Glen Echo Park

Glen Echo began in 1891 as a National Chautauqua Assembly, a center "To promote liberal and practical education, especially among the masses of the people; to teach the sciences, arts, languages, and literature; to prepare its patrons for their several pursuits and professions in life; and to fit them for the duties which devolve upon them as members of society." By 1900 Glen Echo had become an Amusement Park which served the Washington area until 1968. Since 1971, Glen Echo has again been developing the concept of arts and cultural education for everyone under National Park Service direction and with a high level of public and community involvement. It serves both the surrounding communities and visitors from across the country. Its four sessions of classes are taught year-round by well-known artists and professionals, some of whom are members of the residency programs in the park. There are concerts, demonstrations, workshops and festivals on Sundays during the warm months as a part of the Chautauqua Summer Season, one of the largest cultural programs in the Washington, D.C. area. In addition, the antique hand-carved and hand-painted Dentzel carousel, saved by community effort, operates on summer weekends, and the Gallery offers changing monthly exhibitions of Glen Echo's artists.

I came to ride the Dentzel Carousel in 1978 because my son, Max Hurley, was operating it. When I entered the park I was heart-broken seeing how different it looked from what I remembered it in the forties, fifties, and early sixties.

I was remembering the different rides—the fun house and the laughing lady. Most of all of how I enjoyed the Spanish Ballroom and dancing to the "Big Bands" of that era.

In the forties, Glen Echo Park was the place for the servicemen to meet girls for a day and evening of fun. Then in the fifties and sixties, I took my children to the Crystal Pool and the rides. Anyway, these are pleasant memories.

Now that I am cashier at the Dentzel Carousel during the season, I am enjoying other pleasures. I have the opportunity to meet people of all walks of life. Many of the older adults love to reminisce with me about the days when the park was an amusement park.

And then there are the children and the handicapped that come back year after year for the carousel ride. What a delight to have people come to Glen Echo Park for a bit of relaxation and fun.

Oh! I must not forget the Wurlitzer Band Organ that brings many hours of listening pleasure (a little loud, yes) but still enjoyable

In closing, let me say if you are looking for a little bit of nostalgia and a relaxing and peaceful atmosphere, come to Glen Echo Park

The Programs

A History

In the 1890's Glen Echo Park was the site of a National Chautauqua Assembly. Here in the park, the Potomac families camped for the summer and attended poetry readings, lectures, concerts as well as parties, sports, and much more. In 1891 the Chautauqua Movement stated its goals thusly:

"To promote liberal and practical education, especially among the masses of the people; to teach the sciences, arts, languages, and literature; to prepare its patrons for their several pursuits and professions in life, and to fit them for the duties which devolve upon them as members of society."

Today the Creative Education Program is loosely based on the Chautauqua Movement and shares the following goals of the movement:

1. Support the development of human growth and potential
2. Place high-quality cultural programming in a relaxed, recreational, and fun setting
3. Create a resource center of practical and liberal knowledge and skills made accessible to the general public

Residents and Instructors

Instructors in the Creative Education Program are not salaried employees of the National Park Service. They are, rather, independent "Cooperative Agents," and the tuition fees received by the park service are paid directly to them minus a \$6 registration fee per person. Tuition fees may be up to \$4 per hour per student. In addition to teaching classes, they also participate in festivals and may be involved in various other Glen Echo programs.

Creative Education Program teachers fall into two categories: Instructors and Residents. Instructors teach in multi-use classroom areas and are accepted for one year of classes at a time. Residents operate full time studio spaces at the park. Proposals for a residency space are accepted when a vacancy is advertised. One proposal is chosen from the several that are received. Residency is awarded for a two to three year period. Both residents and non-residents pay utilities fees.

The Glen Echo Park Foundation

Efforts are being made to organize a Glen Echo Park Foundation. This organization will be non-profit and will aid Glen Echo in such projects as fundraising, co-sponsorship of programs, and museum projects. If you would like to support such an organization and are interested in finding out more, please write Nancy Long, 6001 Bryn Mawr Lane, Glen Echo, Maryland 20812.
