Glen Echo Park

1984 Fall Classes and Events

National Park Service

Glen Echo Park

Glen Echo began in 1891 as a National Chautauqua Assembly, a center "To promote liberal and practical education, especially among the masses of the people; to teach the sciences, arts, languages, and literature; to prepare its patrons for their several pursuits and professions in life; and to fit them for the duties which devolve upon them as members of society." By 1900 Glen Echo had become an Amusement Park which served the Washington area until 1968. Since 1971, Glen Echo has again been developing the concept of arts and cultural education for everyone under National Park Service direction and with a high level of public and community involvement. It serves both the surrounding communities and visitors from across the country. Its four sessions of classes are taught year-round by well-known artists and professionals, some of whom are members of the residency programs in the park. There are concerts, demonstrations, workshops and festivals on Sundays during the warm months as a part of the Chautauqua Summer Season, one of the largest cultural programs in the Washington, D.C. area. In addition, the antique hand-carved and hand-painted Dentzel carousel, saved by community effort, operates on summer weekends, and the Gallery offers changing monthly exhibitions of Glen Echo's artists.

My introduction to Glen Echo Park came in 1981 when, as a new staff member of the Montgomery County Arts Council, I was charged with organizing a summer jazz festival to be held at the Park. What I saw when I first visited the Park was a shock. I simply didn't know what to make of this seemingly decaying relic of another age.

What I quickly learned, however, and what everyone who has ever visited the Park has learned, is that appearances do not a park make. At least in this case. What does make Glen Echo Park, and what makes it so special and so important to us, is the collective spirit of everyone involved. A spirit of cooperation and a readiness to share one's talents and energies with one another. It is the artists who make up the residencies, the painters, sculptors, the printmakers, the dancers and the actors, the teachers. It is the dedication of the Park's staff working to hold it all together and make it work, refusing to let sometimes difficult circumstances dictate failure. And it is all of us who visit the Park, who participate in the summer dances, the classes, the festivals, the picnics with our families.

We all have a share in Glen Echo Park and we all benefit from its existence. We should not forget just how important it is to our lives to have so close at hand such an oasis of cooperation, good will, and cultural opportunities. Glen Echo Park is a treasure, and one which we all need to nurture.

The Programs

A History

In the 1890's Glen Echo Park was the site of a National Chautauqua Assembly. Here on the banks of the Potomac, families camped for the summer and attended poetry readings, lectures, concerts, as well as parties, sports, and much more. In 1891 the Chautauqua Movement stated its goal in this way:

"To promote liberal and practical education, especially among the masses of the people; to teach the sciences, arts, languages, and literature; to prepare its patrons for their several pursuits and professions in life, and to fit them for the duties which devolve upon them as members of society."

Today the Creative Education Program is loosely based on the Chautauqua Movement and shares the following goals of the movement:

1. Support the development of human growth and potential
2. Place high-quality cultural programming in a relaxed, recreational, and family setting
3. Create a resource center of practical and liberal knowledge and skills made accessible to the general public

Residents and Instructors

Instructors in the Creative Education Program are not salaried employees of the National Park Service. They are, rather, independent "Cooperative Agents," and the tuition fees received by the park service are paid directly to them minus a \$6 registration fee per person. Tuition fees may be up to \$4 per hour per student. In addition to teaching classes, they also participate in festivals and may get involved in various other Glen Echo programs.

Creative Education Program teachers fall into two categories: Instructors and Residents. Instructors teach in multi-use classroom areas and are accepted for one year of classes at a time. Residents operate full time studio spaces at the park. Proposals for a residency space are accepted when a vacancy is advertised. One proposal is chosen from the several that are received. Residency is awarded for a two- to three-year period. Both residents and non-residents pay utilities fees.

The Glen Echo Park Foundation

Efforts are being made to organize a Glen Echo Park Foundation. This organization will be non-profit and will aid Glen Echo in such projects as fundraising, co-sponsorship of programs, and special projects. If you would like to support such an organization and are interested in finding out more about it, please write Nancy Long, 6001 Bryn Mawr Lane, Glen Echo, Maryland 20812.
