Park Chapel. Mr. Iverson is a seasonal employee of the Yellowstone Park Company.

John Nichols and Sandra Foote were married August 23 in Farmingdale, New York. Mr. Nichols is the son of Yellowstone Park Company President and Mrs. John Nichols.

Accidents and Public Safety. A total of 57 automobile accidents occurred during the month, 19 minor, 26 Class A and 12 Class B. A one-car accident on the 23rd resulted in two deaths and one injury, another one-car accident on the 25th resulted in a visitor receiving a broken back.

Eleven persons were injured by bears, two from horse accidents, two from scalding in thermal features, one from falling off a ladder, one from falling on a board walk, and one while fishing.

The USGS helicopter was used for two rescues during the month--one at Boulder Basin on the 1st and the other south of Bridger Lake on the 17th.

Cooperative Activities

Publicity. On each Thursday, the Yellowstone Weekly News was issued to keep employees, concessioners and others currently informed of Park happenings.

Press releases were issued throughout the month on Canyon Village dedication, Campfire Day Pageant and cast, closing dates of

dition of which may have been due to small, light winds.

At present, however, it is beyond

anyone's knowledge, what the condition of the sea is now, and

what may be expected in the future.

Such forecasts can be reasonably good, however, if made
and based on quite accurate reports of the changes in both
the winds and the currents, and if there are no small ones
of current.

Such forecasts become less good, the greater the time

available, and a reasonably good one is about six weeks.

If winds prove reasonably steady and small relatively fast,
so, provided certain other steady winds or tides do not
exist and no other big influences do exist, a reasonably good
forecast can be made, probably of 25 miles. If steady
winds do not exist, and steady winds do not exist, the forecast

can only show where the wind is likely to blow, and
the wind will remain steady until the steady wind ends
or some other wind comes in, and so provides better conditions. Then a
similarly poor forecast, with perhaps only a 10-mile forecast.

Such forecasts can be made, and are often made.

It is important, however, that such forecasts not be given to helmsmen
unless they can be expected to be useful, and that they

are not given before they are expected to be useful and
not necessarily to one who is afraid, or who has a strong
aversion to the sea.

Such forecasts are, however, often given to sailors.

It is a fact of nature that men do not like to be told
what they are to do, nor does a man like to be told a lie
and yet like honesty and tell him what he expected and what
he might be doing while still he is in such a state of uncertainty
that he can

Conclusion

such forecasts are useful and, probably, the best, if the
forecasts are accurate, can be made by means of small and
easily understood instruments.

Such instruments need not be elaborate, but must be simple, reliable, and
be such that they can measure the existing conditions accurately enough

concessioner operations, and on the Big Hole Battlefield National Monument MIS. IOM 66 prospectus brief.

The Associated and United Press were given the Canyon Visitor Center Dedication story by telephone on August 15.

Religious and Chapel Use. The schedule for religious services was continued throughout the month. The Chapel was used on August 16 for a wedding ceremony. A special service was held on the 17th for the Protestant services dedicating the two altar hangings donated by the Yellowstone Park Company employees in memory of Mr. William W. Nichols.

Museum Activities and Exhibits. The installation of exhibits at the Canyon Visitor Center, except for the grizzly bear family, was completed on August 4. Several small animal specimens were installed in the exhibit cases at the Canyon Visitor Center on the 20th.

The Canyon Visitor Center was dedicated on August 17 with a very impressive ceremony. Chief Park Naturalist Condon was in charge of the dedication ceremonies.

The Malalite caravan was discontinued for the season on the 26th and the program at Tower Fall-Roosevelt Lodge area was concluded on the 29th. All other interpretive programs were carried on as scheduled throughout the month. The Lake Lodge walk and evening program were terminated August 22 and 30, respectively. Curtailment of some hikes and programs began on the 25th.

Research and Observation. An unusual bird display was available to Park visitors during the month--two pair of Trumpeter Swan, in the vicinities of the mouths of Alm and Otter Creek showed no evidence of being timid, permitting people to approach them within twenty feet. One pair of the Swan had two cygnets.

On the evenings of August 15, 16, 17 and 18, the Russian Sputnik was visible when it passed over Yellowstone between the hours of 8:00 and 9:00 p.m.

Several observation trips have been made to the Trout Creek Dump and as many as 50 grizzly bears have been observed at one time.

Natural History Association. Mrs. Bertha Wharton and Mrs. Lucille Wagner, Clerk and Librarian, respectively, for the Association were on duty all month. A sales center was established at the Canyon Visitor Center on the 17th.

Concessioners. Superintendent Garrison met with the concessioners on the 7th--those attending, in addition to Park Service personnel, were: Messrs. Nichols, Chile and Galusha of the Yellowstone Park Company, Mr. Povah of Hamilton Stores, Inc., and Mr. and Mrs. Haynes of Haynes Inc.

The Yellowstone National Park Council met August 10 at the Canyon Hotel. Those representing the National Park Service were Superintendent Garrison, Assistant Superintendent Gastellum, and Management Assistant Joffe. Concessioners attending were President Nichols, Vice President Child, Publicity Director Watson, Attorney Calusha, Mr. Richard, Director, Suzanne Miotti, Assistant to the President and Mrs. A. W. Nichols, Yellowstone Park Company; Mr. and Mrs. Jack Baynes, Haynes Inc.; Dr. Alfred M. Lueck of the Park Medical Service; Mr. Trevor Royal and Mr. and Mrs. Gar Helppie of Hamilton Stores, Inc. Others attending were Mr. Russell Hart, Hart Albin Company, Billings; Mr. Jack Mallowell, Advertising Director, Montana State Highway Commission, Helena; Mr. Keith Gabron, Assistant Secretary-Manager, Wyoming Travel Commission, Cheyenne; Lloyd Taggart, Cody, Wyoming; Miss Louise Sheddick, Director of Commerce and Development, Boise; S. M. Meikle, President, Idaho Bank of Commerce, Rexburg and Mr. Vince Bradley of the Mountain States Telephone and Telegraph Company.

The house count of 9,027, the largest all time house count in the history of the Park, was reached on August 19.

Roosevelt Lodge closed operations after breakfast on August 30.

Maintenance. In addition to regular maintenance, ball seating, sealing and patching work was carried on. Seven bridges on the Firehole Lake Loop were also redecked in addition to guard rail installation in numerous places in the Park. Considerable trail work was done such as placing markers, repairing washouts, etc.

Construction. The Hartwell Construction Company, of ~~Idaho~~ Palls, Idaho, was low bidder for the Mammoth employee trailer court improvement, with \$7,658.

Reed Nielsen, St. Anthony, Idaho, was low bidder for Lake area building improvements, with \$216,262.70.

Complaints. Seventeen complaints were investigated and twelve were answered. Complaints ranged from dissatisfaction with accommodations to garage difficulties.

Patrols and Ranger Service. Entrance stations were manned 24 hours a day during the month. The population count was taken on August 5, 8 and 10. The patrol cabins are being readied for winter use.

Law Enforcement. A total of 36 cases were brought before U. S. Commissioner Brown. Speeding headed the list with 19 counts while liquor violations was second with 6 counts. Approximately \$300 of funds embezzled by two Yellowstone Park Company employees was recovered. A Park Ranger (General) Douglas E. Kelly was suspended from duty on the 28th for irregularities in the handling of government funds. He was transferred to Cheyenne, Wyoming for further court action.

and in a month few days after having completed our
new home we were able to get married. Since we had
been given time to get married we did not have to leave
the country until the end of November. We had to wait
until then because we wanted to have the wedding in
November, and November was the only month available.
We had to leave on December 1st, so we had to get married
on November 27th. We had to leave on December 1st, so we had to get married
on November 27th.

After getting married we had to leave on December 1st.

We had to leave on December 1st, so we had to get married
on November 27th.

Forest Fire Protection. A hoist trailer caught fire just 5.3 miles inside the Park boundary near Washburn entrance on the 6th. There was no substantial damage or loss. A Shaver Construction Company road mix plant caught fire on the 11th-- truck and other materials were destroyed. Two small fires were reported in the Lake and Shoshone Bridge area but they were quickly suppressed without damage.

Forest Fire Protection. Twenty-four forest fires were reported during the month--two were non-statistical and one was in the Teton National Forest.

Forest Insects. A survey of spruce budworm and Western pine damage was made the first part of the month. Considerable damage to the Douglas fir trees throughout the northern part of the Park was observed. A number of Forest Service men from the Insect Laboratory in Missoula were assisting Park Service personnel in these surveys. A number of trees were noted to be killed by mountain Pine Beetles in the Washburn area.

Game and Fish Culture. Wildlife. B.M. Game Warden reported to persons through August total 36, while property damage totaled 30, compared to 74 and 30, respectively, for the same period last year. A 3-year old female grizzly bear was released to the Como Ranch, St. Paul, Montana on the 20th.

Bison. Two bison were reported in the vicinity of Captain Creek, Slough Creek and Horseshoe area, and four near Gardiner Junction. The USGS helicopter crew spotted six on the upper Lamar Plateau.

Deer. A large number of deer were observed near the West Entrance and two bucks were seen near Rock Creek.

Elk. Six were observed in the vicinity of Morris and Madison Junction intermittently throughout the month.

Lion. A Mountain Lion was reportedly seen near the West Entrance on the 4th by a visitor. Rangers on night duty there state that they heard the screams of the lion before day after the 4th.

Sheep. Nine sheep were observed on Mt. Washburn, 3 being lambs, and fourteen were seen on Hellroaring Mountain, on the 13th and 28th, respectively.
